Members of the Board of Education
Sayreville School District
Middlesex County, New Jersey
Dear Board Members:
The Annual Comprehensive Financial Report (ACFR) of the Sayreville Borough School District for the fiscal year ended June 30, 2023 is hereby submitted. This ACFR includes the District's Basic Financial Statements prepared in accordance with U.S. generally accepted accounting principles for governmental entities as established by the Governmental Accounting Standards Board. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Sayreville Borough School District. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The Annual Comprehensive Financial Report is presented in four sections as follows:
-The Introductory Section includes this transmittal letter, the District's organizational chart and a list of principal officials.
-The Financial Section begins with the Independent Auditors' Report and includes the Management's Discussion and Analysis, the Basic Financial Statements and Notes providing an overview of the School District's financial position and operating results, and other schedules providing detailed budgetary information.
-The Statistical Section includes selected financial and demographic information, generally presented on a multi-year basis.
-The Single Audit Section - The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996, P.L. 104-156 and the Uniform Guidance and the New Jersey OMB's Circular 15-08, "Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid Payments." Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1. REPORTING ENTITY AND ITS SERVICES: The Sayreville Borough School District is an independent reporting entity within the criteria adopted by the GASB as established by NCGA Statement No.3. All funds of the District are included in this report. The Sayreville Borough School District and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels PRE-K through 12. These include regular as well as special education for students with disabilities. Those students who have a desire for vocational training attend the Middlesex County Vocational School. The District enrollment for the 202223 fiscal year as reported on the ASSA report in October 2022 was 5,896 students, which is 110 students more than the previous year's enrollment. The following chart details the changes in the student enrollment of the District since the 2013-2014 school year. Not included in this chart is the additional preschool enrollment that is not used to calculate School Aid. In October 2022 there were 563 students enrolled in the preschool program compared to 547 enrolled in October 2021 and 420 enrolled in October 2020.

|  | Enrollment Comparison as of October 2022 |  |
| :--- | :---: | :---: |
| Fiscal Student <br> Enrollment <br> Year  <br> Percent  <br> Change  |  |  |

| $2019 / 20$ | 5,925 | $(2.64 \%)$ |
| $2020 / 21$ | 5,786 | $(3.15 \%)$ |
| $2021 / 22$ | 5,896 | $(2.35 \%)$ |
| $2021 / 22$ |  | $1.90 \%$ |

2. ECONOMIC CONDITION AND OUTLOOK: The Borough of Sayreville is a community which has experienced moderate, but increasing growth over the past decade. Building room exists for residential dwellings, condominiums, commercial structures and light industry. The Borough is convenient to urban centers, manufacturing areas, several institutes of higher learning and merchandise malls. The community has benefited from a healthy national economy by maintaining established small businesses and moderate expansion of commerce.
3. MAJOR INITIATIVES: The District passed a referendum in November 2022 for $\$ 97 \mathrm{M}$ in facility upgrades district wide. In the next three years the District will see those projects completed which will include replacing HVAC so that all spaces in the district are air conditioned and upgrading building envelopes including roofs, doors and windows. The District continues to focus on Social and Emotional Learning and addressing Student Learning Loss. Through grant funding the district was able to offer summer learning opportunities and mental health services to assist students. The District continues to fund $1: 1$ technology devices for students and replaced staff devices to enhance the overall classroom technology experience and is maintaining a replacement schedule for those devices.
4. INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) there are limited resources and that the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management. As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.
5. BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund and the debt service fund. Amendments to the line items within these funds are approved by the Superintendent and subsequently ratified by the Board of Education, in accordance with state statute and Board Policy.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2023.
6. ACCOUNTING SYSTEM AND REPORTS: The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds which are explained in "Notes to the Financial Statements," Note 1.
7. DEBT ADMINISTRATION: Series 2005 bonds were refunded to the series 2013 bonds in the amount of $\$ 28,725,000.00$. The remaining principal balance of the 2013 bonds at June 30, 2023 was $\$ 20,310,000.00$. Series 2006 bonds were refunded to the series 2016 bonds in the amount of $\$ 6,640,000.00$. The remaining principal balance of the 2016 bonds at June 30,2023 was $\$ 2,730,000.00$. Series 2007 bonds were refunded to the series 2017 bonds in the amount of $\$ 7,880,000.00$. The remaining principal balance of the 2017 bonds at June 30, 2023 was $\$ 3,315,000.00$. Series 2020 School Energy Savings Obligation Refunding Bonds were issued in the amount of $\$ 8,140,000.00$. The remaining principal balance of the 2020 bonds at June 30, 2023 was $\$ 7,755,000.00$. Series 2022 School Bonds were issued in the amount of $\$ 97,474,000.00$. The remaining principal balance of the 2022 bonds at June 30, 2023 was $\$ 97,474,000.00$.
8. CASH MANAGEMENT: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements," Note 2. The District's cash management plan allows it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA was enacted in 1970 and updated in 2009 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey where the funds are secured in accordance with the Act.
9. RISK MANAGEMENT: The Board of Education carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property damage and contents and fidelity bonds.
10. OTHER INFORMATION: Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Suplee Clooney \& Company was selected by the Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act Amendments of 1996 and the related Uniform Guidance and state Treasury Circular 15-08 OMB. The auditor's report on the basic financial statements and combining individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

Respectfully submitted,

Erin Hill
School Business Administrator/Board Secretary

## INDEPENDENT AUDITOR'S REPORT

Honorable President and Members of the Board of Education Sayreville Borough School District County of Middlesex Sayreville, New Jersey

## Report on the Audit of the Financial Statements

## Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of the Sayreville Borough School District, County of Middlesex, New Jersey (the "District") as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and each major fund of the District as of June 30, 2023, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America, audit requirements prescribed by the Division of Finance, Department of Education, State of New Jersey, the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (the "Uniform Guidance") the audit requirements of State of New Jersey OMB Circular 15-08 "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid." and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Our responsibilities under those standards and provisions are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Suplee, Clooney \& Company

## Emphasis of Matter

As discussed in Note 1 to the basic financial statements, for the year ended June 30, 2023, the District adopted Governmental Accounting Standards Board Statement No. 96, SubscriptionBased Information Technology Arrangements. Our opinions are not modified with respect to this matter.

## Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

## Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, the Uniform Guidance, the State of New Jersey OMB Circular 15-08 and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards the Uniform Guidance, the State of New Jersey OMB Circular 15-08 and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.
We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

## Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information in Exhibit C-1 through C3, the schedules related to accounting and reporting for pensions in Exhibit L-1 through L-4 and the schedules related to accounting and reporting for postretirement benefits other than pensions (OPEB) in Exhibits $\mathrm{M}-1$ and $\mathrm{M}-2$ are presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information schedules and data such as the combining statements and individual fund financial statements, and the Schedules of Expenditures of Federal Awards and State Financial Assistance, as listed in the table of contents, as required by the Uniform Guidance, New Jersey's OMB Circular 1508, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid," and the State of New Jersey, Department of Education, Division of Finance, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and the schedule of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

## Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

## Suplee, Clooney \& Company

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

## Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 9, 2024 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

# SAYREVILLE BOROUGH SCHOOL DISTRICT SAYREVILLE, NEW JERSEY MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE FISCAL YEAR ENDED JUNE 30, 2023 UNAUDITED 

The discussion and analysis of Sayreville Borough School District's financial performance provides an overall review of the School District's financial activities for the fiscal year ended June 30, 2023. The intent of this discussion and analysis is to look at the School District's financial performance as a whole; readers should also review the basic financial statements and notes to enhance their understanding of the School District's financial performance.

The Management's Discussion and Analysis (MD\&A) is an element of Required Supplementary Information specified in the Governmental Accounting Standards Board's (GASB) Statement No. 34 - Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments issued in June 1999. Certain comparative information between the current year (2022-2023) and the prior year (2021-2022) is required to be presented in the MD\&A. In fiscal year 2023 the District implemented GASB Statement No. 96- SBITAs.

## Financial Highlights

Key financial highlights for 2023 are as follows:
In the District Wide Statements:

- In total, net position increased $\$ 6,423,173$ which represents a 17 percent increase from 2022.
- General revenues accounted for $\$ 116,734,367$ in revenue or 77 percent of all revenues. Program specific revenues in the form of charges for services and grants and contributions accounted for $\$ 33,945,853$ or 23 percent of total revenues of $\$ 150,680,220$.
- The School District had $\$ 144,257,047$ in expenses; $\$ 33,945,853$ of these expenses were offset by program specific charges for services, grants or contributions; $\$ 110,311,194$ of these expenses were offset by General revenues.

In the Fund Financial Statements:

- The General Fund had $\$ 131,295,546$ in revenues and $\$ 129,514,070$ in expenditures.
- Overall, the General Fund's fund balance increased \$2,173,152 from 2022.

## Using this Annual Comprehensive Financial Report (ACFR)

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand Sayreville Borough School District as a financial whole, an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole School district, presenting both an aggregate view of the School district's finances and a longer-term view of those finances. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what remains for future spending. In the case of Sayreville Borough School District, the General Fund is by far the most significant fund.

## Reporting the School District as a Whole

## Statement of Net Position and the Statement of Activities

While this document contains most of the funds used by the School District to provide programs and activities, the view of the School district as a whole looks at all financial transactions and asks the question, "How did we do financially during 2023?" The Statement of Net Position and the Statement of Activities answers this question. These statements include all assets and liabilities using the accrual basis of accounting similar to the accounting used by most privatesector businesses. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the School District's net position and changes in those activities. This change in net position is important because it tells the reader that, for the school district as a whole, the financial position of the School district has improved or diminished. The causes of this change may be the result of many factors, some financial and some not. Non-financial factors include the School District's property tax base, current laws in New Jersey restricting revenue growth, and other factors.

In the Statement of Net Position and the Statement of Activities, the School District is divided into two distinct kinds of activities:

- Governmental activities - All of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant facilities, pupil transportation and extracurricular activities.
- Business-Type Activity - This service is provided on a charge for goods or services basis to recover all the expenses of the goods or services provided. The Food Service and Community School enterprise funds are reported as business activities.

## Reporting the School District's Most Significant Funds

## Fund Financial Statements

Fund financial reports provide detailed information about the School District's funds. The School District uses many funds to account for a multitude of financial transactions. The School District's governmental funds are the General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund.

## Governmental Funds

The School District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future years. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School district's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds is reconciled in the financial statements.

## Enterprise Fund

The enterprise fund uses the same basis of accounting as business-type activities.

## Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the District-wide and fund financial statements. The notes to the financial statements can be found immediately following the fund financial statements.

## The School District as a Whole

Recall that the Statement of Net Position provides the perspective of the School District as a whole. Net position may serve over time as a useful indicator of a government's financial position. The District's financial position is the product of several financial transactions including the net results of activities, the acquisition and payment of debt, the acquisition and disposal of capital assets, and the depreciation of capital assets.

Table 1 provides a summary of the School District's net position for 2023. In accordance with GASB Statement 34 , net position comparisons to fiscal year 2022 are presented.

## Business-Type Activities

Revenues for the District's business-type activities (food service and community school program) were comprised of charges for services and federal and state reimbursements.

- Business Type revenues exceeded expenses by $\$ 646,340$.
- Charges for services represent $\$ 1,346,515$ of revenue. This represents amounts paid by patrons for the various program services.
- Federal and state reimbursement for meals, including payments for free and reduced lunches, and donated commodities was $\$ 2,255,450$.

## Governmental Activities

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. Table 3 shows the total cost of services and the net cost of services. The total costs include compensating absences, unallocated benefits, and depreciation and is reduced by grants and specific state aid. The net cost shows the financial burden that was placed on the District's taxpayers by each of these functions. In accordance with GASB Statement 34, a comparison to fiscal year 2022 is presented.

Instruction expenses include the activities involving the interaction between teachers and students in a school classroom, another location such as a home or hospital, and in other learning situations such as those involving cocurricular activities.

Support Services includes expenses for pupils and instructional staff providing administrative, technical, and logistical support to facilitate and enhance instruction. This area includes Attendance and Social Work Services, Health Services, Child Study Team Services, Curriculum Development, Staff Training, and School Library Services.

School Administration, General Administration, Central Service \& Administrative Technology includes expenses associated with administrative responsibility for the schools: Supervision of the schools, evaluation of school staff members, fiscal services, human resources, strategic planning, purchasing, payroll, and management of the district's information technology system.

Operation and Maintenance of Facilities involve keeping the physical plant open, comfortable, and safe for use, and keeping the grounds, buildings, and equipment in effective working condition.

# SAYREVILLE BOROUGH SCHOOL DISTRICT <br> SAYREVILLE, NEW JERSEY <br> MANAGEMENT'S DISCUSSION AND ANALYSIS <br> FOR THE FISCAL YEAR ENDED JUNE 30, 2023 <br> UNAUDITED (Continued) 

Pupil Transportation includes activities involved with the conveyance of students to and from school, as well as to and from school activities, as provided by Federal and State law.

Interest on debt involves the transactions associated with the payment of interest and other related charges to debt of the School District.

Business Type Activities involves the transactions associated with the operation of the Food Service and Community School program.

Other includes charter school contributions and unallocated depreciation.

## The School District's Funds

All governmental funds (i.e., general fund, special revenue fund, capital projects fund and debt service fund presented in the fund-based statements) are accounted for using the modified accrual basis of accounting. Total revenues and other financing sources amounted to $\$ 253,711,115$ and expenditures were $\$ 156,515,859$. The net change in fund balance for the year was $\$ 97,195,256$.

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedules present a summary of the revenues of the general fund, special revenue fund and debt service fund for the fiscal year ended June 30, 2023, and the amount and percentage of increases and decreases in relation to prior year revenues.

REVENUES (FUND-BASED FINANCIAL STATEMENTS):

|  | Amount | Percentage | Increase/Decrease from FY 2022 | Percentage Change |
| :---: | :---: | :---: | :---: | :---: |
| Local Sources | \$73,529,990 | 47.46\% | \$2,009,926 | 2.81\% |
| State Sources | 72,069,154 | 46.52\% | 5,228,562 | 7.82\% |
| Federal Sources | 9,327,137 | 6.02\% | 5,073,594 | 119.28\% |
|  | \$154,926,280 | 100.00\% | \$12,312,083 | 8.63\% |

The increase in State Sources is due largely to an increase in the States contribution for On-behalf pensions and postretirement contributions, along with an increase in State Aid. The increase in the federal sources is due largely to the increase in revenue realized for ARP ESSER funds.

## General Fund Budgeting Highlights

The School District's budget is prepared according to New Jersey law, and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund.

Over the course of the year, the District revised the annual operating budget as needed. Revisions in the budget were made to recognize revenues that were not anticipated and to prevent over-expenditures in specific line item accounts. Several of these revisions bear notation:

- The District received $\$ 1,299,075$ in extraordinary aid, which is state aid for special education students whose individual program cost exceeds program guidelines; this was $\$ 449,075$ more than anticipated. There was no guarantee from the Department of Education that these funds would be available.
- TPAF, which is the state's contribution to the pension fund, is neither a revenue item nor an expenditure item to the District but is required to be reflected in the financial statements. This number is reflective of the amount of money the New Jersey Department of Education pays on-behalf of certified staff for pension and FICA purposes. Salaries of regular instruction continue to increase in proportion with negotiated contracts.
- The District's philosophy is to include special education students in regular academic classes whenever possible but with additional services. Students who may have been originally scheduled for Resource Room classes were scheduled for Inclusion classes. This necessitates the cost for additional instructional aides and teachers to accommodate resource students.

## Capital Assets

At the end of the fiscal year 2023, the School District had $\$ 89,214,924$ invested in land, building, furniture and equipment, and vehicles. Table 4 shows fiscal year 2023 balances compared to 2022.

## Table 4 <br> Capital Assets (Net of Depreciation) at June 30

|  |  |  |  |
|  | $\$ 89,214,924$ |  |  |
|  |  |  |  |

Overall capital assets increased $\$ 5,298,360$ from fiscal year 2022 to fiscal year 2023. The increase in capital assets is due primarily to the ongoing Energy Savings Improvement Program project in FY2023. For more detailed information, please refer to the Notes to the Financial Statements.

## Debt Administration

At June 30, 2023, the School District had $\$ 155,583,735$ of long-term liabilities. Of this amount, $\$ 4,204,619$ is for compensated absences; $\$ 2,372,678$ for various installment purchase contracts; $\$ 131,584,000$ of serial bonds, $\$ 576,328$ of unamortized bond premium and $\$ 16,846,110$ in net pension liability.

## For the Future

The Sayreville Borough School District is in good financial condition presently. The School District is proud of its community support of the public schools. The state has slightly increased state aid in each year since 2017-18 school year in an effort to fully fund the state aid formula. The School District anticipates being fully funded in the near future, though, the School District is still operating below adequacy per the NJDOE calculation. The Board and Administration continue to find creative means to fill the gap between funding and the cost to provide education to Sayreville's students. The School District successfully sought taxpayer approval for a referendum in the Fall of 2022 that will address all remaining facility needs including the replacement of windows, roofs and HVAC that will add air conditioning to every classroom district wide. The School District has funds set aside in Capital Reserve for the addition of a Transportation Complex so that the School District can continue to expand their fleet of school buses and not rely on outside contractors.

In addition, the School District's system for financial planning, budgeting and internal financial controls are well regarded. The School District plans to continue its sound fiscal management to meet the challenge of the future. In conclusion, the Sayreville Borough School District has committed itself to financial excellence for many years.

## Contacting the School District's Financial Management

## BASIC FINANCIAL STATEMENTS

The basic financial statements provide a financial overview of the District's operations. These financial statements present the financial position and operating results of all funds as of June 30, 2023.

## DISTRICT-WIDE FINANCIAL STATEMENTS

The statement of net position and the statement of activities display information about the District. These statements include the financial activities of the overall district, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the District.

## SAYREVILLE BOROUGH SCHOOL DISTRICT <br> RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS <br> TO THE STATEMENT OF ACTIVITIES <br> FOR THE FISCAL YEAR ENDED JUNE 30, 2023

Total net change in fund balances - governmental funds (from B-2)
\$97,195,256.13
Amounts reported for governmental activities in the statement of activities (A-2) are different because:

## Capital outlays are reported in governmental funds as expenditures. However, in the

 statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.| Depreciation expense | $\$ 9,952,458.00$ |
| :--- | ---: |
| Capital outlays | $(298,533.00)$ |

(4,355,565.00)

Less: Capital Outlays not capitalized
$(298,533.00)$

Proceeds from debt issues are a financing source in governmental funds. They are not revenue in the statement of activities; issuing debt increases long-term liabilities in the statement of net position.

| Installment purchase proceeds | $(1,089,547.96)$ |
| :--- | ---: |
| Issuance of refunding bonds | $(97,474,000.00)$ |
| Refunding bonds issuance premium | $(177,900.00)$ |

The Internal Service Fund is used by management to charge the costs of providing dental and prescription insurance to district employees. This amount is the change in net position for the Internal Service Fund, exclusive of any gain/(loss) on disposal of Internal Service Fund capital assets.

Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position and is not reported in the statement of activities.

| Payment of bond principal | $3,110,000.00$ |
| :--- | ---: |
| Payment of installment purchase contract payablє | $1,161,298.56$ |
| Amortization of premium on refunding bonds | $31,722.84$ |

In the statement of activities, interest on long-term debt is accrued, regardless of when due. In governmental funds, interest is reported when due. The accrued interest is an addition in the reconciliation.

District pension contributions are reported as expenditures in the governmental funds when made However, they are reported as deferred outflows of resources in the Statement of Net Position because the reported net pension liability is measured a year before the District's report date. Pension expense, which is the change in the net pension liability adjusted for changes in deferred outflows and inflows of resources related to pensions, is reported in the Statement of Activities.

| District pension contributions | $\$ 1,407,675.00$ |
| :--- | ---: |

Add: Pension benefit 1,451,054.00

In the statement of activities, certain expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation (-). When the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+).

## Sayreville Borough School District <br> Notes to the Financial Statements <br> For the Fiscal Year Ending June 30, 2023

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
The financial statements of the Sayreville Borough School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standardsetting body for establishing governmental accounting and financial reporting principles. The more significant of the District's accounting policies are described below:

## Reporting Entity

The Sayreville Borough School District is a Type II District located in Middlesex County, New Jersey. The School District is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board of Education of the Sayreville Borough School District, comprised of nine elected individuals, is the primary governing authority of the District. A superintendent is appointed by the Board and is responsible for the administrative control of the District.

The primary criterion for including activities within the District's reporting entity, are set forth in Statement No. 39 of the Governmental Accounting Standards Board entitled "Determining Whether Certain Organizations are Component Units" (GASB 39), as codified in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards.

Organizations that are legally separate, tax-exempt entities and meet all of the following criteria should be discretely presented as component units. These criteria are:

1. The economic resources received or held by the separate organization are entirely or almost entirely for the direct benefit of the primary government
2. The primary government, or its component unit, is entitled to, or has the ability to otherwise access, a majority of the economic resources of the organization
3. The economic resources received or held by an individual organization that the specific primary government, or its component units, is entitle to, or has the ability to otherwise access, are significant to that primary government

Sayreville Borough School District<br>Notes to the Financial Statements<br>For the Fiscal Year Ending June 30, 2023

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## Reporting Entity (Continued)

The combined financial statements include all funds of the District over which the Board exercises operating control. The operations of the District include elementary schools, a middle school and a high school, located in the Sayreville Borough. There were no additional entities required to be included in the reporting entity under the criteria as described above, in the current fiscal year. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

## Basis of Presentation

The District's basic financial statements consist of District-wide statements, including a statement of net position and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

District-wide Statements: The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the overall District. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish generally between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Businesstype activities are financed in whole or in part by fees charged to external parties.

The statement of net position presents the financial condition of the governmental and business-type activities of the District at fiscal year-end. The statement of activities presents a comparison between direct expenses and program revenues for the business-type activity of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirement of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

## Basis of Presentation (Continued)

Fund Financial Statements: During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds. Separate statements are presented for each fund category- governmental and proprietary. Internal service funds are aggregated and presented in a single column on the face of the proprietary fund statements. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE as the oversight entity believes that the presentation of all funds as major is important for the public interest and to promote consistency among District financial reporting models.

## Governmental Funds

General Fund The general fund is the general operating fund of the District and is used to account for all expendable financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment which are classified in the capital outlay sub-fund.

As required by the New Jersey Statement Department of Education, the District includes budgeted capital outlay in this fund. U.S. Generally Accepted Accounting Principles as they pertain to governmental entities state that general fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues. Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes, and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to the current expense by Board resolution; in certain instances, approval by the County Superintendent of Schools may also be required.

Special Revenue Fund The special revenue fund is used to account for the proceeds of specific revenue sources from State and Federal Government (other than those for major capital projects, debt service or proprietary funds) and local appropriations that are legally restricted to expenditures for specified purposes.

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Projects Funds The capital projects fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund The debt service fund is used to account for the accumulation of resources for, and the payment of principal and interest on debt issued to finance major property acquisition, construction and improvement programs.

## Proprietary Funds

Enterprise Fund The enterprise fund accounts for all revenues and expenses pertaining to the District's Food Service Fund and Community School. These funds are utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the cost (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

Internal Service Funds This fund has been established to account for the financing of the self-insurance of the health plan, prescription plan and dental plan provided by the Sayreville Borough School District. Services are provided on a cost-reimbursement basis.

## Basis of Accounting-Measurement Focus

Basis of accounting determines when transactions are recorded in the financial records and reported in the financial statements.

District-wide and Proprietary Fund Financial Statements: The District-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation for expenses versus expenditures. Ad Valorem (Property) Taxes are susceptible to accrual as under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available.

The District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an "accounts receivable." Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. "Measurable" means the amount of the transactions can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds from the issuance of long-term debt and acquisitions under leases and installment purchase contracts are reported as other financing sources.

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## Budgets/Budgetary Control

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for approval. In accordance with P.L. 2011, c. 202, which became effective January 17, 2012, the District elected to move the April school Board election to the date of the November general election thereby eliminating the vote on the annual base budget. Budgets are prepared using the modified accrual basis of accounting. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6A:23-2.2(f)1. Expenditures may not legally exceed budgeted appropriations at the line item level. All budget amendments and transfers must be approved by School Board resolution. Budget amendments totaling $\$ 624,470$ were approved by resolution during the year ended June 30, 2023.

All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally authorized revisions of the annual budgets during the year).

Appropriations, except remaining project appropriations, encumbrances, and unexpended grant appropriations, lapse at the end of each fiscal year. The capital projects fund presents the remaining project appropriations compared to current year expenditures. Formal budgetary integration into the accounting system is employed as a management control device during the fiscal year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles (GAAP) with the exception of the legally mandated (NJSA 18A:22-44.2) revenue recognition of one or more deferred State Aid payments for budgetary purposes only due to the State deferral of such payments into the subsequent budget year and the accounting treatment of encumbrances in the special revenue fund as described below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

## Sayreville Borough School District <br> Notes to the Financial Statements <br> For the Fiscal Year Ending June 30, 2023

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## Budgets/Budgetary Control (Continued)

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognized encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial records.

## Encumbrance Accounting

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditures of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as assigned fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as unearned revenues at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

## Interfunds

Interfund receivables and payables arise from transactions between particular funds and are considered short term in duration. The interfund transactions are recorded by all funds affected in the period in which the transactions are executed and are part of the district's available spendable resources.

## Inventories and Prepaid Expenses

Inventories of materials and supplies held for consumption in the governmental funds are recorded as expenditures at the time of purchase and year end balances are not reported in the financial statements.

Inventories of food and/or supplies in the food service fund are recorded at cost on a first-in, first-out basis or, in the case of Food Distribution Commodities, at stated value which approximates market.

Prepaid expenses which benefit future periods, other than those recorded in the enterprise fund, are recorded as expenditures in the year of purchase.

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## Capital Assets

The District has an established formal system of accounting for its capital assets. Capital Assets used for governmental purposes, which include land, buildings and improvements and furniture and equipment, are only reported in the districtwide financial statements. The District generally defines capital assets as assets with an initial cost of $\$ 2,000.00$ or more and an estimated useful life in excess of one year. Purchased or constructed capital assets are reported at cost. Donated capital assets are valued at their estimated fair market value on the date received. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Capital assets are depreciated in the district-wide statements using the straightline method over the following estimated useful lives:

## Estimated Life

| School Buildings | 50 |
| :---: | :---: |
| Building Improvements | 20 |
| Electrical/Plumbing | 30 |
| Vehicles | 8 |
| Office and Computer Equipment | 10 |
| Instructional Equipment | 10 |
| Grounds Equipment | 15 |

## Compensated Absences

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences." A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits. The District uses the "vesting method" for estimating its accrued sick and vacation leave liability. District employees are granted vacation and sick leave in varying amounts under the District's personnel policies. In the event of termination, an employee is reimbursed for accumulated vacation. The liability for vested compensated absences of the District is recorded in the government-wide financial statements and includes salary related payments.

Sayreville Borough School District<br>Notes to the Financial Statements<br>For the Fiscal Year Ending June 30, 2023

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## Compensated Absences (Continued)

For the district-wide statements, the current portion is the amount estimated to be used in the following year. For the governmental funds in the fund financial statements, a liability is reported only for to the extent of the amount actually due at year end as a result of employee resignations/retirements. Compensated absences are a reconciling item between the fund level and district-wide presentations.

In proprietary and similar trust funds, compensated absences are recorded as an expense and liability of the fund that will pay for them.

## Fund Equity

Fund balance restrictions are used to indicate that portion of the fund balance that is not available for expenditures or is legally segregated for a specific future use. Designation of portions of the fund balances are established to indicate tentative plans for financial utilization in a future period. The unassigned fund balances represent the amount available for future budgetary operations.

## Unearned Revenue

Unearned revenue in the general, special revenue, capital projects and proprietary funds represents funds which have been received but not yet earned. A corresponding accounts receivable has also been established for any open encumbrances at year end which is an allowable practice under generally accepted accounting principles. Unearned revenue in the Proprietary Fund represents deposits from students for future program fees.

## Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the district-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, contractually required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Long term debt is recognized as a liability on the fund financial statements when due.

Sayreville Borough School District<br>Notes to the Financial Statements<br>For the Fiscal Year Ending June 30, 2023

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## Net Position

Net Position represents the difference between assets and liabilities. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

## Fund Balance Reserves

Under GASB 54, in the fund financial statements, governmental funds report the following classifications of fund balance:

Nonspendable - includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted - includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation. The District reports the Capital Reserve, Maintenance Reserve, Emergency Reserve, Student Activities, Scholarships, Unemployment and Excess Surplus as Restricted Fund Balance.

Committed - includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to resolutions passed by the Board of Education, the District's highest level of decision making authority. Commitments may be modified or rescinded only through resolutions approved by the Board of Education.

Assigned - includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. Under the District's policy, amounts may be assigned by the Business Administrator. The District reports Year End Encumbrances and Amounts Designated for Subsequent Years Expenditures as Assigned Fund Balance.

# Sayreville Borough School District <br> Notes to the Financial Statements <br> For the Fiscal Year Ending June 30, 2023 

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## Fund Balance Restrictions (Continued)

Unassigned - is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balance are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed.

## Revenues Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, "available" means within sixty days of the fiscal year end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from property taxes is recognized in the period in which the income is earned. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## Revenues Exchange and Non-exchange Transactions (Continued)

Under the modified accrual basis, the following revenue sources are considered both measurable and available at fiscal year-end: property taxes available as an advance, interest, and tuition.

## Proprietary Fund Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the School District enterprise funds are charges to customers for sales of food service. Operating expenses for enterprise funds include the cost of sales and services, administrative expense and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

## Allocation of Indirect Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are reported separately in the Statement of Activities. Employee benefits, including the employer's share of social security, workers compensation, and medical and dental benefits, were allocated based on salaries of the program. Depreciation expense, where practicable, is specifically identified by function and is included in the indirect expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities.

## Extraordinary and Special Items

Extraordinary items are transactions or events that are unusual in nature and infrequent of occurrence. Special items are transactions or events that are within control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

## Management Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

## NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

## Accounting and Financial Reporting for Pensions

In the District-Wide Financial Statements for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the District's proportionate share of the New Jersey Public Employees Retirement System ("PERS") and the Teachers' Pension and Annuity Fund ("TPAF") and the additions to/deductions from these retirement systems' fiduciary net position have been determined on the same basis as they were reported by PERS and TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

In the Governmental Fund Financial Statements, the year-end Net pension liability is not required to be reflected. Pension related revenues and expenditures are reflected based on amounts that are normally expected to be liquidated with available financial resources for required pension contributions. Expenditures for PERS are recognized based upon billings made by the State of New Jersey due April $1^{\text {st }}$ of each fiscal year. TPAF contributions are paid on the District's behalf by the State of New Jersey. The Governmental Fund Financial Statements reflects both a revenue and expenses for this pension contribution.

## Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. Currently, the District has only one item that qualifies for reporting in this category, deferred amounts that are pension related.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Currently, the District has only one item that qualifies for reporting in this category, deferred amounts that are pension related.

## Recently Adopted Accounting Pronouncements

Beginning with the year ended June 30, 2023, the District implemented GASB Statement 96, Subscription-Based Information Technology Arrangements (SBITAs). GASB Statement No. 96 defines a SBITA; establishes that a SBITA results in a right-to-use subscription asset (an intangible asset) and a corresponding liability; provides capitalization criteria for outlays other than subscription payments, including implementation costs of a SBITA; and requires note disclosure regarding SBITAs. The District has evaluated the effects of this standard on its financial statements and found it to be immaterial to the financial statement presentation.

## NOTE 2: CASH AND CASH EQUIVALENTS AND INVESTMENTS

The Board considers petty cash, change funds, cash in banks, and short term investments with original maturities of three months or less as cash and cash equivalents. Investments are stated at cost, which approximates market.

## Deposits

New Jersey statutes permit the deposit of public funds in public depositories which are located in New Jersey and which meet the requirements of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA requires a bank that accepts public funds to be a public depository. A public depository is defined as a state bank, a national bank, or a savings bank, which is located in the State of New Jersey, the deposits of which are insured by the Federal Deposit Insurance Corporation. The statutes also require public depositories to maintain collateral for deposits of public funds that exceed certain insurance limits. Each depository participating in the GUDPA system must pledge collateral equal to $5 \%$ of the average amount of its public deposits and $100 \%$ of the average amount of its public funds in excess of $75 \%$ of its capital funds. No collateral is required for amounts covered by FDIC insurance. The collateral which may be pledged to support these deposits includes obligations of the State and federal governments, insured securities and other collateral approved by the Department. When the capital position of the depository deteriorates or the depository takes an unusually large amount of public deposits, the Department of Banking and Insurance requires additional collateral to be pledged. Under (GUDPA), if a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of the deposits to the governmental unit.

Custodial Credit Risk - Deposits - Custodial credit risk is the risk that in the event of a bank failure, the deposits may not be returned. The District does not have a specific deposit policy for custodial credit risk other than those policies that adhere to the requirements of statute. As of June 30, 2023, based upon the coverage provided by FDIC and NJGUDPA, no amount of the bank balance was exposed to custodial credit risk. Of the cash on balance in the bank of $\$ 119,423,612.19$, $\$ 250,000.00$ was covered by Federal Depository Insurance, $\$ 23,143,304.07$ was covered under the provisions of NJGUDPA and $\$ 96,030,308.12$ was on deposit with the New Jersey Assets Rebate Management (NJARM).

## Investments

The types of investments which may be purchased by the District are strictly limited by the express authority of the N.J.S.A. 18A:20-37 Education, Administration of School Districts. Permitted investments include any of the following type of securities:

## NOTE 4: LONG-TERM LIABILITIES

Bonds are issued by the District pursuant to the provisions of Title 18A, Education, of the New Jersey Statutes and are required to be approved by the voters of the municipality through referendum. The proceeds of bonds are recorded in the Capital Projects Fund and are restricted to the use for which they were approved in the bond referendum. All bonds are retired in annual installments within the statutory period of usefulness.

School Bonds issued by the District are entitled to and benefit from the provision of the New Jersey School Board Reserve Act P.L. 1980 c.72. Basically, funds are held by the State of New Jersey within its State Fund for the Support of Free Public Schools as a school bond reserve pledged by law to secure payment of principal and interest due on such bonds in the event of the inability of the issuer to make payments.

NOTE 5: PENSION PLANS
Description of Plans All required employees of the District are covered by the Public Employees' Retirement System, the Teachers' Pension and Annuity Fund or the Defined Contribution Retirement Program which have been established by state statute and are administered by the New Jersey Division of Pension and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of each system will be assumed by the State of New Jersey should the system terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for each of the above systems. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625 or online at www.state.nj.us/treasury/pensions.

Teachers' Pension and Annuity Fund (TPAF) The Teachers' Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related noncontributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

Public Employees' Retirement System (PERS) The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provision of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state administered retirement system or other state or local jurisdiction.

Defined Contribution Retirement Program (DCRP) The Defined Contribution Retirement Program (DCRP) was established under the provision of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 to provide coverage elected and certain appointed officials, effective July 1, 2007. Membership is mandatory for such individuals with vesting occurring after one year of membership.

## NOTE 5: PENSION PLANS (CONTINUED)

## Significant Legislation

Effective June 28, 2011, P.L. 2011, c. 78 enacted certain changes in the operations and benefit provisions of the TPAF and the PERS systems.

As a result of these changes new members of TPAF and PERS, hired on or after June 28, 2011, will need 30 years of creditable service and have attained the age of 65 for receipt of the early retirement benefit without a reduction of $1 / 4$ of $1 \%$ for each month that the member is under age 65. New members will be eligible for a service retirement benefit at age 65 .

## Funding Changes

Under the new legislation, the methodology for calculating the unfunded accrued liability payment portion of the employer's annual pension contribution to the PERS, and TPAF. The unfunded actuarial accrued liability (UAAL) will be amortized for each plan over an open-ended 30 year period and paid in level dollars. Beginning with the July 1, 2019 actuarial valuation (July 1, 2018 for PFRS), the UAAL will be amortized over a closed 30 year period until the remaining period reaches 20 , when the amortization period will revert to an openended 20 year period.

## COLA Suspension

The payment of automatic cost-of-living adjustment to current and future retirees and beneficiaries are suspended until reactivated as permitted by this law.

## Vesting and Benefit Provisions

The vesting and benefit provisions of PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after ten years of service, except for post-retirement healthcare benefits that vest after 25 years of service.

Members are always fully vested for their own contributions and, after three years of service credit, become vested for $2 \%$ of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members' accounts.

## Contribution Requirements

The contribution policy is set by N.J.S.A. 43:15A and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation.

## Contribution Requirements (Continued)

Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The actuarially determined contribution includes funding for cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the District is a non-contributing employer of TPAF (i.e., the State of New Jersey makes the employer contribution on behalf of public school districts.

## NOTE 6: ACCOUNTING AND FINANCIAL REPORTING FOR PENSION - GASB 68

## Public Employees Retirement System (PERS)

At June 30, 2023, the District reported a liability of $\$ 16,846,110.00$ for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2021 which was rolled forward to June 30, 2022. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined. At June 30, 2022, the District's proportion was 0.1116273905 percent, which was an increase of 0.0017490563 percent from its proportion measured as of June 30, 2021.

For the year ended June 30, 2023, the District recognized pension benefit of $\$ 1,451,056.00$ in the government-wide financial statements. This pension benefit was based on the pension plans June 30, 2022 measurement date.

At June 30, 2023, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

## Actuarial Assumptions

The total pension liability for the June 30, 2022 measurement date was determined by an actuarial valuation as of July 1, 2021, which rolled forward to June 30, 2022. These actuarial valuations used the following assumptions:

Inflation rate:
Price 2.75\%

Wage $3.25 \%$
Salary Increases:
Through 2026
2.75\%-6.55\%

Based on Years of Service
Investment Rate of Return
7.00\%

Pre-retirement mortality rates were based on the Pub-2010 General BelowMedian Income Employee mortality table with an $82.2 \%$ adjustment for males and $101.4 \%$ adjustment for females, and with future improvement from the base year of 2010 on a generational basis.

Post-retirement mortality rates were based on the Pub-2010 General BelowMedian Income Healthy Retiree mortality table with a $91.4 \%$ adjustment for males and $99.7 \%$ adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7\% adjustment for males and 117.2\% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021.

## Actuarial Assumptions (Continued)

The actuarial assumptions used in the July 1, 2021 valuation were based on the results of an actuarial experience study for the period July 1, 2018 to June 30, 2021.

## Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments $(7.00 \%$ at June 30, 2022) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major assets class included in PERS's target assets allocation as of June 30, 2022 asset are summarized in the following table:

| Assets Class | Target <br> Allocation | Long-Term <br> Expected Real |
| :--- | :---: | :---: |

## Public Employees Retirement System (PERS) (Continued)

## Actuarial Assumptions (Continued)

## Discount Rate

The discount rate used to measure the total pension liability was $7.00 \%$ as of June 30, 2022. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on $100 \%$ of the actuarially determined contributions for the State employer and 100\% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the longterm expected rate of return on plan investments was applied to all projected benefit payments in determining the total pension liability.

## Sensitivity of the Collective Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability as of June 30, 2022, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage-point higher than the current rate:

|  | June 30, 2022 |  |  |
| :---: | :---: | :---: | :---: |
|  | $1 \%$ | At Current | $1 \%$ |

## Teachers Pensions and Annuity Fund (TPAF)

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer.

The portion of the TPAF Net Pension Liability that was associated with the District recognized at June 30, 2023 was as follows:

Net Pension Liability:
Districts proportionate share -0State's proportionate share associated with the District

204,479,273.00
\$204,479,273.00

The net pension liability was measured as of June 30, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2021 which was rolled forward to June 30, 2022. The net pension liability associated with the District was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. At June 30, 2022, the proportion of the TPAF net pension liability associated with the District was $.3963205505 \%$ which was an increase of . 0088938516 percent from its proportion measured as of June 30, 2020.

For the year ended June 30, 2023, the District recognized on-behalf pension expense and revenue of $\$ 5,503,109.00$ in the government-wide financial statements for contributions provided by the State. This pension expense and revenue was based on the pension plans June 30, 2022 measurement date.

## Actuarial Assumptions

The total pension liability for the June 30, 2022 measurement date was determined by an actuarial valuation as of July 1, 2021, which was rolled forward to June 30, 2022. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation rate:

| Price | $2.75 \%$ |
| :--- | :--- |
| Wage | $3.25 \%$ |

Salary Increases
1.55\%-5.65\%

Based on Years of Service

Investment Rate of Return
7.00\%

## Mortality Rate

Pre-retirement mortality rates were based on the Pub-2010 Teachers AboveMedian Income Employee mortality table with a 93.9\% adjustment for males and $85.3 \%$ adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Healthy Retiree mortality table with a $114.7 \%$ adjustment for males and $99.6 \%$ adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 106.3\% adjustment for males and 100.3\% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2021.

The actuarial assumptions used in the July 1, 2021 valuation were based on the results of an actuarial experience study for the period July 1, 2018 to June 30, 2021.

## Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments $(7.00 \%$ at June 30, 2022) is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries.

## Long-Term Expected Rate of Return (Continued)

The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2022 are summarized in the following table:

| Assets Class | Target Allocation | Long-Term Expected Real Rate of Return |
| :---: | :---: | :---: |
| U.S. Equity | 27.00\% | 8.12\% |
| Non-U.S. Developed Market Equity | 13.50\% | 8.38\% |
| Emerging Market Equity | 5.50\% | 10.33\% |
| Private Equity | 13.00\% | 11.19\% |
| Real Assets | 3.00\% | 7.60\% |
| Real Estate | 8.00\% | 11.19\% |
| High Yield | 4.00\% | 4.95\% |
| Private Credit | 8.00\% | 8.10\% |
| Investment Grade Credit | 7.00\% | 3.38\% |
| Cash Equivalents | 4.00\% | 1.75\% |
| U.S. Treasuries | 4.00\% | 1.75\% |
| Risk Mitigation Strategies | 3.00\% | 4.91\% |

## Discount Rate

The discount rate used to measure the total pension liability was $7.00 \%$ as of June 30, 2022. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be based on $100 \%$ of the actuarially determined contributions for the State. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments in determining the total pension liability.

NOTE 7: ACCOUNTING AND FINANCIAL REPORTING FOR POST-RETIREMENT BENEFITS OTHER THAN PENSIONS - GASB 75

The State Health Benefit Local Education Retired Employees Plan is a multipleemployer defined benefit OPEB plan, which is administered on a pay-as-you-go basis. Accordingly, no assets are accumulated in a qualifying trust that meets the criteria in paragraph 4 of GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The State Health Benefit Local Education Retired Employees Plan provides medical, prescription drug, and Medicare Part B reimbursement to retirees and their covered dependents of local education employers.

NOTE 7: ACCOUNTING AND FINANCIAL REPORTING FOR POST-RETIREMENT BENEFITS OTHER THAN PENSIONS - GASB 75 (CONTINUED)

The employer contributions for the participating local education employers are legally required to be funded by the State of New Jersey in accordance with N.J.S.A 52:14-17.32f. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 75 and the State is treated as a nonemployer contributing entity. According to N.J.S.A 52:14-17.32f, the State provides employer-paid coverage to employees who retire from a board of education or county college with 25 years or more of service credit in, or retires on a disability pension from, one or more of the following plans: the Teachers' Pension and Annuity Fund (TPAF), the Public Employees' Retirement System (PERS), the Police and Firemen Retirement System (PFRS), or the Alternate Benefit Program (ABP). Pursuant to Chapter 78, P.L, 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

## Total Non-Employer OPEB Liability

The portion of the total Non-Employer OPEB Liability that was associated with the District at June 30, 2023 was as follows:
Total OPEB Liability:
District's Proportionate Share
State's Proportionate Share associated
$\quad$ with the District with the District 182,173,189

$$
\$ 182,173,189
$$

The total Non-Employer OPEB liability as of June 30, 2022 was determined by an actuarial valuation as of June 30, 2021, which was rolled forward to June 30, 2022.

The total Non-Employer OPEB liability was determined separately based on actual data of the District.

For the year ended June 30, 2023, the District recognized on-behalf postemployment expense and revenue of $\$ 7,866,524.00$ in the government-wide financial statements for contributions provided by the State. This expense and revenue was based on the plans June 30, 2022 measurement date.

At June 30, 2023, the District's proportion was 3596957780 percent, which was an increase of .0010335582 from its proportion measured as of June 30, 2022.

The State, a nonemployer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS, TPAF/ABP and PFRS participants. The District's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASBS No. 75 is zero percent. Consequently, the District did not recognize any portion of the collective Non-Employer OPEB liability on the Statement of Net Position.

## Actuarial Assumptions and Other Inputs

The total Non-Employer OPEB liability that was associated with the District as of June 30, 2022 was determined by an actuarial valuation as of June 30, 2021, which was rolled forward to June 30, 2022. The actuarial assumptions vary for each plan member depending on the pension plan the member is enrolled in. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

June 30, 2022
TPAF/ABP
Inflation - 2.5\%
Salary Increases $\quad 2.75-4.25 \%^{*} \quad 2.75-6.55 \%^{*} \quad 3.25-16.25 \%^{*}$
*- Based on Years of Service

Preretirement mortality rates were based on the Pub-2010 Healthy "Teachers" (TPAF/ABP), "General" (PERS), and "Safety" (PFRS) classification headcountweighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Postretirement mortality rates were based on the Pub-2010 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Disability mortality was based on the Pub-2010 "General" classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021 for current disables retirees. Future disabled retirees was based on the Pub-2010 "Safety" (PFRS), "General" (PERS), and "Teachers" (TPAF/ABP) classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021.
Actuarial assumptions used in the July 1, 2021 valuation were based on the results of the TPAF, PERS and PFRS experience studies prepared for July 1, 2018 to June 30, 2021.

## Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend rate is initially $6.25 \%$ and decreases to a $4.50 \%$ long-term trend rate after eight years. For post- 65 medical benefits PPO, the trend is initially $-1.99 \%$ in fiscal year 2023, increasing to $13.44 \%$ in fiscal year 2026 and decreases to $4.50 \%$ in fiscal year 2033. For HMO the trend is initially $-3.54 \%$ in fiscal year 2023, increasing to $15.19 \%$ in fiscal year 2026 and decreases to $4.50 \%$ in fiscal year 2033. For prescription drug benefits, the initial trend rate is $8.00 \%$ and decreases to a $4.50 \%$ long-term trend rate after eight years. For the Medicare Part B reimbursement, the trend rate is $5.00 \%$.

## Discount Rate

The discount rate used to measure the total OPEB liability was $3.54 \%$. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

The New Jersey Division of Pension and Benefits issues publicly available reports on the OPEB plan. Those reports may be obtained by writing to the Division of Pension and Benefits, PO Box 295, Trenton, NJ 08625-0295 or on their website at http://www.state.nj. us/treasury/pensions/gasb-notices-opeb.shtml

## NOTE 8: LITIGATION

The District is a defendant in several legal proceedings that are in various stages of litigation. It is either believed that the outcome of exposure to the Board from such litigation is either unknown or potential losses, if any, would not be material to the financial statements as they would be covered by the District's insurance policy.

# Sayreville Borough School District <br> Notes to the Financial Statements For the Fiscal Year Ending June 30, 2023 

## NOTE 9: RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance The District maintains insurance coverage covering each of those risks of loss. The administration believes such coverage is sufficient to preclude any significant uninsured losses to the District. Settled claims have not exceeded the insurance coverage in any of the past three fiscal years.

New Jersey Unemployment Compensation Insurance The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method." Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. Charges are applied to the Unemployment Compensation Claims Payable first, and any remaining charges are applied to the Unemployment compensation budget appropriation. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the combined ending balance of the District's Unemployment Compensation Claims Payable for the current and previous two years:

| Year <br> Ended <br> June 30, | Employee Contributions | Interest | Amount Reimbursed | Ending Balance | Analysis of Balance |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  | Unemployment Insurance Payable | Restricted Fund Balance |
| 2023 | \$249,919.98 | \$4,083.07 | \$267,522.74 | \$373,778.00 | \$170,927.14 | \$202,850.86 |
| 2022 | 291,849.10 | 753.61 | 199,588.36 | 387,297.69 | 188,529.90 | 198,767.79 |

Self-Insurance The District is self-insured for health benefits, prescription benefits and dental benefits, and has established an internal service fund to account for its self-insurance activities. The accrued liability for unpaid health, prescription and dental claims of $\$ 1,405,000.00, \$ 85,000.00$ and $12,700.00$, respectively, has been recorded in the financial statements for Incurred But Not Reported Claims (IBNR) The IBNR liability for prescription benefits has been calculated by the District based on actual enrollment, the statute of limitations in reporting a claim, and actual claims reported. In addition, the District has unrestricted net position (deficit) of ( $\$ 3,889,982.86$ ), $\$ 592,526.11$ and $\$ 313,053.85$, respectively, for future health, prescription and dental claims.

# Sayreville Borough School District <br> Notes to the Financial Statements <br> For the Fiscal Year Ending June 30, 2023 

## NOTE 10: CONTINGENCIES

The District receives financial assistance from the State of New Jersey and the U.S. Government in the form of grants. Entitlement to the funds is generally conditional upon compliance with terms and conditions of the grant agreements and applicable regulations, including the expenditure of the funds for eligible purposes. The State and Federal grants received and expended in the 20222023 fiscal year were subject to the Uniform Guidance and New Jersey OMB Circular 15-08 which mandates that grant revenues and expenditures be audited in conjunction with the District's annual audit if expenditures for federal or state programs exceed $\$ 750,000.00$ Findings and questioned costs, if any, relative to federal and state financial assistance programs are discussed in the Single Audit Section, Schedule of Findings and Questioned Costs. In addition, all grants and cost reimbursements are subject to financial and compliance audits by the grantors. The District's management does not believe any such audit would result in material amounts of disallowed costs.

## NOTE 11: COMPENSATED ABSENCES

The District accounts for compensated absences (e.g., unused vacation and sick leave) as directed by Governmental Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the Districts agreements with the various employee unions.

The liability for vested compensated absences of the governmental fund types are recorded in the district - wide statement of net position. As of June 30, 2023, a liability existed for compensated absences for governmental fund-types and enterprise fund-types in the district- wide statement of net position of $\$ 4,163,940.94$ and $\$ 40,678.51$, respectively.

For additional descriptive information see Note 1, Summary of Significant Accounting Policies.

## NOTE 12: FUND BALANCE

General Fund The table below reflects the District's Fund Balance at June 30, 2023 on both a GAAP (Exhibit B-1) and Budgetary (Exhibit C-1) basis including the required adjustment related to the last state aid payment which under GAAP is not recognized:

## NOTE 13: DEFICIT FUND BALANCES

The District has a deficit fund balance of $\$ 902,350.48$ in the Special Revenue Fund and $\$ 2,984,402.90$ in the Internal Service Fund as of June 30, 2023 as reported in the fund statements (modified accrual basis).
N.J.S.A 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the last state aid payment as revenue, in the current budget year. The statute provides legal authority for school districts to recognize this revenue in the current budget year.

For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditures, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability.

Since the State is recording the last state aid payment in the subsequent fiscal year, the school district cannot recognize the last two state aid payments on the GAAP financial statements until the year the State records the payable. Due to the timing difference of recording the last state aid payment, the fund balance deficits in the General and Special Revenue Funds do not alone indicate that the District is facing financial difficulties. Pursuant to P.L. 2003, c.97, any negative unreserved, undesignated general fund balance that is reported as a direct result from the delay in the payment of state aid until the following fiscal year, is not considered in violation of New Jersey statute and regulation nor in need of corrective action.

Sayreville Borough School District<br>Notes to the Financial Statements<br>For the Fiscal Year Ending June 30, 2023

## NOTE 13: DEFICIT FUND BALANCES / NET POSITION

Per GASB 10, deficits, if any, in an internal service fund do not need to be charged back to the other funds in any one year, as long as adjustments are made over a reasonable period of time; however, a deficit fund balance of the internal service fund should be disclosed in the notes to financial statements. If the charge by the internal service fund to the other funds fails to recover the full cost of claims over a reasonable period of time, any deficit fund balance in the internal service fund should be charged back to the other funds and reported as an expenditure/expense of those funds. It is the District intention to recover the cost of claims.

## NOTE 14: INTERFUND RECEIVABLES AND PAYABLES

The following interfund balances remained on the balance sheet at June 30, 2023:

|  | Interfund Balance |  |

## NOTE 15: CALCULATION OF EXCESS SURPLUS - BUDGETARY BASIS

Calculation of Excess Surplus In accordance with N.J.S.A. 18A:7F-7, as amended by P.L. 2007, c73 (S1701), the Restricted Fund Balance - Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30 if the District did not appropriate a required minimum amount as budgeted fund balance in the subsequent year's budget.

Sayreville Borough School District<br>Notes to the Financial Statements<br>For the Fiscal Year Ending June 30, 2023

## NOTE 16: CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the Sayreville Borough Board of Education in prior years for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the Department of Education, a district may increase the balance in the capital reserve by appropriating funds in the annual general fund budget certified for taxes or by transfer by Board resolution at year end (June 1 to June 30) of any unanticipated revenue or unexpended line item appropriations, or both. A district may also appropriate additional amounts when the express approval of the voters has been obtained by either a separate proposal at budget time or by a special question at one of the four special election dates authorized by N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6A:23A-14.1(g), the balance in the account cannot at any time exceed the local support costs of uncompleted capital projects in its approved LRFP.
The activity of the capital reserve for the June 30, 2023 fiscal year is as follows:

| Balance, June 30, 2022 (Budgetary Basis) |  |  | \$ | 9,854,621.25 |

## NOTE 17: MAINTENANCE RESERVE ACCOUNT

In accordance with N.J.S.A. 18A:7G-13, a Maintenance reserve account was established by the District. The Maintenance reserve account is maintained in the general fund.

A district board of education or board of school estimate, as appropriate, may increase the balance in the maintenance reserve account by appropriating funds in the annual general fund budget certified for taxes.

A district board of education or board of school estimate, as appropriate, may by resolution withdraw such funds from the maintenance reserve account and appropriate into the required maintenance account lines at budget time or any time during the year for use on required maintenance activities for a school facility as reported in the comprehensive maintenance plan pursuant to N.J.A.C. 6A:26A-4.

The district board of education shall ensure that the maintenance reserve account balance does not, at any time, exceed four percent of the replacement cost of the school district's school facilities for the current year. If the account exceeds this maximum amount at June 30, the district board of education shall reserve and designate such excess in the subsequent year's budget.

The activity of the maintenance reserve for the June 30, 2023 fiscal year is as follows:

Balance, June 30, 2022 (Budgetary Basis)
Interest Earnings
Withdrawals:

## NOTE 18: EMERGENCY RESERVE ACCOUNT

In accordance with N.J.S.A. 18A:7F-41c(1), an emergency reserve account was established by the District by Board Resolution dated June 26, 2018. The emergency reserve account is maintained in the general fund.

The funds in the reserve shall be used to finance unanticipated general fund current expense costs required for $T \& E$. For the purpose of the emergency reserve account "unanticipated" shall mean reasonably unforeseeable and shall not include additional costs caused by poor planning or error.

The account balance is not to exceed $\$ 250,000$ or one percent of the district's general fund budget up to a maximum of $\$ 1,000,000$ whichever is greater. Withdrawals require approval by the Commissioner.

The activity of the emergency reserve for the June 30, 2023 fiscal year is as follows:

| Balance, June 30, 2022 (Budgetary Basis) | \$ | 550,000.00 |
| :---: | :---: | :---: |
| Interest Earnings |  | 3,421.28 |

| Withdrawals: |  |  |
| Budget |  | 193,000.00 |
| Balance, June 30, 2023 (Budgetary Basis) | \$ | 360,421.28 |

## NOTE 19: INVENTORY

Inventory in the Food Service Fund at June 30, 2023 consisted of the following:
Food and Supplies $\quad \$ 49,158.23$
The value of Federal donated commodities as reflected on Schedule A (required by the Single Audit Act Amendment of 1996) is the difference between market value and cost of the commodities at the date of purchase and has been included as an item of non-operating revenue in the financial statements.

# Sayreville Borough School District <br> Notes to the Financial Statements <br> For the Fiscal Year Ending June 30, 2023 

## NOTE 20: TAX ABATEMENTS

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements. If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district.

The District has identified several agreements that have been entered into by Sayreville Borough that require disclosure under this statement. It is important to note that the District Tax Levy is guaranteed to be paid in full by the municipalities and that the District collected its full tax levy for FY2023.

The property owner under the terms of these agreements are required to pay the municipalities an annual service charge in lieu of taxes. In certain cases, a portion of this fee is remitted to the school district. As of the date of the audit the amount due to the District has not been finalized.

## NOTE 21: SUBSEQUENT EVENTS

The Board of Education has evaluated subsequent events occurring after the financial statement date through January 9, 2024 which is the date the financial statements were available to be issued. Based upon this evaluation, the District has determined that no subsequent events needed to be disclosed.

(Rates are per \$100 of assessed value)
NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.
(a) The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the net valuation taxable
(b) Rates for debt service are based on each year's requirements.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF BASIC FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS 

Honorable President and Members

of the Board of Education
Sayreville Borough School District
County of Middlesex
Sayreville, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities and each major fund of the Sayreville Borough School District (the "District") as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the District's financial statements, and have issued our report thereon dated January 9, 2024.

## Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Sayreville Borough School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

## Tuple, Clooney \& Company

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

## Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

## Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL AND STATE FINANCIAL ASSISTANCE PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE AND NEW JERSEY OMB CIRCULAR 15-08 

Honorable President and Members of the Board of Education
Sayreville Borough School District
County of Middlesex
Sayreville, New Jersey
Report on Compliance for Each Major Federal and State Program

## Opinion on Each Major Federal and State Program

We have audited the Sayreville Borough School District's compliance with the types of compliance requirements described in the federal OMB Compliance Supplement and the New Jersey OMB State Grant Compliance Supplement that could have a direct and material effect on each of the Sayreville Borough School District's major state programs for the year ended June 30, 2023. The District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2023.

## Basis for Opinion on Each Major Federal and State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and the New Jersey OMB State Grant Compliance Supplement. Our responsibilities under those standards, the Uniform Guidance and the New Jersey OMB State Grant Compliance Supplement are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

## Suplee, Clooney \& Company

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

## Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal and state programs.

## Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, Government Auditing Standards, the Uniform Guidance and the New Jersey OMB State Grant Compliance Supplement will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal or state program as a whole.

In performing an audit in accordance with generally accepted auditing standards, Government Auditing Standards, the Uniform Guidance and New Jersey OMB State Grant Compliance Supplement, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and the New Jersey OMB State Grant Compliance Supplement, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

## Suplee, Clooney \& Company

## Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the New Jersey OMB State Grant Compliance Supplement. Accordingly, this report is not suitable for any other purpose.

Sayreville Borough School District<br>Notes to the Schedules of Expenditures of Federal Awards and State Financial Assistance<br>Year Ended June 30, 2023

## NOTE 1: GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state activity of the Sayreville Borough School District ("the District"). The District is defined in Note 1 to the basic financial statements. All federal and state awards received directly from the federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financials assistance.

## NOTE 2: BASIS OF ACCOUNTING

The accompanying schedules of expenditures of federal awards and state financial assistance are presented on the budgetary basis of accounting with the exceptions of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 of the District's basic financial statements. The information in this schedule is presented in accordance with the requirements of 2 CFR 200 Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance"), Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements. The District has elected not to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

## NOTE 3: RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedule (RSI) are presented for the general fund and special revenue fund to demonstrate financeregulated legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The General fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the deferred state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP accounting purposes, those payments are not recognized until the subsequent budget year due to the state deferral and recording of the state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenue, whereas GAAP basis does not. The special revenue fund also recognizes the deferred state aid payments in the current budget year, consistent with N.J.S.A. 18A:22-44.2.
