December 5, 2023

Honorable President and
Members of the Board of Education
Borough of Belmar School District
County of Monmouth
Belmar, New Jersey 07719

Dear Board Members:

The annual comprehensive financial report for the Belmar Borough School District for the fiscal year ending June 30, 2023, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rest with the management of the Belmar Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the district. All disclosures necessary to enable the reader to gain an understanding of the district's financial activities have been included.

The annual comprehensive financial report is presented in four sections: introductory, financial, statistical, and single audit. The introductory section includes this transmittal letter, the district's organizational chart, and a list of principal officials. The financial section includes the general purpose financial statements and schedules, and the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The district is required to undergo an annual single audit in conformity with the provisions of the Title 2 U.S. Code of Federal Regulations, Part 200, "Audits of State and Local Governments" and the State Treasury Circular Letter 15-08 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid Payments". Information related to this single audit, including the auditor's report on the internal control and structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1) REPORTING ENTITY AND ITS' SERVICES - The Borough of Belmar School District is an independent reporting entity within the criteria adopted by GASB as established by NCGA Statement No.3. All funds and account groups for the district are included in this report. The Belmar Board of Education and the Belmar Elementary School constitute the district's reporting entity.

The district provides a full range of educational services appropriate to grade levels Pre-K through eight. Students in grades nine through twelve are assigned by board policy to Manasquan, Asbury Park, Red Bank Regional, Biotechnology High School, Marine Academy of Science and Technology, High Tech High School, Allied Health and Science Academy, Class Academy, Communications High School and the Academy High School Charter School. The

Inspired • United • Prepared
Soaring To Excellence

district provides a comprehensive special education program for all preschool through eighth-grade students. The district also provides for the educational needs of all resident students of Lake Como in grades Pre-K through eight and in the area of special education. The district completed the 2022/23 fiscal year with an average enrollment of 448, which is 14 students less than the previous year's average enrollment. The following details the changes in student enrollment in the district over the last ten years:

Average Daily Enrollment

<u>Fiscal Year</u>	<u>Student Enrollment</u>	<u>Percent Change</u>
2022/2023	434	(3.1)
2021/2022	448	(3.8)
2020/2021	466	(3.5)
2019/2020	483	2.3
2018/2019	472	(8.7)
2017/2018	517	(4.0)
2016/2017	539	(2.5)
2015/2016	553	3.9
2014/2015	532	(3.6)
2013/2014	552	(2.8)
2012/2013	568	2.1

2) ECONOMIC CONDITIONS AND OUTLOOK: Belmar is a seashore community that has been undergoing a transformation on the oceanfront and on Main Street. Longstanding business properties have been sold and are currently being redeveloped as single-family homes. Many of these homes are valued at over two million dollars. This transition will further limit the availability of housing for low-income families as the other properties in Belmar continue to increase in value exceeding what low-income families can afford. Belmar has a shopping area made up of independent stores and restaurants. The town is in the process of starting a redevelopment of the downtown area and redeveloping the seaport area. Some older structures are being replaced with mixed business/residential-use buildings. With the new homes being built on the oceanfront and the rise of real estate prices in the town, the tax base for the community has increased. There are no major industries located in Belmar, therefore, the majority of the residents work outside the community. The largest employers are the Board of Education and the Municipal government.

3) MAJOR INITIATIVES: During the 2019-20 school year, the public voted and passed a Bond Referendum to help with major upgrades to the auditorium, heating and air conditioning systems to include air conditioning in all classrooms, remove asbestos flooring and replace it and the replacement of windows in the 1993 wing of the school. The bond was issued in July of 2020 and many of the major upgrades are completed. There are a few projects slated for the summer of 2023. Our district continues to embrace 21st-century learning by providing opportunities for students to have access to the most up-to-date technology through the use of new hardware and programs that offer easier access and higher engagement. Our 1:1 Chromebook initiative has increased in scope to grades prek-8. As teachers become increasingly skilled in a spectrum of instructional technology applications, students' level of engagement and investment in their learning grows exponentially. The use of local benchmark assessments and instructional technology now offer teachers the ability to better differentiate for student needs. The board of education adopted a 5 year strategic plan in June of 2022, offering a the district a roadmap for success and a path for the years to come. In an ongoing effort to ensure excellence in teaching and learning, the curriculum has been aligned with the

New Jersey Learning Standards for all content areas and related arts. PLCs continue to play an important role in professional development and instructional planning. Additionally, our teachers are collaborating with teachers from our sending districts on Math, Social Studies, Science, and ELA strategies. Belmar Elementary School continues to implement RTI and PBSIS in which teachers have and are currently receiving PD.

4) INTERNAL ACCOUNTING CONTROLS: Management of the district is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the district are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonably, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits require estimates and judgments by management.

As a recipient of federal and state financial assistance, the district also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the district management.

As part of the district's single audit described earlier, tests are made to determine the adequacy of internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine the district has complied with applicable laws and regulations.

5) BUDGETARY CONTROLS: In addition to internal accounting controls, the district maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project length budgets are approved for the capital improvements accounted for in the capital project's fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at a year end are canceled or included as reappropriation of fund balance in the subsequent year. Those amounts to be re-appropriated are reported as reservations of fund balance at June 30, 2023.

6) ACCOUNTING SYSTEM AND REPORTS: The district's accounting records reflect generally accepted accounting principles, and are promulgated by the Government Accounting Standards Board (GASB). The accounting system of the district is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements," Note 1.

7) DEBT ADMINISTRATION: As of June 30, 2023, the district's outstanding debt was \$8,990,000, this debt will be fully paid in July, 2041. Bonds in the amount of \$3,370,000 were issued in August, 2003 to fund the local share of the capital project that was passed by referendum in March, 2003 and partially funded by the State of New Jersey, Economic Development Authority. The proceeds of the bonds along with the grant from the State of New Jersey was used to complete \$5,600,000 in renovations to the Belmar Elementary School. These bonds were refunded in 2012 saving the district 7.65% net present value or \$193,192 over the remaining life of the refunded bonds. In March of

2020 a bond in the amount of \$9,678,328 was passed and issued in July of 2020 to fund the local share of capital projects. The payments of this new bond started in July 2021.

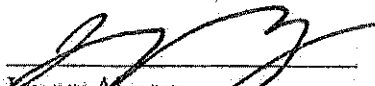

8) CASH MANAGEMENT: The investment policy of the district is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 2. The district has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Government Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 to protect Government Units from loss of funds on deposit with a failed banking institution in New Jersey. The law requires government units to deposit public funds only in public depositories located in New Jersey, where the funds are secure in accordance with the Act.

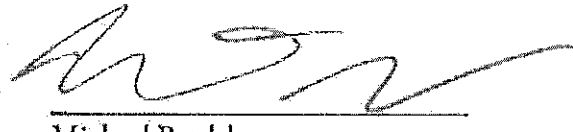

9) RISK MANAGEMENT: The board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents and fidelity bonds.

10) OTHER INFORMATION: Independent Audit-State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Robert A. Hulsart & Company, CPAs and Registered Municipal Accountants conducted the annual audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Title 2 U.S. Code of Federal Regulations, Part 200 and State Treasury Circular Letter 15-08 OMB. The auditor's report on the general purpose financial statements and combining and individual fund statements and schedules are included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit report of this report.

11) ACKNOWLEDGMENTS: We would like to express our appreciation to the members of the Belmar Board of Education for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contribute their full support to the development and maintenance of our financial operation. Please refer to the Management's Discussion and Analysis for the Fiscal Year for a review of the financial status of the district.

Respectfully submitted,

Jimmy Alvarez

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members
of the Board of Education
Belmar School District
County of Monmouth
Belmar, New Jersey

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the government activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Belmar Board of Education, as of and for the year ended June 30, 2023, and the related Notes to the Financial Statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Belmar Board of Education, as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section in our report. We are required to be independent of the Belmar Board of Education, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error; a fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States require that the management's discussion and analysis, budgetary comparison information and pension and post-employment benefit trend information as noted in the table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Belmar Board of Education's basic financial statements. The combining and individual non-major fund financial statements, and the schedule of expenditures of federal awards and state financial assistance, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*; and New Jersey OMB's Circulars 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements, and the schedule of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

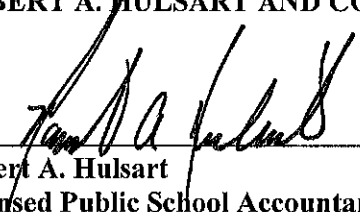

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists; we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with ***Government Auditing Standards***, we have also issued our report dated December 5, 2023, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with ***Government Auditing Standards*** the District's internal control over financial reporting and compliance.

**REQUIRED SUPPLEMENTARY INFORMATION
PART I**

**BELMAR BOROUGH SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2023**

UNAUDITED

The discussion and analysis of Belmar Borough School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2023. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the notes to the basic financial statements and financial statements to enhance their understanding of the School District's financial performance.

Financial Highlights

Key financial highlights for 2022-2023 are as follows:

- ◆ General revenues accounted for \$13,732,929 in revenue. Program specific revenues for operating grants and contributions, and capital grants and contributions accounted for \$5,158,406 for total revenue of \$18,891,335.
- ◆ The School District had \$18,972,180 in expenses; only \$5,158,406 of these expenses was offset by program specific charges for services, grants or contributions. General revenues (primarily property taxes) of \$13,732,929 were adequate to provide for these programs.
- ◆
- ◆ The General Fund had \$14,926,485 in revenues and \$14,595,947 in expenditures. Other financing uses included transfer to the Preschool Fund of \$61,276; and \$311,100 to the Debt Service Fund; and a transfer from Maintenance Reserve to the 2022-2023 budget of \$345,000. Overall, the General Fund's balance decreased from 2022 by \$386,838.

Using this Annual Comprehensive Financial Report (ACFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Belmar Borough Public School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The *Statement of Net Position* and *Statement of Activities* provide information about the activities of the whole School district, presenting both an aggregate view of the School district's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. In the case of Belmar Borough Public school district, the General Fund is by far the most significant fund.

Statement of Net Position and the Statement of Activities

While this document contains the large number of funds used by the School District to provide programs and activities, the view of the School district as a whole looks at all financial transactions and asks the question, “How did we do financially during 2022-2023” The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most private-sector companies. This basis of accounting takes into account, all of the current year’s revenues and expenses regardless of when cash is received or paid.

These two statements report the School District’s net position and changes in those position. This change in net position is important because it tells the reader that, for the school district as a whole, the financial positions of the School district has improved or diminished. The causes of this change may be the result of many factors, some financial, and some not. Non-financial factors include the School District’s property tax base, current laws in New Jersey restricting revenue growth, facility condition, required educational programs and other factors.

In the Statement of Net Position and the Statement of Activities, the School District is divided into two distinct kinds of activities:

- ◆ Governmental activities – All of the School District’s programs and services are reported here including, but not limited to, instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- ◆ Business-Type Activities – This service is provided on a charge for goods or services basis to recover all the expense of the goods or services provided. The Food Service enterprise fund is reported as a business activity.

Reporting the School District’s Most Significant Funds

Fund Financial Statements

Fund financial reports provide detailed information about the School District’s funds. The School District uses many funds to account for a multitude of financial transactions. However, these fund financial statements focus on the School district’s most significant funds.

Governmental Funds

The School District’s activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the Future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School district’s general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Enterprise Fund

The enterprise fund uses the same basis of accounting as business-type activities; therefore, these statements are essentially the same.

The School District as a Whole

The Statement of Net Position provides the perspective of the School District as a whole.

Table 1 provides a summary of the School District's net position for 2023 and 2022.

Table I
Net Position

	<u>2023</u>	<u>2022</u>
Total Assets	\$ 8,448,253	9,529,289

Total Liabilities	10,723,352	10,777,221
Total Net Position	\$ (1,875,497)	(1,501,451)

Business-Type Activities

Revenues for the District's business-type activities (food service program) were comprised of charges for services and federal and state reimbursements.

- ◆ Enterprise Fund revenues were \$83,103.
- ◆ Changes in Net Position was \$21,484.
- ◆ Federal and state reimbursements for meals, including payments for free and reduced lunches and donated commodities were \$265,461.

Governmental Activities

	<u>2023</u>	<u>2022</u>
Instruction	\$ 5,006,150	4,776,887
Support Services:		
Pupils and Instructional Staff	6,008,466	5,747,000

Other	<u>793,422</u>	<u>3,898,485</u>
Total Expenses	<u>\$ 18,593,301</u>	<u>20,933,273</u>

Instruction expenses include activities directly dealing with the teaching of pupils and the interaction between teacher and student, including extracurricular activities.

Pupils and instructional staff include the activities involved with assisting staff with the content and process of teaching to students, including curriculum and staff development.

General administration, school administration and business include expenses associated with administrative and financial supervision of the District.

Operation and maintenance of facilities activities involve keeping the school grounds, buildings and equipment in an effective working condition.

Pupil transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by state law.

Interest and fiscal charges involve the transactions associated with the payment of interest and other related charges to debt of the School District.

Other includes enterprise, special schools and miscellaneous.

General Fund Budgeting Highlights

The School district's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

During the course of the fiscal year 2023, the School District amended its General Fund budget as needed. The School district uses program based budgeting and the budgeting systems are

designed to tightly control total program budgets but provide flexibility for program management.

Capital Assets

At the end of the fiscal year 2023, the School District had \$3,110,938 invested in land, buildings, furniture and equipment, and vehicles as follows:

Capital Assets (Net of Depreciation) at June 30, 2023 & 2022

	<u>2023</u>	<u>2022</u>
Land	\$ 481,300	481,300
Building and Improvements	2,340,615	2,539,881
Machinery and Equipment	289,023	328,250
Totals	<u>\$ 3,110,938</u>	<u>3,349,431</u>

Debt Administration

At June 30, 2023 the School district had \$10,501,659 of outstanding debt. Of this amount \$86,218 is for compensated absences. The balance due for the renovation of the school is \$8,990,000. Net pension liability was \$1,425,441.

For the Future

The Belmar Borough School District is in good financial condition presently. A major concern is the continued enrollment growth of the district with the increased reliance on local property taxes. However, future finances are not without challenges as the community continues to grow and state funding is decreased.

Belmar Borough is primarily a residential community. The majority of the tax levy is raised by residential property taxes.

In conclusion, the Belmar Borough School District has committed itself to financial excellence for many years. In addition, the School District’s system for financial planning, budgeting, and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenge of the future.

Contacting the School District’s Financial Management

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School district’s finances and to show the School District’s accountability for the money it receives. If you have questions about this report or need additional information contact Mr. Michael Bardsley, School Business Administrator/Board Secretary at Belmar Borough Board of Education, 1101 Main Street, Belmar, NJ 07719.

NOTES TO FINANCIAL STATEMENTS

BOARD OF EDUCATION
BELMAR SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2023

NOTE 1: Summary of Significant Accounting Policies

The financial statements of the Board of Education (Board) of the Belmar School District (District) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

A. Reporting Entity:

The Belmar School District is a Type II district located in the County of Monmouth, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The board is comprised of nine members elected to three-year terms. The purpose of the district is to educate students in grades K-8. The Belmar School District had an approximate enrollment at June 30, 2023 of 434 students.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Government Accounting and Financial Reporting Standards, is whether:

- The organization is legally separate (can sue or be sued in their own name)
- The District holds the corporate powers of the organization
- The District appoints a voting majority of the organization's board
- The District is able to impose its will on the organization
- The organization has the potential to impose a financial/benefit/burden on the District
- There is a fiscal dependency by the organization on the District

B. Government-Wide Financial Statements

The School District's basic financial statements consist of government-wide statements, and fund financial statements which provide a more detailed level of financial information.

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by property taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

NOTE 1: Summary of Significant Accounting Policies (Continued)

B. Government-Wide and Fund Financial Statements (Continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. It is the policy of the School District to not allocate indirect expenses to functions in the statement of activities. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes and other items not properly included among program revenues are reported instead as general revenues.

In regards to the fund financial statements, the School District segregates transaction related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Fund financial statements report detailed information about the School District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a single column. Fiduciary funds are reported by fund type.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide statements report using the economic resources measurement focus and the accrual basis of accounting generally including the reclassification or elimination of internal activity (between or within funds). Proprietary and fiduciary fund financial statements also report using this same focus and basis of accounting although internal activity is not eliminated in these statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred regardless of the timing of related cash flows. County tax revenues are recognized in the year for which they are levied while grants are recognized when grantor eligibility requirements are met. The Unemployment Trust Fund recognizes employer and employee contributions in the period in which contributions are due.

Governmental fund financial statements report using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Available means collectible within the current period or soon enough thereafter to apply current liabilities. The District considers revenues to be available if they are collected within 60 days of the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for long-term pension and compensated absences, which are reported as expenditures in the year due.

Major revenue sources susceptible to accrual includes Intergovernmental revenues, and the county tax levy. In general, other revenues are recognized when cash is received.

Operating income reported in proprietary fund financial statements includes revenues and expenses related to the primary continuing operations of the fund. Principal operating revenues for proprietary funds are charges to customers for food sales and for services provided to other governmental entities. Principles operating expenses are the costs of providing goods or services and include administrative expenses and depreciation of capital assets. Other revenues and expenses are classified as non-operating in the financial statements.

NOTE 1: Summary of Significant Accounting Policies (Continued)

D. Fund Accounting:

The accounts of the District are maintained in accordance with the principles of fund accounting to ensure observance of limitations and restrictions on the resources available. The principles of fund accounting require that resources be classified for accounting and reporting purposes into funds or account groups in accordance with activities or objectives specified for the resources. Each fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect net expendable available financial resources. Funds are classified into three categories: governmental, proprietary and fiduciary. Each category, in turn, is divided into separate "fund types".

Governmental Fund Types

General Fund: The general fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund.

Special Revenue Fund: The District accounts for the proceeds of specific revenue sources (other than expendable trust or major capital projects) that are legally restricted to expenditures for specified purposes in the special revenue funds.

Capital Projects Fund: the capital projects fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds).

Debt Service Fund: The debt service fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

Proprietary Fund Type

Enterprise Fund: To account for operations that are financed and operated in a manner similar to private business enterprises, in which the intent of the District is that the costs of providing goods or services to the District on a continuing basis be financed or recovered primarily through user charges.

Fiduciary Fund Types

Agency Funds (Payroll and Student Activities Fund): Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations.

Trust and Agency Funds: The trust and agency funds are used to account for assets held by the District on behalf of outside parties, including other governments, or on behalf of other funds within the District.

NOTE 1: Summary of Significant Accounting Policies (Continued)

D. Fund Accounting (Continued):

Expendable Trust Fund: An expendable trust fund is accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting. Expendable trust funds account for assets where both the principal and interest may be spent. Expendable trust funds include Unemployment Compensation Insurance and the following scholarship funds:

Stoner Scholarship Fund

Agency Funds (Payroll and Student Activities Fund): Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations.

E. Basis of Accounting:

The modified accrual basis of accounting is used for measuring financial position and operating results of all governmental fund types, expendable trust funds and agency funds. Under the modified accrual basis of accounting, revenues are recognized when they become both measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recognized in the accounting period in which the fund liability is incurred, except for principal and interest on general long-term debt which are recorded when due.

Ad Valorem (Property) Taxes are susceptible to accrual as under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive moneys under the established payment schedule and the unpaid amount is considered to be an "accounts receivable".

The accrual basis of accounting is used for measuring financial position and operating results of proprietary fund types and nonexpendable trust funds. Under this method, revenues are recorded in the accounting period in which they are earned and expenses are recorded at the time liabilities are incurred.

NOTE 1: Summary of Significant Accounting Policies (Continued)

F. Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the County office and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting; the legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23-2.2(g)1. All budget amendments must be approved by School Board resolution. Budget amendments during the year ended June 30, 2023 included a \$345,000 amendment from maintenance reserve.

The Public School Education Act of 1975, limits the annual increase of any district's net current expense budget. The Commissioner of Education certifies the allowable amount for each district but may grant a higher level of increase if he determines that the sums so provided would be insufficient to meet the identified goals and needs of the district or that an anticipated enrollment increase requires additional funds.

The Commissioner must also review every proposed local school district budget for the next school year. He examines every item of appropriations for current expenses and budgeted capital outlay to determine their adequacy in relation to the identified needs and goals of the district. If, in his view, they are insufficient, the Commissioner must order remedial action. If necessary, he is authorized to order changes in the local district budget.

Once a budget is approved, it can be amended by transfers or additional appropriation of fund balances by approval of a majority of the members of the Board. Amendments are presented to the Board at their regular meetings. Each amendment must have Board approval. Such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year-end as dictated by law. Individual transfers were not material in relation to the original appropriations. All uncommitted budget appropriations lapse at year-end.

G. Encumbrances:

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as deferred revenues at fiscal year end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

NOTE 1: Summary of Significant Accounting Policies (Continued)

H. Short-Term Interfund Receivables/Payables:

Short-Term interfund receivables/payables represents amounts that are owed, other than charges for good or services rendered to/from a particular fund in the District and that are due within one year.

I. Inventories and Prepaid Expenses

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as an expenditure during the year of purchase.

Enterprise fund inventories are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. Prepaid expenses in the enterprise fund represent payments made to vendors for services that will benefit periods beyond June 30, 2023.

J. Capital Assets and Depreciation

The District’s property, buildings and improvements, equipment, vehicles, furniture and fixtures with useful lives of five years or more are stated at historical or estimated historical cost and are reported in the government-wide financial statements. Proprietary Fund capital assets are reported in its respective fund.

The District contracted with an outside service company to provide a report with a comprehensive detail of capital assets and depreciation which is updated annually. Accumulated depreciation for fiscal year 2023, fiscal year 2023 depreciation expense, total accumulated depreciation and book values were also provided. The costs of normal maintenance and repairs that do not add to the asset value or materially extend the useful lives are not capitalized. Capital assets are depreciated using the straight-line method. When capital assets are disposed, the cost and applicable accumulated depreciation are removed from the respective accounts. Estimated useful lives, in years, for depreciable assets are as follows:

Buildings and Improvements	20 – 50
Equipment and Vehicles	5 – 20
Furniture and Fixtures	5 – 20

NOTE 1: Summary of Significant Accounting Policies (Continued)**J. Capital Assets and Depreciation (Continued)**

Capital asset activity for the year ended June 30, 2023 was as follows:

The fixed asset listing is updated each year by Acclaim inventory on-site, and assets are tagged, or deleted, as appropriate. The GASB 34 summaries are required to determine activity to be reported in the ACFR, as the additions and removals contain items for insurance purposes that are not capitalized for GASB 34 purposes.

NOTE 1: Summary of Significant Accounting Policies (Continued)**J. Capital Assets and Depreciation (Continued)**

Accumulated depreciation was allocated to governmental activities as follows:

	Prior Years' Accumulated Depreciation	Current Year Depreciation Expense	Adjustments	Total Accumulated Depreciation

	<u>\$ 8,964,509</u>	<u>394,382</u>	—	<u>9,358,891</u>

K. Accrued Salaries and Wages

Certain District employees, who provide services to the District over the ten-month academic year, have the option to have their salaries evenly disbursed during the entire twelve-month year. New Jersey statutes require that these earned but undisbursed amounts be retained in a separate bank account.

L. Compensated Absences

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

The liability for vested compensated absences of the governmental fund types is recorded in the general long-term debt account group. The current portion of the compensated absence balance is not considered material to the applicable fund total liabilities, and therefore is not shown separately from the long-term liability balance of compensated absences.

M. Deferred Revenue

Deferred revenue in the special revenue fund represents cash, which has been received but not yet earned. See note 1(e) regarding the special revenue fund.

NOTE 1: Summary of Significant Accounting Policies (Continued)**N. Long-Term Obligations**

Long-term debt is recognized as a liability of a governmental fund when due or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the general long-term debt account group.

O. Fund Equity

Contributed capital represents the amount of fund capital contributed to the proprietary funds from other funds. Grants, entitlements, or shared revenues which are restricted for the acquisition or construction of capital assets are also recorded as contributed capital. Reserves represent those portions of fund equity not appropriable for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

P. Tuition Receivable

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

Q. Tuition Payable

Tuition charges for the fiscal year 2022-2023 was based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined. The District has elected to utilize \$250,000.00 for future tuition adjustment liabilities, which is within the 10% ceiling allowed by the Department of Education, State of New Jersey.

2022-2023 School Year	\$ 250,000
To be Utilized in 2023-2024	<u>(250,000)</u>
Available for Future Years	<u>\$ 0</u>

R. Net Position

Net position represents the difference between the summation of assets and deferred outflows of resources, and the summation of liabilities and deferred inflows of resources. Net position is classified into the following three components:

Net Investment in Capital Assets – This component represents capital assets, net of accumulated depreciation, net of outstanding balances of borrowings used for the acquisition, construction, or improvement of those assets.

Restricted – Net Position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

NOTE 1: Summary of Significant Accounting Policies (Continued)

R. Net Position (Continued)

Unrestricted – Net position is reported as unrestricted when it does not meet the criteria of the other two components of net position.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Fund Balance

The School District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The School District's classifications, and policies for determining such classifications, are as follows:

Nonspendable – The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, such as inventories and prepaid amounts.

Restricted – The restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources either by being (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation.

Committed – The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision-making authority, which, for the School District, is the Board of Education. Such formal action consists of an affirmative vote by the Board of Education, memorialized by the adoption of a resolution. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified use by taking the same type of action (resolution) if employed to previously commit those amounts.

Assigned – The assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. *Intent* is expressed by either the Board of Education or by the business administrator, to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes. Such authority of the business administrator is established by way of a formal job description for the position and standard operating procedures, approved by the Board of Education.

Unassigned – The unassigned fund balance classification is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

NOTE 1: Summary of Significant Accounting Policies (Continued)**R. Net Position (Continued)**

When expenditures are incurred for purposes for which both restricted and unrestricted fund balances are available, it is the policy of the School District to spend restricted fund balances first. Moreover, when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, it is the policy of the School District to spend fund balances, if appropriate, in the following order; committed, assigned, then unassigned.

NOTE 2: Cash and Cash Equivalents and Investments

Cash and cash equivalents for all funds, include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. Such is the definition of cash and cash equivalents used in the statement of cash flows for the proprietary funds. U.S. treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

Investments are stated at cost, which approximates market. The District classifies certificates of deposit, which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments.

Deposits

New Jersey statutes require that school districts deposit public funds in public depositories located in New Jersey which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories. School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund.

New Jersey statutes require public depositories to maintain collateral for deposits of public funds that exceed depository insurance limits as follows:

The market value of the collateral must equal at least 5% of the average daily balance of collected public funds on deposit.

In addition to the above collateral requirement, if the public funds deposited exceed 75% of the capital funds of the depository, the depository must provide collateral having a market value at least equal to 100% of the amount exceeding 75%.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New York, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

NOTE 2: Cash and Cash Equivalents and Investments**Investments**

New Jersey statutes permit the Board to purchase the following types of securities:

- a. Bonds or other obligations of the United States or obligations guaranteed by the United States.
- b. Bonds of any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Agency or any United States Bank of Cooperatives which have a maturity date not greater than twelve months from the date of purchase.
- c. Bonds or other obligations of the school district.

All bank deposits and investments as of the balance sheet date are classified as to credit risk by the following three categories described below:

As of June 30, 2023, the District's deposits and investments are summarized as follows:

On-Hand	\$ 200
FDIC	250,000
GUPDA	<u>5,079,866</u>
	<u>\$ 5,330,066</u>

As of June 30, 2023, cash and cash equivalents and investments of the District consisted of the following:

	Cash and Cash
	<u>Equivalents</u>
Interest Bearing Checking Accounts	<u>\$ 4,517,940</u>

The carrying amount of the Board's cash, cash equivalents and investments at June 30, 2023 was \$4,517,940 and the bank balance was \$5,330,066. Of the bank balance \$250,000 was covered by federal depository insurance and \$5,079,866 was covered by a collateral pool maintained by the banks as required by New Jersey statutes. \$200 is petty cash.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the government's deposits may not be returned to it. The District does not have a formal policy for custodial credit risk.

The District had no uninsured deposits.

NOTE 3: General Long-Term Debt

During the fiscal year ended June 30, 2023, the following changes occurred in liabilities reported in the general long-term debt account group:

NOTE 4: Pension Plans**Public Employees' Retirement System (PERS)****Plan Description**

The State of New Jersey, Public Employees' Retirement System (PERS) is a cost-sharing multiple-employer defined benefit pension plan administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about PERS, please refer to the Division's annual financial statements, which can be found at <https://www.state.nj.us/treasury/pensions/annual-reports.shtml>.

The vesting and benefit provisions are set by N.J.S.A. 43:15A, PERS provides retirement, death and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

The following represents the membership tiers for PERS:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of $1/55^{\text{th}}$ of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of $1/60^{\text{th}}$ of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62, and tier 5 with 30 years or more of service credit before age 65. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier. Tier 1 members can receive an unreduced benefit from age 55 to age 60 if they have at least 25 years of service. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Basis of Presentation

The schedule of employer allocations and the schedule of pension amounts by employer (collectively, the Schedules) present amounts that are considered elements of the financial statements of PERS or its participating employers. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of PERS or the participating employers. The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of PERS to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

NOTE 4: Pension Plans (Continued)**Allocation Methodology and Reconciliation to Financial Statements**

GASB Statement No. 68, *Accounting and Financial Reporting for Pension*, requires participating employers in PERS to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources and collective pension expense. The employer allocation percentages presented in the schedule of employer allocations and applied to amounts presented in the schedule of pension amounts by employer based on the ratio of the contributions of an individual employer to the total contributions to PERS during the measurement period July 1, 2021 through June 30, 2022. Employer allocation percentages have been rounded for presentation purposes; therefore, amounts presented in the schedule of pension amounts by employer may result in immaterial differences. Contributions from employers are recognized when due, based on statutory requirements.

Although the Division administers one cost-sharing multiple-employer defined benefit pension plan, separate (sub) actuarial valuations are prepared to determine the actuarially determined contribution rate by group. Following this method, the measurement of the collective net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense are determined separately for each individual employer of the State and local groups of the plan.

To facilitate the separate (sub) actuarial valuations, the Division maintains separate accounts to identify additions, deductions, and fiduciary net position applicable to each group. The allocation percentages presented for each group in the schedule of employer allocations are applied to amounts presented in the schedule of pension amount by employer. The allocation percentages for each group of June 30, 2022 are based on the ratio of each employer's contributions to total employer contributions of the group for the fiscal year ended June 30, 2022.

A special funding situation exists for certain Local employers of the Public Employees' Retirement System. The State of New Jersey, as a nonemployer, is required to pay the additional costs incurred by local employers under Chapter 366, P.L. 2001 and Chapter 133, P.L. 2001. The Chapter 366, P.L. 2001 legislation established the Prosecutors Part of the PERS which provides enhanced retirement benefits for prosecutors enrolled in the PERS. The State is liable for the increased pension costs to a County that resulted from the enrollment of prosecutors in the Prosecutors Part. The June 30, 2022 State special funding situation net pension liability amount of \$127.8 million is the accumulated difference between the annual actuarially determined State obligation under the special funding situation and the actual State contribution through the valuation date. The special funding situation for Chapter 133, P.L. 2001 is due to the State paying the additional normal cost related to benefit improvements from Chapter 133. Previously, this additional normal cost was paid from the Benefit Enhancement Fund (BEF). As of June 30, 2022, there is no net pension liability associated with this special funding situation there was no accumulated difference between the annual additional normal cost under the special funding situation and the actual State contribution through the valuation date. The State special funding situation pension expense of \$50.2 million, for the fiscal year ending June 30, 2022, is the actuarially determined contribution amount that the State owes for the fiscal year ending June 30, 2022. The pension expense is deemed to be a State administrative expense due to the special funding situation.

NOTE 4: Pension Plans (Continued)

The contribution policy for PERS is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2022, the State's pension contribution was less than the actuarial determined amount.

The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. Chapter 19, P.L. 2009 provided an option for local employers of PERS to contribute 50% of the normal and accrued liability contribution amounts certified for payments due in State fiscal year 2009. Such employers will be credited with the full payment and any such amounts will not be included in their unfunded liability. The actuaries will determine the unfunded liability of those retirement systems, by employer, for the reduced normal and accrued liability contributions provided under this law. This unfunded liability will be paid by the employer in level annual payments over a period of 15 years beginning with the payments due in the fiscal year ended June 30, 2012 and will be adjusted by the rate of return on the actuarial value of assets.

For the year ended June 30, 2023, the District recognized pension expense of \$24,037. At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference Between Expected and Actual Experience	\$ 10,288	9,073
Changes of Assumptions	4,416	213,445

NOTE 4: Pension Plans (Continued)

\$24,037 reported as deferred outflows of resources related to pensions resulting from school district, project contributions subsequent to the measurement date (i.e. for the school year ending June 30, 2023, the plan measurement date is June 30, 2022) will be recognized as a reduction of the net pension liability in the year ended June 30, 2023. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending	
<u>June 30,</u>

NOTE 4: Pension Plans (Continued)

The collective total pension liability for the June 30, 2022 measurement date was determined by an actuarial valuation as of July 1, 2021, which was rolled forward to June 30, 2022. This actuarial valuation used the following actuarial assumptions:

Inflation Rate:	
Price	2.75%
Wage	3.25%
Salary Increases	2.75% - 6.55%
	Based on years of service
Investment Rate of Return	7.00%

Pre-retirement mortality rates were based on the Pub-2010 General Below-Medial Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021.

The actuarial assumptions used in the July 1, 2021 valuation were based on the results of an actuarial experience study for the period July 1, 2018 to June 30, 2021.

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2022) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2022 are summarized in the following table:

NOTE 4: Pension Plans (Continued)

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Equity	27.00%	8.12%
Non-U.S. Developed Market Equity	13.50%	8.38%

Discount Rate

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2022. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on 78% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the collective net pension liability of the participating employers as of June 30, 2022, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	<u>2022</u>		
	<u>At 1% Decrease (6.00%)</u>	<u>At Current Discount Rate (7.00%)</u>	<u>At 1% Increase (8.00%)</u>

NOTE 4: Pension Plans (Continued)**Teachers Pensions and Annuity Fund (TPAF)****Plan Description**

The State of New Jersey, Teacher's Pension and Annuity Fund (TPAF) is a cost sharing multiple-employer defined benefit pension plan with a special-funding situation, by which the State of New Jersey (the State) is responsible to fund 100% of the employer contribution, excluding any local employer early retirement incentive (ERI) contributions. TPAF is administered by the State of New Jersey, Division of Pensions and Benefits (the Division). For additional information about TPAF, please refer to the Division's annual financial statements which can be found at <https://www.state.nj.us/treasury/pensions/annual-reports.shtml>.

The vesting and benefit provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death, and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, member's beneficiaries are entitled to full interest credited to the members' accounts.

The following represents the membership tiers for TPAF:

<u>Tier</u>	<u>Definition</u>
1	Members who were enrolled prior to July 1, 2007
2	Members who were eligible to enroll on or after July 1, 2007 and prior to November 2, 2008
3	Members who were eligible to enroll on or after November 2, 2008 and prior to May 22, 2010
4	Members who were eligible to enroll on or after May 22, 2010 and prior to June 28, 2011
5	Members who were eligible to enroll on or after June 28, 2011

Service retirement benefits of $1/55^{\text{th}}$ of final average salary for each year of service credit is available to tiers 1 and 2 members upon reaching age 60 and to tier 3 members upon reaching age 62. Service retirement benefits of $1/60^{\text{th}}$ of final average salary for each year of service credit is available to tier 4 members upon reaching age 62 and tier 5 members upon reaching age 65. Early retirement benefits are available to tiers 1 and 2 members before reaching age 60, tiers 3 and 4 with 25 years or more of service credit before age 62, and tier 5 with 30 years or more of service credit. Benefits are reduced by a fraction of a percent for each month that a member retires prior to the retirement age for his/her respective tier. Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

Basis of Presentation

The Schedule of employers and nonemployer allocations and the schedule of pension amounts by employer and nonemployer (collectively, the Schedules) present amounts that are considered elements of the financial statements of TPAF and the State as an employer/nonemployer entity. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of TPAF or the State. The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of TPAF to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

NOTE 4: Pension Plans (Continued)**Allocation Methodology**

GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, requires participating employers in TPAF to recognize their proportionate share of the collective net pension liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective pension expense. The employer and nonemployer allocation percentages presented in the schedule of employer and nonemployer allocation and applied to, presented in the schedule of pension amount by employer and nonemployer are based on the ratio of the State's actual contributions made as an employer and nonemployer adjusted for unpaid early retirement incentives to total contributions to TPAF during the year ended June 30, 2022. Employer and nonemployer allocation percentages have been rounded for presentation purposes, therefore amounts presented in the schedule of pension amounts by employer and nonemployer may result in immaterial differences.

The contribution policy for TPAF is set by N.J.S.A. 18A:66 and requires contributions by active members and contributing employers. State legislation had modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group insurance benefits is based on actual claims paid. For fiscal year 2022, State's pension contribution was less than the actuarial determined amount.

Special Funding Situation

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer. In addition, each local participating employer must recognize pension expense associated with the employer as well as revenue in an amount equal to the nonemployer contributing entities' total proportionate share of the collective pension expense associated with the local participating employer.

NOTE 4: Pension Plans (Continued)**Components of Net Pension Liability**

The components of the net pension liability of the State as of June 30, 2022 and 2021 are as follows:

The total pension liability for the June 30, 2022 measurement date was determined by an actuarial valuation as of July 1, 2021, which was rolled forward to June 30, 2022. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation Rate:	
Price	2.75%
Wage	3.25%
Salary Increases	2.75% - 5.65%
	Based on years of service
Investment Rate of Return	7.00%

NOTE 4: Pension Plans (Continued)

Pre-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Employee mortality table with a 93.9% adjustment for males and 85.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Healthy Retiree mortality table with a 114.7% adjustment for males and 99.6% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 106.3% adjustment for males and 100.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021.

The actuarial assumptions used in the July 1, 2021 valuation were based on the results of an actuarial experience study for the period July 1, 2018 to June 30, 2021.

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2022) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2022 are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
U.S. Equity	27.00%	8.12%

Discount Rate

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2022. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on 100% of the actuarially determined contributions for the State. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments in determining the total pension liability.

NOTE 4: Pension Plans (Continued)**Sensitivity of the Net Pension Liability to Changes in the Discount Rate**

The following presents the net pension liability of the State as of June 30, 2022 calculated using the discount rate as disclosed above as well as what the State's net pension liability would be if it was calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

NOTE 5: Post-Retirement Benefits**General Information about the OPEB Plan****Plan description and benefits provided**

The State of New Jersey reports a liability as a result of its statutory requirements to pay other post-employment (health) benefit for State Health Benefit Local Education Retired Employees Plan. The State Health Benefit Local Education Retired Employees Plan is a multiple-employer defined benefit OPEB plan that is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, *Accounting and Financial Reporting for the Postemployment Benefits Other than Pension*. The State Health Benefit Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A. 52:14-17.32f. According to N.J.S.A. 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L., 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

NOTE 5: Post-Retirement Benefits (Continued)

The total nonemployer OPEB liability does not include certain other postemployment benefit obligations that are provided by the local education employers. The reporting of these benefits are the responsibility of the individual local education employers.

The School Employees Health Benefits Program (SEHBP) Act is found in New Jersey Statutes Annotated, Title 52, Article 17.25 et. seq. Rules governing the operation and administration of the program are found in Title 17, Chapter 9 of the New Jersey Administrative Code.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASBS No. 75.

Additional information on Pensions and OPEB can be accessed at state.nj.us/treasury/pensions/financial-reports.shtml.

Total OPEB Liability

The total OPEB liability as of June 30, 2022 was determined by an actuarial valuation as of June 20, 2021, with was rolled forward to June 30, 2022. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Total OPEB Liability \$50,646,462,966

	<u>TPAF/ABP</u>	<u>PERS</u>	<u>PFRS</u>
Salary Increases	2.75% – 4.25%	2.75% - 6.55%	3.25% - 16.25%
	based on years of service	based on years of service	based on years of service

Preretirement mortality rates were based on the Pub-2010 Healthy “Teachers” (TPAF/ABP), “General” (PERS), and “Safety” (PFRS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Postretirement mortality rates were based on the Pub-2010 “General” classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Disability mortality was based on the Pub-2010 “General” classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021 for current disables retirees. Future disabled retirees was based on the Pub-2010 “Safety” (PFRS). “General” (PERS), and “Teachers” (TPAF/ABP) classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021.

Actuarial assumptions used in the July 1, 2021 valuation were based on the results of the TPAF, PERS and PFRS experience studies prepared for July 1, 2018 to June 30, 2021.

NOTE 5: Post-Retirement Benefits (Continued)***(a) Health Care Trend Assumptions***

For pre-Medicare medical benefits, the trend rate is initially 6.25% and decreases to a 4.50% long-term trend rate after eight years. For post-65 medical benefits PPO, the trend is initially -1.99% in fiscal year 2023, increasing to 13.44% in fiscal year 2026 and decreases to 4.50% in fiscal year 2033. For HMO the trend is initially -3.54% in fiscal year 2023, increasing to 15.19% in fiscal year 2026 and decreases to 4.50% in fiscal year 2033. For prescription drug benefits, the initial trend rate is 8.00% and decreases to a 4.50% long-term trend rate after eight years. For the Medicare Part B reimbursement, the trend rate is 5.00%.

(b) Discount Rate

The discount rate for June 30, 2022 was 3.54%. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

OPEB Expenses and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB.

For the year ended June 30, 2022, the Board of Education recognized OPEB expense of \$583,566 determined by the State as the total OPEB liability for benefits provided through a defined benefit OPEB plan that is not administered through a trust that meets the criteria in paragraph 4 of GASBS No. 75 and in which there is a special funding situation.

In accordance with GASBS No. 75, the Board of Education's proportionate share of school retirees OPEB is zero; there is no recognition of the allocation of proportionate share of deferred outflows of resources and deferred inflows or resources. At June 30, 2022, the State reported deferred outflows of resources and deferred inflows of resources related to retired school employee's OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference Between Expected and Actual Experience	\$ 9,042,402,619	(15,462,950,679)

NOTE 8: Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance – The District maintains commercial insurance coverage for property, liability, student accident and surety bonds.

NOTE 9: Capital Reserve Account

A Capital Reserve account was established by the Borough of Belmar Board of Education by inclusion of \$100 on September 1, 2000 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Fund placed in the capital reserve account are restricted to capital projects in the district’s approved Long Range Facilities Plan (LRFP) and updated annually in the Quality Assurance Annual Report (QAAR). Upon submission of the LRFP to the department, a district may deposit funds into the capital reserve at any time upon board resolution through the transfer of undesignated, unreserved general fund balance or of excess undesignated, unreserved general fund balance that is anticipated in the budget certified for taxes. Pursuant to N.J.A.C. 6:23A-5.1(d) 7, the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.

The activity of the capital reserve for the July 1, 2022 to June 30, 2023 fiscal year is as follows:

Beginning Balance July 1, 2022	\$ 1,765,833
Interest Earned	<u>1,000</u>
Balance June 30, 2023	<u>\$ 1,766,833</u>

“A board of education may, by resolution of the board: transfer undesignated general fund balance or excess undesignated general fund balance to the capital reserve account at any time during the budget year; transfer funds from the capital reserve account to the appropriate line item account for the funding of capital projects as contained in the district’s long-range facilities plan; and transfer funds from the capital reserve account to the debt service account for the purpose of offsetting principal and interest payments for bonded projects which are included in the district’s long-range facilities plan.” (N.J.S.A. 18A:7G-31c)

Withdrawals may not be used for current expense. Only funds in a capital reserve account in existence prior to July 18, 2000 can be withdrawn before receiving approval of the district’s LRFP and such withdrawals must be for the original purpose deposited. (N.J.A.C. 6:23A-5.1(f)1).

“Any capital reserve account in existence as of July 18, 2000 shall be subject to EFCFA and these regulations.” (N.J.A.C. 6:23A-5.1(j)).

NOTE 10: Fair Values of Financial Instruments

The following methods and assumptions were used by the Belmar Board of Education in estimating its fair value disclosures for financial instruments.

Cash and Cash Equivalents: The carrying amounts reported in the combined balance sheet for cash and cash equivalents are the fair values of those assets.

NOTE 11: Economic Dependency

The District receives a substantial amount of its support from federal and state governments. A significant reduction in the level of support, if this were to occur, may have an effect on the District's programs and activities.

NOTE 12: Subsequent Event

Subsequent events have been evaluated through December 5, 2023, which is the date the financial statements were available to be issued. No additional subsequent event disclosures are required.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Belmar. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND REPORTING ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

K-1

Honorable President and Members
of the Board of Education
Belmar School District
County of Monmouth
Belmar, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Belmar Board of Education, County of Monmouth, State of New Jersey as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the Belmar Board of Education, County of Monmouth, State of New Jersey's basic financial statements, and have issued our report thereon dated December 5, 2023.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Belmar Board of Education, County of Monmouth, State of New Jersey's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions of the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Belmar Board of Education, County of Monmouth, State of New Jersey's internal control. Accordingly, we do not express an opinion on the effectiveness of the Belmar Board of Education, County of Monmouth, and State of New Jersey's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purposes described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Belmar Board of Education, County of Monmouth, State of New Jersey's financial statements are free from material misstatement, we performed tests of it compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE PROGRAM;

OF EXPENDITURES OF FEDERAL AWARDS AND STATE FINANCIAL ASSISTANCE
REQUIRED BY UNIFORM ADMINISTRATIVE AWARDS (UNIFORM GUIDANCE), AND
NEW JERSEY OMB'S CIRCULAR 15-08

K-2

Honorable President and Members
of the Board of Education
Belmar School District
County of Monmouth
Belmar, New Jersey

Report on Compliance for Each Major Federal & State Program

Opinion on Each Major Federal & State Program

We have audited the Belmar Board of Education's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of the Belmar Board of Education's major federal and state programs for the year ended June 30, 2023. The Belmar Board of Education's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the Belmar Board of Education complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2023.

Basis for Opinion on Each Major Federal and State Program

We conducted our audit in accordance with the auditing standards generally accepted in the United States of America (GAAS), the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, the audit requirements prescribed by the Office of School Finance, Department of Education, State of New Jersey, and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and NJ OMB 15-08. Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the Belmar Board of Education and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on compliance for each major federal and state program. However, our audit does not provide a legal determination of the Belmar Board of Education's compliance with the requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to its Federal and State programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above have occurred, whether due to fraud or error, and express an opinion on the Belmar Board of Education's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance and NJ OMB 15-08 will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Belmar Board of Education's compliance with the requirements of each major federal or state program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Belmar Board of Education's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Belmar Board of Education's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and NJ OMB 15-08, but not for the purpose of expressing an opinion on the effectiveness of the Belmar Board of Education's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Other Matters

The results of our auditing procedures disclosed no instances of noncompliance which are required to be reported in accordance with the Uniform Guidance or NJ OMB 15-08.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that a material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purposes described in the Auditor's Responsibilities for the Audit of Compliance paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that have not been identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and NJ OMB 15-08. Accordingly, this report is not suitable for any other purpose.

BOARD OF EDUCATION

K-5

BELMAR SCHOOL DISTRICT**NOTES TO SCHEDULES OF FINANCIAL ASSISTANCE****JUNE 30, 2023****NOTE 1: General**

The accompanying schedules of financial assistance present the activity of all federal and state financial assistance programs of the Board of Education, Belmar School District. The Board of Education is defined in Note 1(A) to the Board's general-purpose financial statements. All federal financial assistance received directly from federal agencies, as well as federal financial assistance passed through other government agencies is included on the schedule of federal financial assistance.

NOTE 2: Basis of Accounting

The accompanying schedules of financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. Programs recorded in the food service fund include the National School Lunch Program, the School Breakfast Program, the U.S.D.A Commodities Program and the Special Milk Program. These bases of accounting are described in the Note 1(C) to the Board's general-purpose financial statements.

NOTE 3: Relationship to General Purpose Financial Statements

The general-purpose financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to P.L. 2003, c.97.(A3521). For GAAP purposes, that payment is not recognized until the subsequent budget year due to the state deferral and recording of the last state aid payment in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not.
