Dr. Scot Beckerman Superintendent of Schools

January 13, 2025

Honorable President and Members of the Board of Education Northern Highlands Regional High School District 298 Hillside Avenue Allendale, New Jersey 07401

Dear Board Members:

The annual comprehensive financial report (the "ACFR") of the Northern Highlands Regional High School District for the fiscal year ended June 30, 2024 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Board of Education. To the best of our knowledge and belief, the data presented in the ACFR is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The ACFR is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the basic financial statements, management's discussion and analysis and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Amendments of 1996, *Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements* (Uniform Guidance) and New Jersey OMB's Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid.* Information related to this single audit, including the auditors' report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, is included in the single audit section of this report.

1. REPORTING ENTITY AND ITS SERVICES:

Northern Highlands Regional High School District is an independent reporting entity within the criteria adopted by G.A.S.B. (Governmental Accounting Standards Board) established by Statement No. 61, as amended. All funds and the government-wide financial statements of the District are included in this report. The Northern Highlands Regional High School District Board of Education and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels 9-12. These include regular, as well as special education (through age 21) for special needs students. The District completed the 2023-24 fiscal year with an average daily enrollment in-district of 1,260 students, which is a decrease of 33 students from the preceding year. In addition to the students on roll at the high school in Allendale, the District is responsible for approximately 69 students that are sent out-of-district to Bergen Academies, Bergen County Vocational schools and special needs placements. The following schedule details the changes in the student enrollment of the District over a five-year period. These schedules do not reflect students sent out-of-district for special education or to Bergen Academies.

Average Daily Enrollment

Fiscal Year 2023-2024	Student Enrollment 1,260	Percent Change (2.55%)
2022-2023	1,293	(1.15%)
2021-2022	1,308	(3.75%)
2020-2021	1,359	(3.34%)
2019-2020	1,406	1.66%

2. ECONOMIC CONDITION & OUTLOOK:

The Allendale and Upper Saddle River area continues to experience a period of slow development and expansion. The rate of business relocation to the area is status quo. Current new home development is not significant. Enrollment is level at this time and it is not anticipated that enrollment will change significantly over the near term as evidenced by the overall flatness in our enrollment during the past five years with an average enrollment of 1,325 students.

3. MAJOR INITIATIVES:

We installed a new field house and purchased new fitness equipment, replaced the ticket booth, replaced the turf softball scoreboard, resurfaced both d-zones in the stadium turf field area, and replaced a 54-passenger school bus. We also installed 2 dual port DCFC's for EV charging and abated and replaced the floors in the Band classroom, Band office, and Band storage room.

Students at Northern Highlands Regional High School continue to score above the state and national average on all standardized tests. The class of 2024 averaged well-above their peers on the Scholastic Aptitude Test (SAT) at both the state and national level. Of the 318 graduates in the class of 2024, 97% (309 students) are attending college. More specifically, 95% (301 students) are attending four-year institutions and 2% (8 students) are attending two-year institutions. Our dropout rate is non-existent. Northern Highlands offers 47 honors courses and 28 Advanced Placement courses that demonstrate student

growth and high achievement. In May of 2024, 497 students sat for 1,181 AP exams in 31 subject areas. Northern Highlands students continue to achieve outstanding scores. Of the 1,181 AP exams that were given, 91% (1,080) of the students who sat for a multitude of exams earned a score of three (3) or better. In additional to strong assessment scores, Northern Highlands Regional High School students can earn college credits through AP testing or by enrolling in our courses affiliated with the Syracuse University Project Advance (SUPA) and our dual enrollment courses through Fairleigh Dickinson University, New Jersey Institute of Technology, Ramapo College of New Jersey, Rutgers University, Seton Hall University and Bergen County Community College. Through our Career and Academic Pathways program, we offer a variety of programs including courses for advancement and enrichment, the senior internship program, community service and volunteering opportunities, independent study and work-based learning.

4. INTERNAL ACCOUNTING CONTROLS:

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with Generally Accepted Accounting Principles (G.A.A.P.). An internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

The ability of an accounting and financial reporting system to provide timely accurate reporting is essential to any system of internal controls. Such systems are critical to affording management and the Board of Education flexibility in financial management of current operations and long-term financial planning. In the context of uncertain levels of state aid funding and continued economic stagnation at the state and local levels, it is imperative that controls over implementation of District operating budgets continually strive toward the maximum efficiency and effectiveness.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5. BUDGETARY CONTROLS:

In addition to internal controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board of Education. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either cancelled or are included as a re-appropriation of fund balances in the subsequent year. Those amounts to be re-appropriated are reported as assignments of fund balance at June 30, 2024.

6. ACCOUNTING SYSTEM AND REPORTS:

A district's accounting records must reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (G.A.S.B.). The accounting system of the District is organized on the basis of funds and account groups. These funds and government-wide financial statements are explained in "Notes to the Financial Statements" Note 1.

An effective and efficient system of internal controls is essential to accurate, timely reporting of all relevant transactions on an accounting system and the resultant administrative and external reports generated from that system.

7. CASH MANAGEMENT:

The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements" Note 1. The District has adopted a cash management plan, which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey where the funds are secured in accordance with the Act.

Effective July 1, 2016, Valley National Bank became the main depository for District funds. This bank meets the GUDPA requirements.

8. FINANCIAL INFORMATION AT FISCAL YEAR-END:

As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibilities for sound financial management. The following schedule presents a summary of the governmental fund revenues for the fiscal year ended June 30, 2024 and the amount and percentage of increase (decrease) in relation to the prior year.

			Total Dollar Increase	Percentage
	FY 2023-2024	Percentage of	(Decrease) From	Increase
Revenues	Amount	Total	2022-2023	(Decrease)
Taxes	\$ 26,101,044	58.6%	\$ 903,912	3.6%
Other Local Sources	1,975,012	4.4%	394,476	25.0%
Tuition	6,292,546	14.1%	134,495	2.2%
State Sources	9,583,075	21.5%	627,010	7.0%
Federal Sources	606,391	1.4%	(144,106)	-19.2%
Totals	\$ 44,558,068	100.0%	\$ 1,915,787	4.5%

The following schedule presents a summary of the governmental fund expenditures for the fiscal year ended June 30, 2024 and the amount and percentage of increase (decrease) in relation to the prior year.

		Total Dollar				
	FY 2023-2024	Percentage of	Inc	rease From	Percentage	
Expenditures	Amount	Total	2	022-2023	Increase	
Current Expense	\$ 39,006,524	77.1%	\$	1,747,619	4.7%	
Capital Outlays	8,562,343	16.9%		5,096,424	147.0%	
Special Revenues	1,713,645	3.4%		8,623	0.5%	
Debt Service	1,370,538	2.7%		133,349	10.8%	
Totals	\$ 50,653,050	100.0%	\$	6,986,015	16.0%	

9. DEBT ADMINISTRATION:

As of June 30, 2024 the District had two (2) general obligation bond issues outstanding. The first outstanding bond issue is the 2013 school bonds, which were issued on December 10, 2013 in the amount of \$2,760,000. As of June 30, 2024, \$360,000 remained in principal to be paid. These bonds were issued to finance the costs of the roof replacement project, bear interest at a rate of 3.00%, and mature with the final annual installment on November 15, 2024.

The second outstanding bond issue is the 2022 school bonds, which were issued on May 4, 2022, in the amount of \$8,827,000. As of June 30, 2024, \$7,475,000 remained in principal to be paid. These bonds were issued to finance the costs of the field house/wellness center, field drainage and turf and various other interior building renovations, bearing interest at rates ranging from 3.00% to 3.25% and mature in annual installments through May 1, 2037.

All the District's outstanding bonds have been rated AAA by Standard & Poors. This rating is a "stand alone" rating and does not rely on any credit enhancements from the State of New Jersey.

10. RISK MANAGEMENT:

The Board carries various forms of insurance, including but not limited to general liability and comprehensive collision, hazard and theft insurance on property and contents, and fidelity bonds.

11. OTHER INFORMATION:

State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of PKF O'Connor Davies, LLP was selected by the Board of Education. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act and the related requirements of *Title 2 U.S. Code of Federal regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements* (Uniform Guidance) and New Jersey OMB's Circular 15-08. The auditor's report on the basic financial statements and combining and individual fund statements and schedules is included in the financial section of the report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

12. ACKNOWLEDGEMENTS:

We would like to express our appreciation to the members of the Northern Highlands Regional High School District Board of Education for its concern in providing fiscal accountability to the citizens and taxpayers of the School District and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

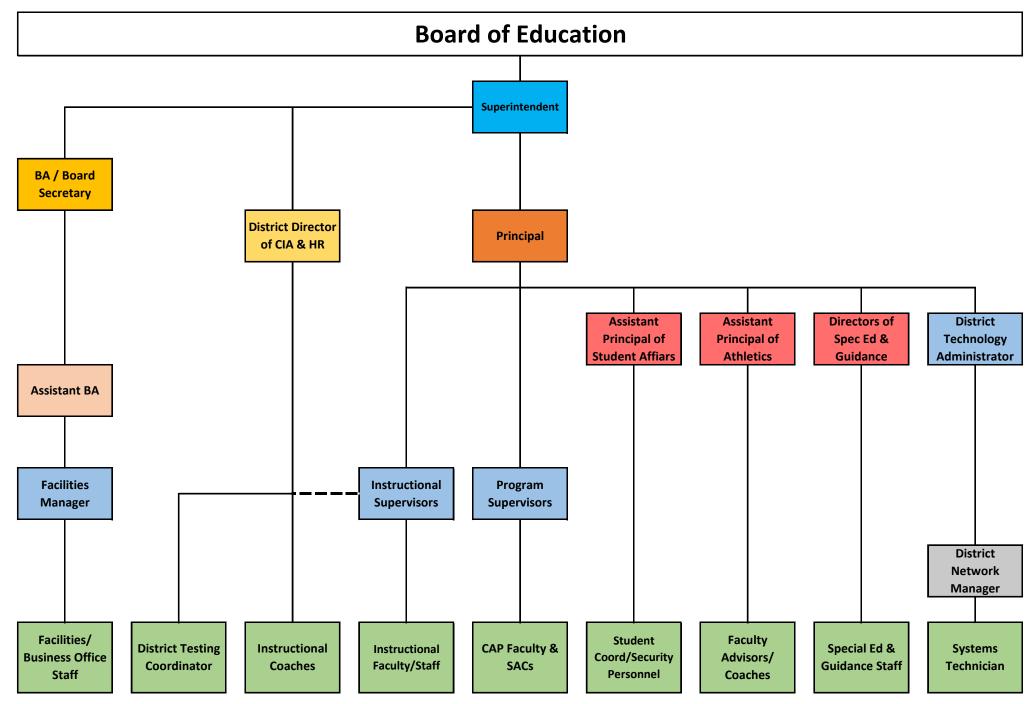

Respectfully submitted,

Dr. Scot Beckerman

Superintendent of Schools

Independent Auditors' Report

Honorable President and Members of the Board of Education Northern Highlands Regional High School District Allendale, New Jersey

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of the Northern Highlands Regional High School District, County of Bergen, State of New Jersey (the "District"), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities and each major fund of the District as of June 30, 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS); audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States ("Government Auditing Standards"). Our responsibilities under those standards and requirements are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Honorable President and Members of the Board of Education Northern Highlands Regional School District

Page 2

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of
 expressing an opinion on the effectiveness of the District's internal control.
 Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the
 aggregate, that raise substantial doubt about the District's ability to continue as a going
 concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Honorable President and Members of the Board of Education Northern Highlands Regional School District

Page 3

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and the schedules included under Required Supplementary Information in the accompanying table of contents be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining and individual fund financial statements, long-term debt schedules, and the schedules of expenditures of federal awards and state financial assistance, as required by New Jersey OMB Circular 15-08, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid,* are presented for additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the combining and individual fund financial statements, long-term debt schedules and the schedules of expenditures of federal awards and state financial assistance are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the Annual Comprehensive Financial Report for the year ended June 30, 2024. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Honorable President and Members of the Board of Education Northern Highlands Regional School District

Page 4

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 13, 2025 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION PART I

NORTHERN HIGHLANDS REGIONAL HIGH SCHOOL DISTRICT Allendale, New Jersey Bergen County, New Jersey

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) June 30, 2024

This section of the District's annual financial report presents a discussion and analysis of the District's financial performance during the fiscal year ending June 30, 2024. The focus of the Management Discussion and Analysis (MD&A) is on current year activities, resulting changes and currently known facts. It should be read in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follow this section.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statement—and Management's Discussion and Analysis—for State and Local Governments issued June 1999 and amended by GASB Statement No. 37. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

The key financial highlights for the 2023-2024 fiscal year include the following:

The District's Governmental Activities net position increased by \$1,945,963 as reflected in Table 4, Changes in Net Position. This increase is primarily attributable to the excess of capital asset additions over depreciation, as well as reduction of the full accrual pension expense. The District's business-type activity net position increased by \$13,120, as reflected in Table 4, Changes in Net Position. This gain was the result of the District serving enough meals to students and teachers from the District's cafeteria to cover fixed expenditures, allowing for a positive operating income to be earned. The breakdown of these amounts is reflected in Schedule A-2 of the Government-wide Financial Statements. The District's Governmental Funds reported a decrease in Fund Balance of \$6,105,722, to \$10,053,281 at year-end. This decrease resulted primarily from the expenditures made in the Capital Projects Fund related to the Referendum Project. The revenues, expenses and changes in fund balances for the Governmental Funds are reflected in Exhibit B-2 of the Financial Statements.

The General or operating Fund Balance was reported for GAAP purposes at \$7,178,979 which represents a decrease of \$1,051,738 over the prior year's Fund Balance of \$8,230,717. Of this total, \$1,262,593 of excess surplus was appropriated toward the 2024-2025 budget. \$162,814 of General Fund Balance was assigned to cover open purchase orders at year-end. Based upon the reduction imposed by \$1701 in the calculation of maximum restricted fund balance that the District is allowed to retain, the amount of General Fund Balance required to be reserved for tax relief in the 2025-2026 budget is \$1,347,862. The Unassigned General Fund Balance is reported at \$752,449. The District's General Fund Balance is at the maximum permitted under the Department of Education regulations based upon 2% of General Fund expenditures, with specified modifications. Total spending for all governmental funds was \$50,653,050. Total revenues were \$44,558,068 resulting in a deficiency of revenues under expenditures of \$6,094,982 for the year. Governmental funds other financing sources and uses during

the year consisted of a net transfer out of \$10,740 to the District's proprietary funds. As a result, the net change in governmental fund balances was (\$6,105,722) in 2023-2024.

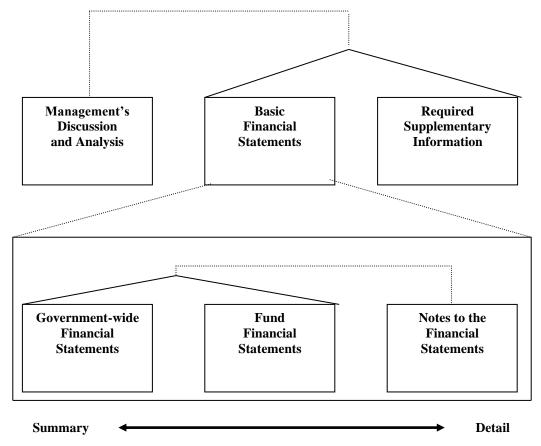

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are government-wide financial statements that provide both short-term and long-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the District, reporting the District's operations in more detail than the government-wide financial statements.
- The governmental funds statements tell how basic services such as regular and special education were financed in the short term as well as what remains for future spending.
- Proprietary funds statements offer short and long-term financial information about the activities which operates like businesses, such as food services.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year. Table - 1 shows how the various parts of this annual report are arranged and related to one another.

Table - 1
Organization of the School District Annual Financial Report

15

Table - 2 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights that structure and contents of each of the statements.

Table - 2 Major Features of the Government-Wide and Fund Financial Statements								
	Government-Wide	Fund Financial St	atements					
	Statements	Governmental Funds	Proprietary Funds					
Scope	Entire district	The activities of the district that are not proprietary, such as special education and building maintenance	Activities the district operates similar to private businesses: food services and adult education					
Required financial statements	Statement of net position Statement of activities	 Balance Sheet Statement of revenues, expenditures, and changes in fund balances 	Statement of net position Statement of Revenues, Expenses and Changes in Net Position Statement of cash flows					
Accounting Basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current resources financial focus	Accrual accounting and economic resources focus					
Type of asset / liability information All assets and liabilities, both financial and capital, short-term and long-term. All deferred outflows of resources and deferred inflows of resources		Generally, assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term					
Type of inflow/out- flow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due and payable	All revenues and expenses during the year, regardless of when cash is received or paid					

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position - the difference between the District's assets and deferred outflows and its liabilities and deferred inflows - is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider that the School District's goal is to provide services to students, not to generate profits as commercial entities do. One must consider many other non-financial factors, such as the quality of the education provided and the safety of the schools to assess the overall health of the District.

In the government-wide financial statements, the District's activities are divided into two categories:

- Governmental activities: Most of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and state formula aid finance most of these activities.
- Business-type activities: The District charges fees to help it cover the costs of certain services it provides. The District's shared services program and food services are included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (such as repaying its long-term debts) or to show that it is properly using certain revenues (such as federal grants).

The District has two kinds of funds:

Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the District-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between them.

<u>Proprietary funds</u>: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district-wide statements. The District's enterprise funds (one type of proprietary fund) are the same as its business-type activities but provide more detail and additional information, such as cash flows. The District may use internal service funds (the other kind of proprietary fund) to report activities that provide supplies and services for its other programs and activities. The District currently does not utilize internal service funds for financial reporting.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District's Governmental Activities net position was \$24,588,468 at June 30, 2024. Of this amount, a deficit amount of \$4,263,863 was reported as unrestricted net position, primarily due to GASB Statement No. 68 accounting and reporting requirements for the PERS defined benefit pension system. Restricted net position are reported separately to show legal constraints from debt covenants and enabling legislation that limit the District's ability to use those net assets for day-to-day operations. The District's Business-Type Activities net position was \$630,099 at June 30, 2024. Of this amount, \$313,087 was reported as unrestricted net position, with the balance of \$317,012 representing the District's investment in capital assets. Our analysis below focuses on the net position (Table - 3) and change in net position (Table - 4) of the District's government-wide activities.

As we noted earlier, the District uses funds to help it control and manage money for particular purposes. Looking at funds helps you consider whether the District is being accountable for the resources provided to it, and also, gives more insight into the District's overall financial health.

As the District completed this year, our governmental funds reported a combined fund balance of \$10,053,281, which is a decrease of \$6,105,722 from the prior year. This amount includes the General Fund (decrease of \$1,051,738), Special Revenue Fund (increase of \$77), Capital Projects Fund (decrease of \$5,054,061) and Debt Service Fund (unchanged). The primary reason for the decrease in fund balance the current year is due to Capital Projects Fund expenditures of \$6,842,111 related to the Referendum Project. The General Fund experienced an excess of revenues over expenditures in the current year of \$419,079, as there were favorable budget variances and increases in tax levy, tuition charges, and state aid revenues from the prior year. However, the General Fund was required to transfer \$1,788,050 to the Capital Projects Fund to help fund the additional costs incurred in the Referendum Project, as well as transfer \$10,740 to the Food Service Fund to fund the costs of serving meals to students who qualify for free and reduced lunches, as the District does not participate in the National School Lunch Program and is not reimbursed for these meals. These transfers to other funds were offset by \$327,973 in interest earned in the depository account holding the proceeds from the 2022 School Bonds issuance that were recorded in the Capital Projects but belong in the General Fund. The net effect of the General Fund activity above produced a negative net change in fund balance of \$1,051,738 in the current year. The Capital Project Fund expenditures of \$6,842,111 related to the Referendum Project were offset by the \$1,788,050 transfer from the General Fund as mentioned above, producing a negative net change in fund balance of \$5,054,061 in the current year.

General Fund Budgetary Highlights

Over the course of the year, the District revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. Budget changes/transfers are approved by the Board of Education throughout the year. Although the District's projected budget for the General Fund anticipated that revenues and expenditures would be roughly equal, the actual results for the year show a surplus. Actual revenues reflect a positive variance of \$8.25 million. This is due primarily to the State reimbursement/on behalf payments in the amount of \$7.48 million for TPAF pension, post retirement and social security contributions. This is always a non-budgeted item that the State (and GAAP) requires to be included in the final audited financial statements.

Actual expenditures reflect a negative variance of \$4.59 million even though all budget categories show a positive variance. This again is primarily due to the State requirement to include TPAF pension and post retirement and social security contributions in the audit. When these items are excluded, actual expenditures reflect a positive variance of \$2.89 million.

Exhibit C-1 provides a breakdown of the budget line items included in the District's approved 2023-24 budget and the variances in actual revenues and expenditures. Revenue realization for the 2023-24 school year was positive for governmental activities when compared to the 2022-23 school year. As shown in Table 5 (GAAP Basis), the Tax needed to support the District's budget increased by 3.59% for the 2023-24 school year. The largest non-tax revenue of the District during the year was from State Sources, which amounted to \$9.58 million, 7.00% more than the preceding year. Additionally, the District realized \$138,156 and \$35,992 more on a budgetary basis than anticipated for Extraordinary Aid and Nonpublic Transportation Aid, respectively. Table – 5 compares governmental fund type revenues and expenditures for the current and prior year.

Table – 5

Governmental Fund Type Revenues and Expenditures

						ncrease	Increase
	Year Ended June 30			([Decrease)	(Decrease)	
		2023		2024		<u>\$</u>	<u>%</u>

Unallocated benefits		11,679,352		12,264,435		585,083	5.01%
Debt Service							
Principal		942,000		1,100,000		158,000	16.77%
Interest and Other Charges		295,189		270,538		(24,651)	(8.35%)
Capital Outlay		3,540,238		8,633,279		5,093,041	143.86%
Total	\$	43,667,035	\$	50,653,050	\$	6,986,015	16.00%

The Cost of Governmental Funds Activities (see Table 5, above) this year was \$50.65 million or a 16.00% increase from the preceding year. The primary drivers for this increase were capital outlay costs, which increased by \$5,093,041 as the Referendum Project continues, costs for unallocated employee benefits, which increased by \$585,083, and student services costs, which increased by \$341,455. The remaining increases were a result of increased costs of employee salaries throughout the District, as well as an increase in tuition charges and interest expense. The reported increase in unallocated employee benefits is entirely attributable to an increase in the contributions made by the State of New Jersey into the Teachers' Pension and Annuity Fund and the State Health Benefits Fund on-behalf of the District as required by the state constitution. That increase is also reflected in the year-to-year increase in state aid revenues.

Increased costs were funded by increases in property tax and state aid revenues. As shown on the Statement of Activities (financial statement A-2) our taxpayers ultimately financed \$26.10 million of those activities through property taxes, which reflect a 3.59% increase over the prior year.

As shown above, \$9.58 million of the revenues, which support governmental activities, were received from the State of New Jersey. Of that amount \$7.48 million represents onbehalf contributions for the District's (employer) share of TPAF (Teachers' Pension & Annuity Fund) pension, retiree health benefits and employer social security and Medicare contributions as prescribed by state statute.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2024, the District reported \$49,891,843 invested in a broad range of capital assets, including land, construction in progress, buildings, building improvements, other improvements, vehicles, furniture and equipment. This amount represents a net increase (including additions, trade-ins and retirements) of \$6,148,290 from the prior year. This increase is attributable to an increase to Construction in Progress of \$6,842,111 from the Referendum Project, as well as increases to Land Improvements, Building and Building Improvements, and Equipment totaling \$1,073,899. The increases were netted by disposals of Equipment in the current year totaling \$1,767,720. Table-6 details the composition of capital assets at June 30th of the current and prior year and the net changes for the current year.

Table – 6

Governmental Activity Capital Assets at Year-End

	FY 2023	FY 2024	Increase (Decrease)		
Land	\$ 850,560	\$ 850,560	\$ -

Furniture, Equipment and					
Vehicles	4,931,755	3,945,550	(986,205)		
Total	\$ 43,743,553	\$ 49,891,843	\$ 6,148,290		

Long-Term Debt

At the end of this year, the District had \$7,835,000 in bonds (Type II debt) outstanding versus \$8,935,000 last year – an decrease of 12.31%. This is the result of the District retiring \$1,100,000 of existing bond obligations, while issuing no additional bonds. The summary of year-end long-term debt and changes for the 2023-2024 school year is as follows:

Table – 7

<u>Outstanding Long-Term Debt at Year-End</u>

	Governmen	Increase/		
	2023	2024	(Decrease)	
School Serial Bonds Payable	\$ 8,935,000	\$ 7,835,000	\$ (1,100,000)

Financed Purchase Obligations	2,877,897	2,590,000	(287,897)	
Total	\$ 17,048,843	\$ 15,186,677	\$ (1,862,166)	

FACTORS AFFECTING THE DISTRICT'S FUTURE

The FY 2023-2024 operating budget was framed in static economic conditions that are considered "the new normal". The Northern Highlands Regional High School Board of Education and District administration framed a budget, which reflected consideration of these factors as well as District educational and financial goals. This budget reflects an operating budget local levy increase of 3.59%

In 2010, the District established a Maintenance Reserve account in addition to the previously established Capital Reserve account in order to address both maintenance and capital projects that the District has listed in its Long Range Facility Plan. These reserves will either completely eliminate or significantly reduce any potential local levy, which might otherwise be necessary for the long-term related capital or non-recurrent maintenance needs of the District. Since 2010, the District has supplemented both the Capital Reserve account, Maintenance and Emergency Reserve accounts, and has appropriated, \$8,536,856, including \$3,533,795 in the current year, for capital, maintenance and emergency projects without the need to issue debt instruments or increase property taxes to provide funding. At year end, the Board set aside additional funds in the amount of \$2,000,000 for its Capital, Maintenance, and Emergency reserves at June 30, 2024 for future projects. The District has \$3,570,984 in these reserves as of June 30, 2024. In consideration of the aforementioned reserves, the Northern Highlands Regional High School Board of Education remains financially prudent and proactive in terms of both the maintenance of our facility as well as providing for adequate funding to address these maintenance and capital needs.

CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

Our financial report is designed to provide our citizens, taxpayers, parents, students, investors and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it received. If you have questions about this report or wish to request additional financial information, contact Sue Anne Mather, Business Administrator/Board Secretary, at Northern Highlands Regional High Board of Education, 298 Hillside Avenue, Allendale, New Jersey 07401.

NORTHERN HIGHLANDS REGIONAL HIGH SCHOOL DISTRICT BALANCE SHEET GOVERNMENTAL FUNDS JUNE 30, 2024

Amounts reported for *governmental activities* in the statement of net position (A-1) are different because: Total Fund Balances reported on Governmental Funds Balance Sheet (B-1)

\$ 10,053,281

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. The carrying value of the assets is \$49,891,843 and the accumulated depreciation is \$19,752,530. (Note 3)

30,139,313

Long-term liabilities, including Bonds Payable, Financed Purchase Obligations, and the value of compensated absences earned but unused are not due and payable in the current period and therefore are not reported as liabilities in the funds. (Note 4)

(10,967,838)

Short-term Liabilities, including accrued interest on long-term debt, are not due payable in the current period and therefore are not reported as liabilities in the funds.

(66,423)

The Net Pension Liability, and associated Deferred Inflows and Outflows of Resources of the District relating to its participation in the PERS system are not recognized in the funds using the current financial resources measurement focus, but are recognized in the statement of net position using the economic resources measurement focus.

The carrying amounts of the individual components are as follows:

Deferred Outflows of Resources: Change in Pension Assumptions 9,268 Difference in Pension Experience 40,338 19,428 Difference in Pension Earnings Change in Proportion/Proportionate Share 148,730 Pension Payment Subsequent to Measurement Date 400,620 Accounts Payable for Pension Expense (400.620)Net Pension Liability (4,218,839)Deferred Inflows of Resources: (255,680)Change in Pension Assumptions Change in Pension Proportion (295,865)Difference in Pension Experience (17,245)Net position of governmental activities 24,588,468

NORTHERN HIGHLANDS REGIONAL HIGH SCHOOL DISTRICT RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS

TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2024

Total net change in fund balances - governmental funds (from B-2)

\$ (6,105,722)

Amounts reported for governmental activities in the statement of activities (A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the period.

Depreciation expense \$ (1,649,478) Capital Outlays 7,916,010 Disposals, Net of Depreciation (60,377)

6,206,155

The repayment of the principal of long-term debt, including financed purchase obligations, consumes the current financial resources of governmental funds. This transaction, however, has no effect on net position.

1,387,897

In the statement of activities, interest on long-term debt/financed purchases is accrued, regardless of when due. In the governmental funds, interest is reported when due.

8,805

In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid).

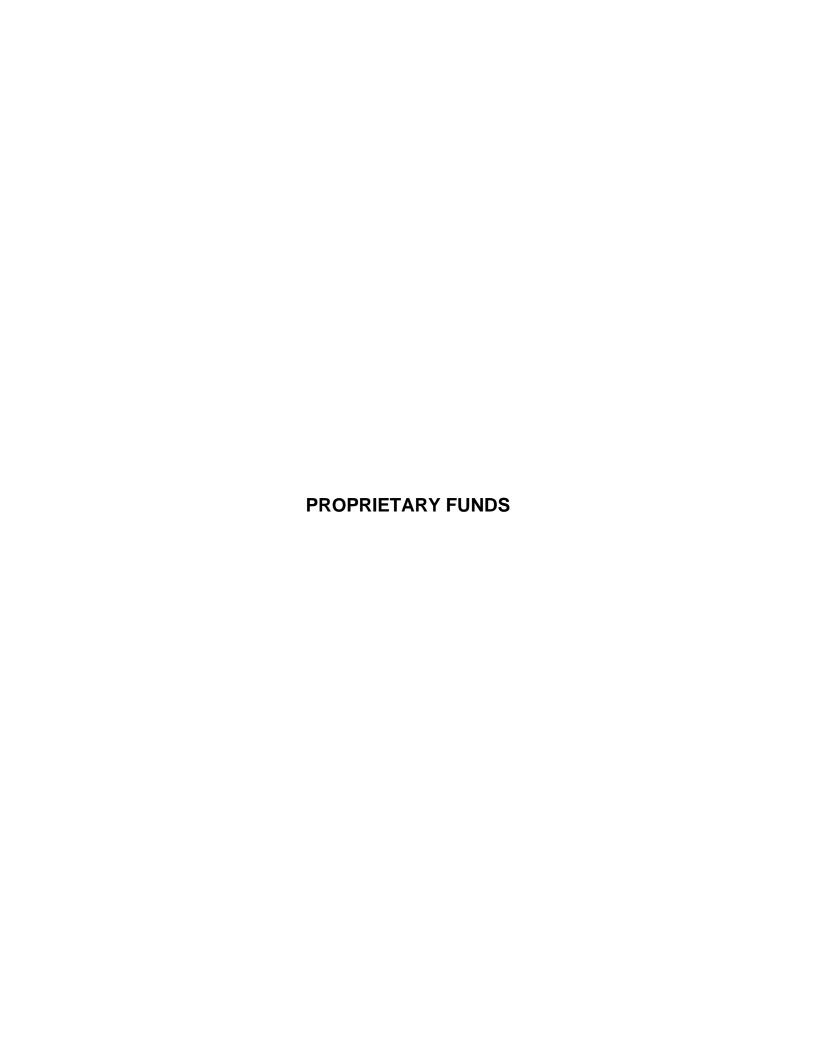

(25,550)

Certain expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds Pension benefit

474,378

Change in net position of governmental activities (A-2)

\$ 1,945,963

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) of the Board of Education (Board) of the Northern Highlands Regional High School District (District) report information on the primary government. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support. The District is not financially accountable for any legally separate component units, and no component units have been included in the government-wide financial statements.

The more significant of the District's accounting policies are described below.

B. Reporting Entity:

The Northern Highlands Regional High School District is an instrumentality of the State of New Jersey, established to function as an educational institution. The District is a Regional Type II district located in the County of Bergen, State of New Jersey. As a Type II district, the School District functions independently through a Board of Education. The board is comprised of ten members, including a member from the Borough of Ho-Ho-Kus, elected to staggered three-year terms. The Board of Education is responsible for the fiscal control of the District. A Superintendent is appointed by the Board and is responsible for the administrative control of the District. The purpose of the district is to educate students in grades 9-12 from the Borough of Allendale and the Borough of Upper Saddle River, the District's constituent members. The District also provides educational services to students in grades 9-12 from the Boroughs of Ho-Ho-Kus and Saddle River pursuant to separate sending/receiving agreements. The Northern Highlands Regional High School District had an average daily enrollment of 1,260 students in grades 9-12 for the 2023-2024 school year.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB <u>Codification of Governmental Accounting and Financial Reporting Standards</u>, is whether:

- > the organization is legally separate (can sue or be sued in their own name)
- > the District holds the corporate powers of the organization
- > the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- > the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District has no component units. Furthermore, the District is not includable in any other reporting entity on the basis of such criteria.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

C. Basis of Presentation – Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds and proprietary funds. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

D. Basis of Presentation - Fund Financial Statements

The fund financial statements provide information about the District's funds. Separate statements for each category – governmental and proprietary– are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, with each displayed in a separate column. Any remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The District reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment which are classified in the Capital Outlay subfund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to fixed assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by Board resolution.

Since the District's unemployment, flexible spending plan, and payroll agency funds do not meet the criteria defined by the Government Accounting Standards Board Statement No. 84, the unemployment compensation fund which is used to account for contributions from the District and employees and interest earned on the balance as well as payments to the State for reimbursement of unemployment claims and the flexible spending plan and the payroll agency fund which is used to account for the assets that the District holds on behalf of others as their agent are reported in the general fund as governmental activities.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

D. Basis of Presentation - Fund Financial Statements (Cont'd.)

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes. The revenue sources reported in the Special Revenue Fund include resources from the United States government, the State of New Jersey and some local organizations. Since the District's scholarship and student activity funds do not meet the criteria defined by Government Accounting Standards Board Statement No. 84, the private purpose scholarship fund which is utilized to provide scholarships to students and to account for the related transactions and student activities which is used to account for funds derived from athletic events or other activities of pupil organizations and to account for the accumulation of money to pay for student group activities are reported in the special revenue fund as governmental activities.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

The District reports the following proprietary funds:

Food Service Fund – The Food Service Enterprise Fund is used to account for the activities of the cafeteria operations of the District. The Food Service Fund is considered a major fund of the District.

Shared Services Fund – The Shared Services Enterprise Fund is used to account for the costs and related contributions for multi-district services for which the Northern Highlands Regional High School District serves as the lead agency. This Fund ended operations as of June 30, 2022.

Interfund Activity - During the course of its normal operations, the District will have activity between funds (interfund activity) for various purposes. Any residual interfund balances at year-end are reported as interfund accounts receivable/payable. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between funds included within governmental activities (the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, any interfund balances between business-type (enterprise) funds are eliminated so that only the net amount is included as internal balances in the business-type activities columns.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied is determined by its measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured, such as current financial resources or economic resources. The basis of accounting refers to the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the fiscal period that the taxes are levied by the municipality(s) within which the District is domiciled. Ad Valorem (Property) Taxes are susceptible to accrual and under New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District recognizes the entire approved tax levy as revenue in the fiscal period for which they were levied. The District is entitled to receive moneys under an established payment schedule and any unpaid amount is considered to be an "accounts receivable". Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. State categorical aid and extraordinary aid revenues are recognized as District revenue during the fiscal period in which they are appropriated by the State of New Jersey.

The governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized when it becomes measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures are generally recorded when a liability is incurred, as under accrual basis accounting.

Exceptions to this general rule include debt service, for which interest and principal expenditures in the Debt Service Fund are recognized on their due dates, and expenditures relating to compensated absences, claims and judgments, which are recorded in the period when payment becomes due. Capital asset acquisitions are recorded as expenditures in the governmental funds and are not capitalized. The issuance of long-term debt for capital purposes and capital lease obligations incurred to acquire general capital assets are reported as "other financing sources".

The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. Entitlements are recorded as revenue when all eligibility requirements, including timing of funding appropriations, are met, subject to the 60-day availability requirement for collection.

Interest and tuition revenues are considered susceptible to accrual and have been recognized as revenues of the current fiscal period, subject to availability. Expenditure driven grant revenues

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

E. Measurement Focus and Basis of Accounting (Cont'd.)

are recorded as qualifying expenditures are incurred and all other eligibility requirements have been met, subject to availability requirements. All other revenue items are considered measurable and available only when cash is received by the District.

The District's proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting.

F. Budgets/Budgetary Control:

Annual budgets are adopted for the general, special revenue and debt service funds using a regulatory basis of accounting which differs from generally accepted accounting principles in one material respect; Budgetary revenues for certain nonexchange state aid transactions are recognized for budgetary purposes in the fiscal period prior to the period in which the state recognizes expenditures/expenses.

The amounts of the adjustments needed to reconcile the budgetary basis to the GAAP based fund financial statements is set forth in the explanation of differences schedules which follow.

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for approval. Pursuant to changes in the Local District School Budget Law, statutorily conforming base budgets of Districts with annual school elections held in November (The District has chosen this option) are no longer required to be presented to the voters for approval on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year. New Jersey statutes place limits on the Board's ability to increase budgeted expenditures through the appropriation of previously undesignated fund balance and requires the District to obtain additional approvals when budgetary transfers, measured using the advertised budgetary account totals rather than line-item totals, exceed certain thresholds or are proposed for transfer from operating line-items to capital outlay line items

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds, there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the certain state aid payments for budgetary purposes only and special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year-end.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D.)

F. Budgets/Budgetary Control (Cont'd):

Appropriations in the general and debt service funds lapse at the end of the fiscal year even if they have related encumbrances. Encumbrances are commitments related to unperformed (executory) contracts for goods and services. Encumbrance accounting is utilized to the extent necessary to assure effective budgetary control and accountability and to facilitate effective cash planning and control. While all appropriations and encumbrances lapse at year-end, valid outstanding encumbrances, for which the contracted performance is expected during the subsequent budget cycle, are legally restricted at year-end and are automatically re-appropriated and become part of the subsequent years' budget pursuant to state regulations.

Except for the student activity and scholarship funds, the accounting records of the special revenue fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial statements.

G. Cash, Cash Equivalents and Investments:

Cash and cash equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value, which are generally based on quoted market prices.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

Additionally, the District has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey.

N.J.S.A. 17:9-41 et. seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. GUDPA was amended, effective July 1, 2010, by P.L. 2009, c. 326.

The amendments provide a greater level of security protection for covered deposits by increasing collateralization requirements and revising the enforcement protocol to allow for timely response in the event that a member bank shows signs of stress.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

G. Cash, Cash Equivalents and Investments (Cont'd):

Under the amended law, collateralization of GUDPA deposits up to 75% of New Jersey capital is based on a sliding scale that requires the minimum of 5% collateral for Well Capitalized institutions to a maximum of 120% collateral for Critically Undercapitalized institutions. All uninsured GUDPA deposits in excess of 75% of New Jersey capital require 100% collateral. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Units.

H. Tuition Revenue

Tuition revenues for the fiscal year 2023-2024 were based on contractual per pupil rates established by and between the sending and receiving districts. These rates are not subject to change except through amendatory contracts.

I. Inventories and Prepaid Expenses:

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as expenditures in the year of purchase.

Inventories in the Proprietary Funds are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. The cost of such inventories is recorded as expenses when consumed rather than when purchased.

Payments made to vendors for services that will benefit periods beyond June 30, 2024 are recorded as prepaid items in both the government-wide and fund financial statements.

J. Short-Term Interfund Receivables/Payables:

Short-term interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

K. Capital Assets:

Capital assets are capitalized at historical cost, or estimated historical cost for assets where actual historical cost is not available. Donated capital assets are valued at their estimated acquisition value on the date of donation. The District maintains a threshold level of \$2,000 or more of initial, individual cost for capitalizing capital assets. The system for accumulation of fixed assets cost data does not provide the means for determining the percentage of assets valued at actual and those valued at estimated costs.

Capital assets are recorded in the District-wide financial statements, but are not reported in the Fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

K. Capital Assets (Cont'd):

Since surplus assets are sold for an immaterial amount when declared as no longer needed for public school purpose by the District, no salvage value is taken into consideration for depreciation purposes. Useful lives vary from 20 to 50 years for land improvements and buildings, and 5 to 15 years for equipment.

Capital assets not being depreciated include land and construction in progress.

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund statement of net position. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Equipment

5-20 Years

L. Compensated Absences:

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued in the government-wide financial statements as the employees earn the rights to the benefits. Compensated absences that related to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place. The School District reports compensated absences in accordance with the provisions of GASB No. 16, "Accounting for Compensated Absences".

In the governmental and similar trust funds, compensated absences that are expected to be liquidated with expendable available financial resources are reported as a fund liability and expenditure in the fund that will pay for the compensated absence. The noncurrent portion for governmental funds is maintained separately and is a reconciling item between the fund and government-wide presentations.

Based upon existing personnel policies and collective bargaining agreements, employees are granted varying amounts of annual sick, personal and vacation leave. Sick leave may be accumulated for use in subsequent years and the right to a termination payment begins to vest with the employee after 10 years of service. Termination payments for unused sick pay are capped at by bargaining unit, with maximum terminal payments ranging from \$8,500 to \$25,000. Accumulations of unused sick leave may be used only for illnesses in subsequent periods. The accumulation of unused vacation pay is limited by the provisions of existing personnel policies and collective bargaining agreements. Unused vacation pay is paid to employees upon separation from service at current daily pay rates. Changes in the value of compensated absences earned and unused is more fully detailed in Note 4 Long Term Liabilities.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

M. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the New Jersey Public Employees' Retirement System (PERS) and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

N. Deferred Outflows/Inflows of Resources:

In addition to assets, the statement of financial position may report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net assets that applies to a future period(s) and will not be recorded as an outflow of resources (expenditure/expense) until that time. The District is reporting one item in this category; The Pension related items including the Change in Pension Assumptions, Difference in Pension Experience, Change in Proportion/Proportionate Share and the amounts of pension payments made by the District subsequent to the pension measurement date.

The pension related deferred outflows represent future outflows of resources resulting from changes in actuarial assumptions used in the valuation of the pension liability, differences between actual and anticipated pension experience, and the change in the District's proportionate share of the net pension obligation of the system. Deferred outflows for Subsequent Pension Payments reflects payments made by the District to the pension system subsequent to the date of the most recent measurement date, which was June 30, 2023.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. This separate financial statement element represents the acquisition of net assets that applies to a future period(s) and will not be recorded as an inflow of resources (revenue) until that time. The District is reporting one item in this category; The Pension related items including the Change in Pension Proportion, the Difference in Pension Earnings, the Difference in Pension Experience and the Change in Pension Assumptions. These items represent the favorable impact of a decline in the District's proportionate share of system wide net pension liability and the favorable impact of changes in actuarial assumptions, and better-than expected investment earnings and pension experience used in the valuation of the pension liability, respectively.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

O. Unearned Revenue:

Unearned revenue in the general and special revenue fund represents cash which has been received but not yet earned, and outstanding encumbrances in the special revenue fund. Unearned revenue in the other enterprise funds represents cash received in advance of the related services being provided.

P. Other Post-Employment Benefits:

Pursuant to State Statute, the State Health Benefits Local Education Retirees Employees' Plan was established to oversee the funding and payment of post-employment medical benefits for eligible LEA employees. This plan is a multi-employer defined benefit OPEB Plan that is administered on a pay-as-you-go basis. No assets are accumulated in a trust that meets the criteria of paragraph 4 of GASB Statement No. 75. The Plan is a "Special Funding Situation" as defined in GASB Statement No. 75 as the State of New Jersey is solely responsible for funding the Plan's obligations (net of employee contributions). Accordingly, no net OPEB liability is reported on the District's Statement of Net Position. In the Statement of Activities, the District reports an annual OPEB expense and a corresponding revenue, equal to the allocated expense of the District as reported by the State.

Q. Net Position Flow Assumption (Government-Wide and Proprietary Fund Financial Statements)

Periodically, the District may fund outlays for a particular purpose from both restricted resources, such as bond referendum proceeds and/or grant proceeds, and unrestricted resources. To determine the amounts of net position- restricted and unrestricted that should be reported in the government-wide and proprietary fund financial statements, a flow assumption must be made to establish the order in which resources are considered to be applied. In the absence of specific grant compliance requirements to the contrary, the District policy is to utilize all amounts of available restricted net position prior to applying unrestricted net position to fund acquisition costs.

R. Fund Balance Flow Assumption (Governmental Fund Financial Statements)

Periodically, the District may fund outlays for a particular purpose from both restricted resources and unrestricted resources (the total of the committed, assigned and unassigned fund balance). To determine the amounts to report as restricted, committed, assigned and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made to establish the order in which resources are considered to be applied.

In the absence of specific grant compliance requirements to the contrary, the District policy is to utilize all amounts of available restricted fund balance prior to applying any component of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance, with unassigned fund balance applied last.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

S. Fund Balance Policies:

Fund balance of the governmental funds is reported in various categories based upon the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through actions to transfer amounts to legally restricted reserve accounts (capital, maintenance and emergency reserves), or actions to commit or assign fund balance.

The committed fund balance includes amounts that can only be used for the specific purposes determined by a formal action of the Board of Education. Commitments of fund balance remain in place until the committed fund balance is fully depleted or an amendatory action is taken by the Board of Education.

Assignments of fund balance are made by the Board of Education for specific purposes that do not the criteria to be classified as committed. The Board of Education also assigns fund balance when it appropriates unrestricted/unassigned fund balance to bridge a gap between estimated revenue and appropriations in the subsequent year budget. Unlike commitments, assignments are generally temporary in nature, and additional actions of the Board are generally not required to remove an assignment, whereas an action of the Board is essential to the modification or elimination of an unexpended committed fund balance.

T. Government-Wide Financial Statement Classifications

- Program Revenues Amounts reported as program revenues include a) charges to customers or applicants who purchase, use or benefit from goods services or privileges provided by a given function or segment and b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.
- General Revenues all taxes, including those designated for specific purposes such as debt service, are reported as general revenues. All other resources, including internally dedicated resources, unrestricted entitlements, and investment income are reported as general revenues.
- Capital Assets In the statement of net position, capital assets are reported, net of accumulated depreciation as assets of the governmental activities and business-type activities.
- 4. Long-term Debt In the statement of net position, long-term debt is reported as a component of long-term liabilities of the governmental activities and business-type activities.
- 5. Net Investment in Capital Assets In the statement of Net Position, the net undepreciated value of capital assets, less the value of outstanding debt issued to purchase acquire or build those capital assets, is reported as Net Investment in Capital assets as a component of net position for the governmental activities and business-type activities.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

U. Proprietary Fund Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and products in connection with the primary purpose or function for which the fund was established. The District's Food Service proprietary fund reports operating revenues from the sales of lunches and a la carte items, and operating expenses include the costs of sales (food, supplies and labor), administrative costs and depreciation on capital assets. Revenues earned through the District's participation in the National School Lunch Program (NSLP) would be classified as nonoperating revenues, notwithstanding the limitations on the pricing of Type A student lunches that is required for program participation. The District does not participate in the National School Lunch Program.

V. Recently Issued Accounting Pronouncements

The GASB issued Statement No. 101, *Compensated Absences* in June 2022. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. The requirements of this Statement are effective for periods beginning after December 15, 2023, and all reporting periods thereafter. Earlier application is encouraged. Management has not determined the impact of the Statement on the financial statements.

The GASB issued Statement No. 102, *Certain Risk Disclosures* in January 2024. The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. The requirements of this Statement are effective for periods beginning after June 15, 2024, and all reporting periods thereafter. Management has not determined the impact of the Statement on the financial statements.

The GASB issued Statement No. 103, *Financial Reporting Model Improvements* in April 2024. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. The requirements of this Statement are effective for periods beginning after June 15, 2025, and all reporting periods thereafter. Management has not determined the impact of the Statement on the financial statements.

The GASB issued Statement No. 104, *Disclosure of Certain Capital Assets* in September 2024. The objective of this Statement is to provide users of government financial statements with essential information about certain types of capital assets including lease assets, intangible right-to-use assets, subscription assets, other intangible assets and assets held for sale. The requirements of this Statement are effective for periods beginning after June 15, 2025, and all reporting periods thereafter. Management has not determined the impact of the Statement on the financial statements.

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

W. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

X. Subsequent Events

Management has reviewed and evaluated all events and transactions from June 30, 2024 through January 13, 2025, the date that the financial statements were available for issuance, for possible disclosure and recognition in the accompanying financial statements, and no items have come to the attention of the District which would require disclosure or recognition.

NOTE 2. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Operating cash accounts are held in the District's name by one institution. At June 30, 2024 the carrying amount of the District's cash and cash equivalents was \$10,987,305.

The District had the following depository accounts. All deposits are carried at cost plus accrued interest. The government does not have a deposit policy.

Depository Account	Bank Balance
Insured - FDIC Insured – NJGUDPA (N.J.S.A.17:9-41) Un-insured	\$ 250,000 11,800,515 50,265
Total Deposits	\$ 12,100,780

Custodial Credit Risk – Deposits - Custodial credit risk is the risk that in the event of a bank failure, the board's deposits may not be returned to it. (See Note 1-G. relating to statutory mitigation of custodial risk in the event of a bank failure).

NOTE 2. CASH AND CASH EQUIVALENTS AND INVESTMENTS (CONT'D)

Pursuant to GASB Statement No. 40, "Deposit and Investment Risk Disclosures" ("GASB 40"), the District's operating cash accounts are profiled in order to determine exposure, if any, to Custodial Credit Risk (risk that in the event of failure of the counterparty the District would not be able to recover the value of its deposits and investments). Deposits are considered to be exposed to Custodial Credit Risk if they are: uncollateralized (securities not pledged to the depositor), collateralized with securities held by the pledging financial institution, or collateralized with securities held by the financial institution's trust department or agent but not in the government's name.

The District does not have a policy for the management of custodial credit risk, other than depositing all of its funds in banks covered by GUDPA. At least five percent of the District's deposits were fully collateralized by funds held by the financial institution, but not in the name of the District. Due to the nature of GUDPA, further information is not available regarding the full amount that is collateralized.

NOTE 3. CAPITAL ASSETS AND DEPRECIATION

The governmental fund balance sheet includes a reconciliation between fund balance- total governmental funds and net positioned-governmental activities as reported in the District-wide statement of net position. One item of that reconciliation explains that capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. An addition to the fund balance - total governmental funds is made to reflect the carrying value of the District's capital assets at year-end in the District-wide financial statements, which consisted of:

Total capital assets at cost	\$ 49,891,843.00
Less: accumulated depreciation	 (19,752,530.00)
Governmental Activities Capital Assets, Net	\$ 30,139,313.00

NOTE 3. CAPITAL ASSETS AND DEPRECIATION (CONT'D)

Capital asset activity for the year ended June 30, 2024 was as follows:

		Beginning <u>Balance</u>		<u>Additions</u>		<u>Deletions</u>		Ending <u>Balance</u>
Governmental Activities:								
Capital Assets That Are Not Being Depreciated:								
Land	\$	850,560	\$		\$		\$	850,560
Construction in Progress	_	1,435,197		6,842,111	_		_	8,277,308
Total Capital Assets Not Being Depreciated	_	2,285,757		6,842,111		-	_	9,127,868
Land Improvements		4,174,499		205,062				4,379,561
Building and Building Improvements		32,351,542		87,322				32,438,864
Machinery, Equipment, Furniture & Vehicles	_	4,931,755	_	781,515	_	1,767,720	_	3,945,550
Totals at Historical Cost	_	41,457,796		1,073,899	_	1,767,720	_	40,763,975
Less Accumulated Depreciation For:								
Land Improvements		(1,547,977)		(354,659)				(1,902,636)
Building and Building Improvements		(14,231,593)		(963,344)				(15,194,937)
Machinery, Equipment, Furniture & Vehicles	_	(4,030,825)	_	(331,475)	_	1,707,343	_	(2,654,957)

Business-type Activities Capital Assets, Net	\$_	311,245	\$	5,767	\$_	-	\$_	317,012

^{*} Depreciation expense was charged to governmental functions as follows:

Instruction	\$ 103,512
Student & Instr. Related services	95,023
General Administrative Servicdes	500
School Administrative Services	21,821
Plant Operations & Maintenance	60,877
Pupil Transportation	49,742
Unallocated	1,318,003
Total deprecation expense	\$ 1,649,478

NOTE 4. LONG-TERM LIABILITIES

The governmental fund balance sheet includes a reconciliation between fund balance- total governmental funds and net position governmental activities as reported in the District-wide statement of net position. One item of that reconciliation explains that long-term liabilities, including bonds and judgments payable, are not due and payable in the current period and therefore are not reported liabilities in the governmental funds. A deduction to the fund balance - total governmental funds is made to reflect the carrying value of the District's long-term liabilities at year-end in the governmental activities of the District-wide financial statements.

Long-term debt liability activity for the year ended June 30, 2024 was as follows:

Course on to Lastinities	Beginning Balance	<u>Additions</u>	Reductions	Ending Balance	Amounts Due Within One Year
Governmental Activities:					
Bonds Payable:					
General Obligation Debt	\$ 8,935,000 \$	\$	1,100,000 \$	7,835,000 \$	955,000
Total Bonds Payable	8,935,000		1,100,000	7,835,000	955,000
Other Liabilities: Financed Purchase Obligations Compensated Absences Payable	2,877,897 517,288	40,977	287,897 15,427	2,590,000 542,838	234,000 54,284
Total Other Liabilities	3,395,185	40,977	303,324	3,132,838	288,284
Subtotal Bonds and Other Liabilities	12,330,185	40,977	1,403,324	10,967,838	1,243,284
Net Pension Liability (PERS)	4,718,658		499,819	4,218,839	
Total Liabilities	\$ 17,048,843 \$	40,977 \$	1,903,143	15,186,677 \$	1,243,284

The District expects to liquidate the compensated absences, financed purchase obligations and net pension liabilities with payments made from the District's general fund and the bonds payable from the debt service fund.

NOTE 4. LONG-TERM LIABILITIES (CONT'D.)

A. Bonds Payable -- Bonds are authorized in accordance with State law by the voters of the District through referendums that authorize capital project appropriations and the financing of same. Should changing economic conditions permit, the District may seek the approval of the Local Finance Board, Department of Community Affairs (the "LFB"), to issue general improvement refunding bonds to redeem or defease previously issued bonds. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the District are general obligation bonds.

- a.) 2013 School Bonds, originally issued December 10, 2013 in the amount of \$2,760,000. The outstanding balance of this issue at June 30, 2024 was \$360,000, which is payable in an annual installment due November 15, 2024 at an interest rate of 3.000%.
- b.) 2022 School Bonds, originally issued May 4, 2022 in the amount of \$8,827,000. The outstanding balance of this issue at June 30, 2024 was \$7,475,000, which is payable in annual installments due through May 1, 2037 at interest rates ranging from 3.000% to 3.250%.

Principal and interest due on bonds outstanding as at June 30, 2024 is as follows:

Year Ending							
June 30,	Principal	ncipal Interest			Total		
2025	\$ 955,000	\$;	237,388	\$	1,192,388	
2026	495,000			214,138		709,138	
2027	510,000			199,288		709,288	
2028	520,000			183,988		703,988	
2029	535,000			168,388		703,388	
2030-2034	2,900,000			587,875		3,487,875	
2035-2037	1,920,000			125,775		2,045,775	
	\$ 7,835,000	\$;	1,716,838	\$	9,551,838	

B. Bonds Authorized But Not Issued -- As of June 30, 2024, the District had no authorized but not issued bonds.

NOTE 4. LONG-TERM LIABILITIES (CONT'D.)

C. Other Authorized Debt for Financed Purchases

During the 2016-17 fiscal year, the District entered into a Financed Purchase Agreement for an Energy Savings Improvement Program for the amount of \$4,031,000. A summary of the Financed Purchase Agreement in effect during the current fiscal year and year-end status is as follows:

Purpose	Date of Lease	Amount of Issue	Balance End of Year	Interest Rate	Final Payment
Energy Savings Improvement Program	12/22/2016	\$ 4,031,000	\$ 2,590,000	2.42%	7/22/2032
Total:		<u>\$ 4,031,000</u>	\$ 2,590,000		

Principal and interest due on financed purchase obligations outstanding as at June 30, 2024 is as follows:

Year Ending June 30,	F	<u>Principal</u>		Interest		Total	
2025	\$	234,000		\$	61,248	\$	295,248
2026		246,000			55,505		301,505
2027		259,000			49,460		308,460
2028		272,000			43,125		315,125
2029		286,000			36,475		322,475
2030-2033		1,293,000			70,133		1,363,133
	\$	2,590,000		\$	315,946	\$	2,905,946

NOTE 5. PENSION PLANS

Description of Systems

Substantially all of the District's employees participate in one of the following contributory defined benefit public employee retirement systems which have been established by State statute: the Teachers' Pension and Annuity Fund (TPAF) or the Public Employees' Retirement System (PERS). These systems are sponsored and administered by the State of New Jersey. The Teachers' Pension and Annuity Fund Retirement System is considered a cost-sharing multiple-employer plan, with a special funding situation, as under current statute, all employer contributions

NOTE 5. PENSION PLANS (CONT'D.)

are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. The Public Employees' Retirement System is considered a cost-sharing multiple-employer plan. District employees employed by the Enterprise Funds are not eligible for pension benefits. Employees in the Food Service Enterprise Fund are employees of the Food Service Management Company and therefore not eligible for pension benefits. Employees of the remaining Enterprise Funds are either part-time or stipend employees and are therefore not eligible for pension benefits.

Teachers' Pension and Annuity Fund

The Teachers' Pension and Annuity Fund was established in January 1955 under the provisions of N.J.S.A. 18A:66 to provide coverage including post-retirement health care to substantially all full time public school employees in the State. Membership is mandatory for such employees and vesting occurs after 10 years of service for pension benefits and 25 years for health care coverage. Age eligibility and benefit provisions were affected by Chapters 92 and 103, P.L. 2007, Chapter 89, P.L. 2008, Chapter 1, P.L. 2010, and Chapter 78, P.L. 2011. Members are classified into one of five tiers dependent upon the date of their enrollment. Tier 1, 2 and 3 members are eligible to retire at age 60, 60, and 62, respectively with an annual benefit generally determined to be 1/55th of the average annual compensation for the highest three fiscal years' compensation for each year of membership during years of credited service. Tier 4 and 5 members are eligible to retire at age 62 and 65, respectively, with an annual benefit generally determined to be 1/60th of the average annual compensation for the highest five fiscal years' compensation for each year of membership during years of credited service. Anyone who retires early and is under their respective tier's retirement age receives retirement benefits as calculated in the above mentioned formulas but at a reduced rate in accordance with applicable New Jersey Statute based upon their tier.

Public Employees' Retirement System

The Public Employees' Retirement System (PERS) was established in January 1955 and the contribution policy is set by the provisions of N.J.S.A. 43:15A to provide coverage including post-retirement health care to substantially all full-time employees of the State of New Jersey or any county, municipality, school Board or public agency, provided the employee is not a member of another State-administered retirement system or other state pension fund or local jurisdiction's pension fund. Pursuant to the provisions of P.L. 2022, C.78, the member contribution rate was 7.5% in State fiscal year 2023.

Members are classified into one of five tiers dependent upon the date of their enrollment. Service retirement benefits of 1/55th of final average salary for each year of service credit is available to Tier 1 and 2 members upon reaching the age of 60 and to tier 3 members upon reaching age 62. Service retirement benefits of 1/60th of final average salary for each year of service credit is available to Tier 4 members upon reaching the age of 62 and Tier 5 members upon reaching the age of 65. Early retirement benefits are available to Tier 1 and 2 members with 25 years or more of service credit before reaching age 60, Tier 3 and 4 members with 25 years or more of service credit before age 62 and Tier 5 with 30 years or more of service credit before age 65. Benefits are reduced by a fraction of a percent each month that a member retires prior to the age at which a member can receive full early retirement benefits in accordance with their respective tier.

NOTE 5. PENSION PLANS (CONT'D.)

Deferred retirement is available to members who have at least 10 years of service credit and have not reached the service retirement age for the respective tier.

The State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, issued publicly available financial reports that include the financial statements and required supplementary information for TPAF and PERS. The financial reports may be obtained by writing to the State of New Jersey, Department of the Treasury, Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey 08625-0295.

Funding Policy

The contribution policy is set by New Jersey State Statutes and contributions are required by active members and contributing members. Plan member and employer contributions may be amended by State of New Jersey legislation. Employee contribution rates for TPAF and PERS are 7.5% of employees' pensionable compensation. Employers are required to contribute at an actuarially determined rate in both the TPAF and PERS. The actuarially determined contribution includes funding for noncontributory death benefits and post-retirement medical premiums. Under current statute the District is a non-contributing employer of the TPAF.

During the year ended June 30, 2024, the State of New Jersey contributed \$6,439,748 to the TPAF for on-behalf pension and post-retirement medical benefits on behalf of the District. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$1,043,593 during the year ended June 30, 2024 for the employer's share of social security contributions for TPAF members as calculated on their base salaries.

The District's actuarially determined contributions to PERS for each of the years ended June 30, 2024, 2023 and 2022 were \$389,289, \$394,295, and \$352,026, respectively.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For the purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

Public Employees' Retirement System (PERS)

At June 30, 2024, the District reported a liability of \$4,218,839 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation July 1, 2022, which was rolled forward to June 30, 2023. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the

NOTE 5. PENSION PLANS (CONT'D.)

pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2023, the District's proportion was 0.0291268283 percent, which was an decrease of .002140419 percent from its proportion measured as of June 30, 2022.

For the year ended June 30, 2024, the District recognized full accrual pension benefit of \$(85,089) in the government-wide financial statements. At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

	Deferred Outflows		Deferred		
			Inflows		
	of R	Resources	of Resources		
Changes of assumptions	\$	9,268	\$	255,680	
Net difference between projected and actual					
earnings on pension plan investments		19,428			
Changes in proportion		148,730		295,865	
Difference between expected and actual					
experience		40,338		17,245	
District contributions subsequent to the					
measurement date		400,620			
	\$	618,384	\$	568,790	

\$400,620 is reported as deferred outflows of resources related to pensions resulting from school district contributions subsequent to the measurement date. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2025	\$ (257,783)
2026	(147,788)
2027	155,694
2028	(96,552)
2029	(4,597)
Total	\$ (351,026)

NOTE 5. PENSION PLANS (CONT'D.)

Actuarial Assumptions

The collective total pension liability for the June 30, 2023 measurement date was determined by an actuarial valuation as of July 1, 2022, which was rolled forward to June 30, 2023. This actuarial valuation used the following actuarial assumptions:

Inflation rate:

Price 2.75% Wage 3.25%

Salary increases: 2.75 - 6.55%

based on years of service

Investment rate of return 7.00%

The actuarial assumptions used in the July 1, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2018 to June 30, 2021.

Mortality Rates

Pre-retirement mortality rates were based on the Pub-2010 General Below-Median Income Employee mortality table with an 82.2% adjustment for males and 101.4% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 General Below-Median Income Healthy Retiree mortality table with a 91.4% adjustment for males and 99.7% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability retirement rates used to value disabled retirees were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 127.7% adjustment for males and 117.2% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2022.

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2023) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding

NOTE 5. PENSION PLANS (CONT'D.)

expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2023 are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	<u>Allocation</u>	Rate of Return
U.S. Equity	28.00%	8.98%
Non-U.S. Developed Market Equity	12.75%	9.22%
International Small Cap Equity	1.25%	9.22%
Emerging Market Equity	5.50%	11.13%
Private Equity	13.00%	12.50%
Real Estate	8.00%	8.58%
Real Assets	3.00%	8.40%
High Yield	4.50%	6.97%
Private Credit	8.00%	9.20%
Investment Grade Credit	7.00%	5.19%
Cash Equivalents	2.00%	3.31%
U.S. Treasuries	4.00%	3.31%
Risk Mitigation Strategies	3.00%	6.21%
	100.00%	

Discount rate

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2023. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the nonemployer contributing entity will be based on 100% of the actuarially determined contributions for the State employer and 100% of actuarially determined contributions for the local employers. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments to determine the total pension liability.

NOTE 5. PENSION PLAN (CONT'D.)

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate

The following presents the District's proportionate share of the net pension liability as of June 30, 2023, calculated using the discount rate as disclosed above as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

		At 1%		At Current		At 1%	
	Decrease (6.00%)		Discount Rate (7.00%)		Increase (8.00%)		
District's proportionate share of							
the net pension liability	\$	5,492,030	\$	4,218,839	\$	3,135,184	

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued financial report for the State of New Jersey Public Employees Retirement System.

Additional Information

Collective balances of the Local Group at June 30, 2023 are as follows:

Deferred outflows of resources	\$ 1,080,204,730
Deferred inflows of resources	1,780,216,457
Net pension liability	14,606,489,066
District's proportion	0.0291268283%

Collective pension benefit for the Local Group for the measurement period ended June 30, 2023 is \$79,181,803.

The average of the expected remaining service lives of all employees that are provided with pension through the pension plan (active and inactive employees) determined at July 1, 2023, 2022, 2021, 2020, 2019, 2018, and 2017 is 5.08, 5.04, 5.13, 5.16, 5.21, 5.63, and 5.48 years, respectively.

Special Funding Situation

A special funding situation exists for certain Local employers of the PERS. The State of New Jersey, a non-employer, is required to pay the additional costs incurred by local employers under Chapter 366, P.L. 2001 and Chapter 133, P.L. 2001. The June 30, 2023 State special funding situation net pension liability amount of \$122.1 million is the accumulated difference between the annual actuarially determined State obligation under the special funding situation and the actual State contribution through the valuation date. The special funding situation for Chapter 133, P.L.

NOTE 5. PENSION PLAN (CONT'D.)

2001 is due to the State paying the additional normal cost related to benefit improvements from Chapter 133. Previously, this additional normal cost was paid from the Benefit Enhancement Fund (BEF). AS of June 30, 2023, there was no net pension liability associated with this special funding situation there was no accumulated difference between the annual additional normal cost under the special funding situation and the actual State contribution through the valuation date. The State special funding situation pension expense of \$55.7 million, for the fiscal year ending June 30, 2023, is the actuarially determined contribution amount that the State owes for the fiscal year ending June 30, 2023. The pension expense is deemed to be a State administrative expense due to the special funding situation

The District's expense related to the special funding situation is \$13,157.

Teachers Pensions and Annuity Fund (TPAF) – Special Funding Situation

The employer contributions for local participating employers are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, these local participating employers are considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the local participating employers. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the net pension liability that is associated with the local participating employer. The State's proportionate share of the TPAF net pension liability associated with the District as of June 30, 2023 was \$61,803,642 The District's proportionate share was \$0.

The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2022, which was rolled forward to June 30, 2023. The State's proportionate share of the net pension liability associated with the District was based on a projection of the State's long-term contributions to the pension plan associated with the District relative to the projected contributions by the State associated with all participating school districts, actuarially determined. At June 30, 2023, the State's proportionate share of the TPAF net pension liability associated with the District was 0.1211060330 percent, which was an increase of 0.0019499761 percent from its proportion measured as of June 30, 2022.

For the year ended June 30, 2024, the District recognized on-behalf pension benefit and revenue in the government-wide financial statements of \$1,518,336 for contributions incurred by the State.

NOTE 5. PENSION PLANS (CONT'D.)

Actuarial assumptions

The actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

Inflation rate:

Price 2.75% Wage 3.25%

Salary increases: 2.75 - 4.25%

based on years of service

Investment rate of return 7.00%

Mortality Rates

Pre-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Employee mortality table with a 93.9% adjustment for males and 85.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Post-retirement mortality rates were based on the Pub-2010 Teachers Above-Median Income Healthy Retiree mortality table with a 114.7% adjustment for males and 99.6% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Disability mortality rates were based on the Pub-2010 Non-Safety Disabled Retiree mortality table with a 106.3% adjustment for males and 100.3% adjustment for females, and with future improvement from the base year of 2010 on a generational basis. Mortality improvement is based on Scale MP-2022.

The actuarial assumptions used in the July 1, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2018 to June 30, 2021.

NOTE 5. PENSION PLANS (CONT'D.)

Long-Term Expected Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2023) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TPAF's target asset allocation as of June 30, 2023 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
U.S. Equity	28.00%	8.98%
Non-U.S. Developed Market Equity	12.75%	9.22%
International Small Cap Equity	1.25%	9.22%
Emerging Market Equity	5.50%	11.13%
Private Equity	13.00%	12.50%
Real Estate	8.00%	8.58%
Real Assets	3.00%	8.40%
High Yield	4.50%	6.97%
Private Credit	8.00%	9.20%
Investment Grade Credit	7.00%	5.19%
Cash Equivalents	2.00%	3.31%
U.S. Treasuries	4.00%	3.31%
Risk Mitigation Strategies	3.00%	6.21%
	100.00%	

Discount Rate

The discount rate used to measure the total pension liability was 7.00% as of June 30, 2023. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on 100% of the actuarially determined contributions for the State. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all projected benefit payments determining the total pension liability.

NOTE 5. PENSION PLANS (CONT'D.)

Sensitivity of the State's proportionate share of the net pension liability associated with the District to changes in the discount rate

The following presents the State's proportionate share of the net pension liability associated with the District as of June 30, 2023 calculated using the discount rate as disclosed above as well as what the State's proportionate share of the net pension liability associated with the District would be if it were calculated using a discount rate that is 1-percentage point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	At 1%	1	At Current	At 1%
State's proportionate share of	 Decrease (6.00%)	Di	scount Rate (7.00%)	Increase (8.00%)
the net pension liability associated with the District	\$ 72,877,709	\$	61,803,642	\$ 52,476,645

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued TPAF financial report.

Additional Information

Collective balances of the Local Group at June 30, 2023 are as follows:

Deferred outflows of resources	\$ 2,498,730,891
Deferred inflows of resources	14,719,080,314
Net pension liability	51,032,669,551
District's proportion	0.1211060330%

Collective pension expense of the Local Group for the plan for the measurement period ended June 30, 2023 is \$1,292,291,943.

The average of the expected remaining service lives of all employees that are provided with pension through the pension plan (active and inactive employees) determined at July 1, 2023, 2022, 2021, 2020, 2019, 2018, 2017, 2016, and 2015 is 7.93, 7.83, 7.93, 8.04, 8.29, 8.30, 8.30 and 8.30, years, respectively.

NOTE 5. PENSION PLANS (CONT'D)

C: DEFINED CONTRIBUTION RETIREMENT PLAN

The Defined Contribution Retirement Plan (DCRP) is a multiple employer defined contribution plan as defined in GASB Statement No. 68. The Plan is administered by The New Jersey Division of Pensions and Benefits (Division). The more significant aspects of the DCRP are as follows:

Plan Membership and Contributing Employers- Enrollment in the DCRP is required for state or local officials, elected or appointed on or after July 1, 2007; employees enrolled in TPAF or PERS on or after July 1, 2007, who earn salary in excess of established "maximum compensation" limits; employees otherwise eligible to enroll in TPAF or PERS on or after November 2, 2008, who do not earn the minimum annual salary for tier 3 enrollment but who earn salary of at least \$5,000 annually; and employees otherwise eligible to enroll in TPAF or PERS after May 21, 2010, who do not work the minimum number of hours per week required for tier 4 or tier 5 enrollment, but who earn salary of at least \$5,000 annually.

Contribution Requirement and Benefit Provisions - State and local government employers contribute 3% of the employee's base salary. Active members contribute 5.5% of base salary. Eligible members are provided with a defined contribution retirement plan intended to qualify for favorable Federal income tax treatment under IRC Section 401(a), a noncontributory group life insurance plan and a noncontributory group disability benefit plan. A participant's interest in that portion of his or her defined contribution retirement plan account attributable to employee contributions shall immediately become and shall at all times remain fully vested and nonforfeitable. A participant's interest in that portion of his or her defined contribution retirement plan account attributable to employer contributions shall be vested and nonforfeitable on the date the participant commences the second year of employment or upon his or her attainment of age 65, while employed by an employer, whichever occurs first.

For the year ended June 30, 2024, the District's total DCRP covered payroll was \$466,588. Covered payroll refers to all compensation paid by the District to active employees covered by the Plan. District and employee contributions to the DCRP for the year ended June 30, 2023 were \$13,998 and \$25,662, respectively.

NOTE 6. POST-RETIREMENT BENEFITS

General Information about the OPEB Plan

State Health Benefit State Retired Employees Plan:

For Pension and Other Postemployment Benefits (OPEB) Obligations in Fiscal Year 2022 the State funded the various defined benefit pension systems at 108 percent of the full actuarially determined contributions. Employer contributions to the pension plans are calculated per the requirements of the governing State statutes using generally accepted actuarial procedures and practices. The actuarial funding method used to determine the State's contribution is a matter of State law. Any change to the funding method requires the approval of the State Legislature and the Governor. The amount the State actually contributes to the pension plans may differ from the actuarially determined contributions of the pension plans because the State's contribution to the

NOTE 6. POST-RETIREMENT BENEFITS (CONT'D.)

pension plans is subject to the appropriation of the State Legislature and actions by the Governor. GASB Statement No. 68, Accounting and Financial Reporting for Pensions, requires participating employers to recognize their proportionate share of the collective net pension liability. Under the new statement, the calculation of the pension liability was changed to a more conservative methodology and each employer was allocated a proportional share of the pension plans' net pension liability.

The State's share of the net pension liability, based on a measurement date of June 30, 2022, which is required to be recorded on the financial statements, is \$75.1 billion. The Fiscal Year 2023 projected aggregate State contribution to the pension plans of \$6.8 billion represents 104 percent of the actuarially determined contribution. The State provides post-retirement medical (PRM) benefits for certain State and other retired employees meeting the service credit eligibility requirements. In Fiscal Year 2022, the State paid PRM benefits for 161,238 State and local retirees. The State funds the post-retirement medical benefits on a "pay-as-you-go" basis, which means that the State does not pre-fund, or otherwise establish a reserve or other pool of assets against the PRM expenses that the State may incur in future years. For Fiscal Year 2022, the State contributed \$1.9 billion to pay for "pay-as-you-go" PRM benefit costs incurred by covered populations, a slight increase from \$1.8 billion in Fiscal Year 2021. The State has appropriated \$2.1 billion in Fiscal Year 2023 as the State's contribution to fund increases in prescription drugs and medical claims costs.

In accordance with the provisions of GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, the State is required to quantify and disclose its obligations to pay Other Postemployment Benefits (OPEB) to retired plan members. This new standard supersedes the previously issued guidance, GASB Statement No. 45, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions, effective for Fiscal Year 2018. The State is now required to accrue a liability in all instances where statutory language names the State as the legal obligor for benefit payments. The Fiscal Year 2022 State OPEB liability to provide these benefits is \$88.9 billion, a decrease of \$12.7 billion, or 12.5 percent from the \$101.6 billion liability recorded in Fiscal Year 2021. Additional information on Pensions and OPEB can be accessed on the Division of Pensions & Benefits Financial Reports webpage: https://www.state.nj.us/treasury/pensions/financial-reports.shtml.

Total OPEB Liability

The Nonemployer OPEB liability from the State of New Jersey's plan is \$52,361,668,239.

NOTE 6. POST-RETIREMENT BENEFITS (CONT'D.)

Changes in Total Non-employer OPEB Liability

Below represents the changes in the District's total OPEB liability for the year ended June 30, 2023:

Balance at June 30, 2023	\$ 44,233,490
Increased by:	
Service cost	2,004,612
Interest cost	1,611,477
Changes of assumptions	92,226
Member contributions	 41,296
	47,983,101
Decreased by:	
Differences between expected	
and actual experience	970,747
Benefit payments	1,256,172
	2,226,919
Balance at June 30, 2024	\$ 45,756,182

The State's proportionate share of deferred outflow of resources and deferred inflow of resources associated with the District at June 30, 2023 was \$14,323,819 and \$25,131,422, respectively.

Employees covered by benefit terms

The following employees were covered by the benefit terms:

Local Education	June 30, 2023
Active Plan Members	217,212
Inactive Plan Members or Beneficiaries Currently Receiving Benefits	152,383
Total Plan Members	369,595

The State, a non-employer contributing entity, is the only entity that has a legal obligation to make employer contributions to OPEB for qualified retired PERS and TPAF participants. The District's proportionate share percentage determined under paragraphs 193 and 203 through 205 of GASBS No. 75 is zero percent. Accordingly, the District did not recognize any portion of the collective total OPEB liability on the Statement of Net Position. The State's proportionate share of the total OPEB liability associated with the District as of June 30, 2023 was \$45,756,182. Additional information can be obtained from the State of New Jersey's annual comprehensive financial report.

NOTE 6. POST-RETIREMENT BENEFITS (CONT'D.)

Actuarial assumptions and other inputs

The total non-employer OPEB liability as of June 30, 2023 was determined by an actuarial valuation as of June 30, 2022, which was rolled forward to June 30, 2023. The actuarial valuation used the following actuarial assumptions, applied to all periods included in the measurement:

	TPAF	PERS
Salary Increases:	2.75 - 4.25%	2.75 - 6.55%
	based on years of service	based on years of service

Mortality Rates

Preretirement mortality rates were based on the Pub-2010 Healthy "Teachers" (TPAF/ABP) and "General" (PERS) classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Postretirement mortality rates were based on the Pub-2010 "General" classification headcount-weighted mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021. Disability mortality was based on the Pub-2010 "General" classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021 for current disabled retirees. Future disabled retirees was based on the Pub-2010 "General" (PERS) and "Teachers" (TPAF/ABP) classification headcount-weighted disabled mortality table with fully generational mortality improvement projections from the central year using Scale MP-2021.

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of the actual experience studies for the periods July 1, 2018 to June 30, 2021. 100% of active members are considered to participate in the Plan upon retirement.

Discount Rate

The discount rate fused to measure the total OPEB liability for June 30, 2023 was 3.65%. This represents the municipal bond return rate as chosen by the Division. The source is the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. As the long-term rate of return is less than the municipal bond rate, it is not considered in the calculation of the discount rate, rather the discount rate is set at the municipal bond rate.

Health Care Trend Assumptions

For pre-Medicare medical benefits, the trend rate is initially 6.50% and decreases to a 4.50% long-term trend rate after eight years. For post-65 medical benefits PPO, the trend is increasing to 13.80% in fiscal year 2026 and decreases to 4.50% in fiscal year 2033. For HMO, the trend is initially -3.54% in fiscal year 2023, increasing to 17.40% in fiscal year 2026 and decreases to 4.50% in fiscal year 2033. For prescription drug benefits, the initial trend rate is 8.00% and

NOTE 6. POST-RETIREMENT BENEFITS (CONT'D.)

rate is 8.00% and decreases to a 4.50% long-term trend rate after seven years. For the Medicare Part B reimbursement, the trend rate is 5.00%.

The following represents sensitivity of total non-employer OPEB liability to changes in the discount rate and health care cost rate

The following presents the total non-employer OPEB liability associated with the District as of June 30, 2023 calculated using a discount rate as disclosed above as well as what the total non-employer OPEB liability would be if it was calculated using a discount rate that is 1-percentage-point lower (2.65%) or 1-percentage-point higher (4.65%) than the current rate:

			A	At Current		
	1	% Decrease	Di	scount Rate	1	% Increase
		(2.65%) (3.65%)		(4.65%)		
Net OPEB Liability (Allocable to	'	_				
the District and the	\$	53,641,268	\$	45,756,182	\$	39,425,373
responsibility of the State)						

The following presents the total non-employer OPEB liability associated with the District as of June 30, 2023 calculated using a healthcare cost trend rate as disclosed above as well as what the total non-employer OPEB liability would be if it was calculated using a healthcare trend rate that is 1-percentage-point lower or 1-percentage-point higher than the current healthcare cost trend rate:

	19	% Decrease	Ithcare Cost rend Rates	1	% Increase
Net OPEB Liability (Allocable to the District and the responsibility of the State)	\$	37,984,671	\$ 45,756,182	\$	55,925,184

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2024, the District recognized on-behalf OPEB expense and revenue in the government-wide financial statements of \$1,515,729 for OPEB expenses incurred by the State.

NOTE 6. POST-RETIREMENT BENEFITS (CONT'D.)

Collective balances of the Education Group at June 30, 2023 are as follows:

Deferred outflows of resources \$ 17,347,811,894 Deferred inflows of resources \$ 30,503,688,706 Collective OPEB expense \$ 1,369,124,126

District's Proportion 0.09%

Special Funding Situation

The employer contributions for local participating employers are legally required to be funded by the State, therefore, the District records an expense and corresponding revenue for its respective share of total OPEB expense and revenue attributable to the State of New Jersey.

NOTE 7. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance - The District, along with other school districts, is a member of the Northeast Bergen County School Board Insurance group (NESBIG), a governmental joint insurance fund. NESBIG has adopted a formal risk management plan that involves a combination of District risk retention (through the use of per claim and aggregate per line deductibles), Fund retention of risk and the procurement of excess insurance and reinsurance through commercial reinsurers and the School Excess Liability Fund. A complete listing of the coverages provided by the Fund can be found in the statistical section of the Annual Comprehensive Financial Report. Audited financial information for the Fund relating to the level of claims reserves, estimated amounts of claims incurred but not reported and net assets were not available for inclusion in this report.

Surety bond coverage for the School Business Administrator and Treasurer of School Moneys is provided by commercial insurance companies.

New Jersey Unemployment Compensation Insurance - The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State.

NOTE 7. RISK MANAGEMENT (CONT'D)

The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's Unemployment Claims Reserve for the current year and prior two years:

Fiscal Year	Other Contributions		Employee Contributions		nount nbursed	inding alance
2021-2022	\$	114	\$	71,218	\$ 53,193	\$ 73,215
2022-2023		3,517		34,613	40,655	76,751
2023-2024		5,526		26,507	40,469	82,277

NOTE 8. INTERFUND RECEIVABLES AND PAYABLES

The following interfund balances remained on the balance sheet at June 30, 2024:

Fund	nterfund ceivable	 nterfund Payable
General Fund Special Revenue Fund Capital Projects Fund Shared Services Fund	\$ 585,378	\$ 29,926 550,822 4,630
Total	\$ 585,378	\$ 585,378

The interfund payable in the Capital Projects Fund represents interest earned in this fund's depository cash accounts in June 2024 that have yet to be transferred to the General Fund as of year-end. The interfund payable in the Special Revenue Fund consists of \$29,926 of deficit cash balances related to grant expenditures that have yet to be reimbursed to the District from the federal and state government as of June 30, 2024. The Shared Services Fund ceased operations in 2021-2022 and the interfund payable within this fund consists of amounts that were funded by the General Fund and needs to be returned since the program is no longer active. All interfunds are expected to be liquidated within one year.

NOTE 9. FUND BALANCE APPROPRIATED

<u>General Fund</u> - Of the \$7,178,979 General Fund balance at June 30, 2024, \$162,814 is assigned for amounts encumbered at June 30, 2024, for which the contracted goods or services had not been delivered or rendered; \$1,262,593 which represents prior year excess surplus utilized in the 2024-2025 budget. Additional restricted reserves of \$2,818,140, \$553,029, \$199,815, and \$82,277 have been established by the Board of Education for Capital, Maintenance, Emergency, and Unemployment Compensation Reserves, respectively. Of the \$2,818,140 Capital Reserve

NOTE 9. FUND BALANCE APPROPRIATED (CONT'D)

balance, \$1,765,275 has been designated for expenditures in the 2024-2025 budget. Unassigned General Fund Balance was \$752,449. Lastly, \$1,347,862 represents current year excess surplus that must be included in the 2025-2026 budget.

<u>Special Revenue Fund</u> – At June 30, 2024, the Special Revenue Fund reported a fund balance of \$581,445. These amounts are restricted to funding authorized for student accounts and scholarships awarded.

<u>Capital Projects Fund</u> – At June 30, 2024, the Capital Projects Fund reported a fund balance of \$2,292,857, of which \$1,724,301 was encumbered for a capital project. These amounts are restricted to funding authorized capital project costs.

NOTE 10. CALCULATION OF EXCESS SURPLUS

In accordance with *N.J.S.A.* 18A:7F-7, as amended by P.L. 2004, c.73 (S1701). The designation for Reserved Fund Balance – Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund balance at the fiscal year end of June 30 for future tax relief to the extent that unrestricted/unassigned fund balance exceeds 2% of the prior year net adjusted expenditures. The excess fund balance pledged to future tax relief at June 30, 2024, calculated on a budgetary basis pursuant to statute, is \$2,610,455, and is comprised of \$1,262,593 that was appropriated as part of the 2024-2025 school budget, and \$1,347,862, which represents the minimum amount of fund balance that must be appropriated as part of the 2025-2026 school budget.

NOTE 11. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by the School District of Northern Highlands Regional High School District Board of Education by inclusion of \$7,000 during fiscal year 2001 for the accumulation of funds for use as capital outlay expenditures in subsequent fiscal years. The capital reserve account is maintained in the general fund and its activity is included in the general fund annual budget.

Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP) and updated annually in the Quality Assurance Annual Report (QAAR). Upon submission of the LRFP to the department, a district may deposit funds into the capital reserve at any time upon board resolution through the transfer of undesignated, unreserved general fund balance or of excess undesignated, unreserved general fund balance that is anticipated in the budget certified for taxes. Pursuant to N.J.A.C. 6:23A-5.1 (d) 7, the balance in the account cannot at any time exceed the local support costs of uncompleted projects in its approved LRFP.

At June 30, 2024, after a withdrawal of \$2,033,795 for expenditures in the 2023-2024 Budget, a transfer to the capital projects fund of \$1,500,000, interest earned of \$80,262 and deposits of \$2,000,000, the balance in the Capital Reserve Account was \$2,818,140. The District includes a capital reserve withdrawal in the amount of \$1,765,275 in the 2024-2025 budget.

NOTE 12. OTHER RESERVE ACCOUNTS

Pursuant to enabling legislation and rulemaking, the District is permitted to establish legally restricted Reserve Funds for Maintenance and Emergencies. The activity of these reserved accounts and their status at June 30, 2024 is as follows:

Emergency Reserve: A balance of \$199,755 existed at June 30, 2023. During the year, the Board of Education did not approve any withdrawals from the Emergency Reserve. An additional \$60 of investment earnings were credited to this account, resulting in an ending balance at June 30, 2024 of \$199,815. This amount is within the statutory maximum established by N.J.S.A. 18A:7F-41c(1) of the greater of \$250,000 or one-percent (1%) of the District's general fund budget.

Maintenance Reserve: A balance of \$550,629 existed at June 30, 2023. An additional \$2,400 of investment earnings were credited to this account during the year. The Maintenance Reserve balance at June 30, 2024 was \$553,029.

NOTE 13. UNEMPLOYMENT RESERVE ACCOUNT

An unemployment reserve account was established by the District by transferring \$73,101 to an unemployment reserve from the unemployment fund in 2021 to fund future unemployment claims billed by the state. This reserve was established in the General Fund in 2021 resulting from the implementation of Governmental Accounting Standards Board Statement No. 84, which required the District to record these funds as governmental activities. At June 30, 2024, the Unemployment Compensation reserve balance is \$82,277.

NOTE 14. TAX ABATEMENTS

As defined by the Governmental Accounting Standards Board (GASB), a tax abatement is an agreement between a government and an individual or entity in which the government promises to forgo tax revenues and the individual or entity promises to subsequently take a specific action that contributes to economic development or otherwise benefits the government or its citizens. School districts are not authorized by New Jersey statute to enter into tax abatement agreements. However, the county or municipality in which the school district is situated may have entered into tax abatement agreements, and that potential must be disclosed in these financial statements.

If the county or municipality entered into tax abatement agreements, those agreements will not directly affect the school district's local tax revenue because N.J.S.A. 54:4-75 and N.J.S.A. 54:4-76 require that amounts so forgiven must effectively be recouped from other taxpayers and remitted to the school district. For a local school district board of education or board of school estimate that has elected to raise their minimum tax levy using the required local share provisions at N.J.S.A. 18A:7F-5(b), the loss of revenue resulting from the municipality or county having entered into a tax abatement agreement is indeterminate due to the complex nature of the calculation of required local share performed by the New Jersey Department of Education based upon district property value and wealth.

The Division of Local Government Services, in the Department of Community Affairs, State of New Jersey, requires each municipality to submit annually a "User Friendly Budget", which, among other disclosures, includes a listing of all properties which have been granted tax

NOTE 14. TAX ABATEMENTS (CONT'D)

abatements, including assessed values and any In-Lieu-Of-Tax-Payments made to the municipality. The 2024 User Friendly Budget for the Borough of Allendale indicates PILOT billings for 2023 were \$191,904; whereas the amount of property taxes that otherwise may have been billed based upon the assessed valuations of these projects is calculated to be \$308,715. The Borough of Upper Saddle River reported no tax abatements granted for calendar year 2023.

NOTE 15. CONTINGENT LIABILITIES

At June 30, 2024, there was no litigation pending for which an unfavorable outcome with a material adverse impact on the net position of the District was anticipated.

No events have occurred subsequent to the close of the fiscal year that require disclosure herein.

The District participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at June 30, 2024 may be impaired. In the opinion of the District, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provisions have been recorded in the accompanying combined financial statements for such contingencies.

NOTE 16. TRANSFERS

The following presents a reconciliation of transfers during the 2024 fiscal year:

Fund	Transfers In		Transfers In Tr			Transfers Out		
General Fund	\$	327,973	\$	1,798,790				
Capital Projects Fund		1,788,050		327,973				
Food Service Fund		10,740						
Total	\$	2,126,763	\$	2,126,763				

During the 2023-2024 fiscal year, the transfer of \$10,740 from the General Fund to the Food Service Fund was to fund the costs of serving meals to students who qualified for free and reduced lunches, as the District does not participate in the National School Lunch Program and is not reimbursed for these meals. The transfer of \$327,973 from the Capital Projects Fund to the General Fund is the interest earned in the depository account holding the proceeds from the 2022 School Bonds issuance that have yet to be transferred to the General Fund as of year-end. The transfer of \$1,788,050 from the General Fund to the Capital Projects Fund is to finance capital projects where the costs were larger than anticipated. Of this \$1,788,050 transfer, \$1,500,000 was from the Capital Reserve account and \$288,050 was transferred from budgeted Capital Outlay expenditure accounts.

NOTE 17. NET POSITION - NET INVESTMENT IN CAPITAL ASSETS

Net investment in capital assets, Governmental Activities, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. The net investment in capital assets of \$22,007,170 indicated as part of the Governmental Activities net position is calculated as follows:

Capital assets, net of depreciation	\$ 30,139,313
Bonds payable (used to build or acquire capital assets)	(7,835,000)
Unused bond proceeds	2,292,857
Financed purchases payable	 (2,590,000)
Total net investment in capital assets	\$ 22,007,170

^{*} The amounts presented for each fiscal year were determined as of the previous fiscal year-end.

This schedule is presented to illustrate the requirement to show information for ten years. However, until a full ten-year trend is compiled, governments should present information for those years for which information is available.

NORTHERN HIGHLANDS REGIONAL HIGH SCHOOL DISTRICT COUNTY OF BERGEN, NEW JERSEY

NOTES TO REQUIRED SUPPLEMENTARY OPEB INFORMATION JUNE 30, 2024

NOTE 1. SPECIAL FUNDING SITUATION

The State of New Jersey, a non-employer contributing entity, is the only entity that has a legal obligation to make contributions to OPEB for qualified retired SHBLEREP participants. Accordingly, proportionate share information of the Net OPEB Liability is not reflected in the District's financial statements.

NOTE 2. CHANGES IN ASSUMPTIONS

For 2023, the discount rate changed to 3.65% from 3.54% in 2022. For pre-Medicare PPO and HMO medical benefits, the initial trend rate changed to 6.50% from 6.25%. For prescription drug benefits, the initial trend rate changed to 9.50% from 8.00%. Demographic assumptions remained unchanged and are consistent with the assumptions used in the pension plan valuations.

Contents

Financial Trends

These schedules contain trend information to help the reader understand how the district's financial performance and well being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the district's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the district's current levels of outstanding debt and the district's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the district's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the district's financial report relates to the services the district provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the annual comprehensive financial reports (ACFR) for the relevant year.

Note:

NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy . The levy when added to other components of the district's net budget may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

- **a** The District's basic tax rate is calculated from the A4F form which is submitted with the budget and the net valuation taxable.
- **b** Rates for debt service are based on each year's requirements.
- **c** Municipality Includes Open Space and Library Tax, County- Includes Open Space Taxes.

- a The amounts presented above present collection rates for each municipality for all taxes levied. In addition to Regional High School taxes, the tax levies include local school, municipal and county taxes.
- b School taxes are collected by the Municipal Tax Collector. Under New Jersey State Statute, a municipality is required to remit to the school district the entire property tax balance, in the amount voted upon or certified prior to the end of the school year.

NORTHERN HIGHLANDS REGIONAL HIGH SCHOOL Direct and Overlapping Governmental Activities Debt As of December 31, 2023 Unaudited

	Allendale Borough	Upper Saddle River Borough
Overlapping Debt of School District: Municipal Net Debt(100%) Local School (100%) County of Bergen Share (Statutory Net Debt))	\$ 4,725,413 \$ 1,005,000 10,924,995	29,447,365 287,718 12,579,074
Subtotal, overlapping debt	16,655,408	42,314,157
Northern Highlands Regional District Direct Debt	3,641,809	4,193,191
Total direct and overlapping debt	\$ 20,297,217 \$	46,507,348

Sources: Assessed value data used to estimate applicable percentages provided by the Bergen County Board of

Taxation. Debt outstanding data provided by each governmental unit.

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses situated within the District. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping

payment.

SINGLE AUDIT SECTION SECTION – K

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditors' Report

Honorable President and Members of the Board of Education Northern Highlands Regional High School District Allendale, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America; audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States ("Government Auditing Standards"), the financial statements of the governmental activities, the business-type activities and each major fund of the Northern Highlands Regional High School District, in the County of Bergen, New Jersey (the "District") as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated January 13, 2025

Report on Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Honorable President and Members of the Board of Education Northern Highlands Regional School District

Page 2

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report on Compliance for Each Major State Program and Report on Internal Control Over Compliance Required by NJ OMB Circular 15-08

Independent Auditors' Report

Honorable President and Members of the Board of Education Northern Highlands Regional High School District Allendale, New Jersey

Report on Compliance for Each Major State Program

Opinion on Each Major State Program

We have audited Northern Highland Regional High School District's, in the County of Bergen, New Jersey (the "District") compliance with the types of compliance requirements described in the New Jersey State Aid/Grant Compliance Supplement that could have a direct and material effect on each of the District's major state programs for the year ended June 30, 2024. The District's major state programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major state programs for the year ended June 30, 2024.

Basis for Opinion on Each Major State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America ("GAAS"); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States ("*Government Auditing Standards*"), and the audit requirements of New Jersey OMB Circular 15-08 Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Our responsibilities under those standards and New Jersey OMB Circular 15-08 are further described in the Auditors' Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major state program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Honorable President and Members of the Board of Education Northern Highlands Regional School District

Page 2

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's state programs.

Auditors' Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and New Jersey OMB Circular 15-08 will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Non-compliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major state program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and New Jersey OMB Circular 15-08, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the
 audit in order to design audit procedures that are appropriate in the circumstances and
 to test and report on internal control over compliance in accordance with New Jersey
 OMB Circular 15-08, but not for the purpose of expressing an opinion on the effectiveness
 of the District's internal control over compliance. Accordingly, no such opinion is
 expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Honorable President and Members of the Board of Education Northern Highlands Regional School District

Page 3

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a state program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditors' Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

Purpose of This Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of New Jersey OMB Circular 15-08. Accordingly, this report is not suitable for any other purpose.

NORTHERN HIGHLANDS REGIONAL HIGH SCHOOL DISTRICT NOTES TO THE SCHEDULE OF EXPENDITURES OF STATE FINANCIAL ASSISTANCE JUNE 30, 2024

NOTE 1. GENERAL

The accompanying schedule of expenditures of state financial assistance includes state award activity of the Board of Education of the Northern Highlands Regional High School District. The Board of Education is defined in Note 1(A) to the Board's general-purpose financial statements (GASB 34 Model – basic financial statements). All state awards are received directly from state agencies, as well as state assistance passed through other government agencies are included on the schedule of expenditures of state financial assistance.

NOTE 2. BASIS OF ACCOUNTING

The accompanying schedule of expenditures of state financial assistance is presented on the budgetary basis of accounting. This basis of accounting is described in Note 1 to the District's basic financial statements. The information in this schedule is presented in accordance with the requirements of New Jersey OMB Circular 15-08, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Therefore, some amounts presented in this schedule may differ from amounts present in, or used in the preparation of, the basic financial statements. The District does not charge any indirect costs to any state financial assistance program.

NOTE 3. RELATIONSHIP TO GENERAL PURPOSE FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to P.L. 2003, c.97 (N.J.S.A. 18A: 22-44.2). For GAAP purposes, the payment of the last state aid installment(s) is not recognized until the subsequent budget year due to the state deferral and recording of expenditures for these payments in the subsequent state fiscal year budget. The special revenue fund accompanying schedules agree with amounts reported in the District's general-purpose financial statements.

NORTHERN HIGHLANDS REGIONAL HIGH SCHOOL DISTRICT NOTES TO THE SCHEDULE OF EXPENDITURES OF STATE FINANCIAL ASSISTANCE JUNE 30, 2024

NOTE 3. <u>RELATIONSHIP TO GENERAL PURPOSE FINANCIAL STATEMENTS</u> (CONT'D.)

The basic financial statements present the special revenue fund on both a GAAP basis and a budgetary basis. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis, which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The net adjustment to reconcile from the budgetary basis to the GAAP basis is (\$5,352) for the general fund and \$34,576 for the special revenue fund. See C-3 for a reconciliation of the budgetary basis to the GAAP basis of accounting for the special revenue fund. Award and financial assistance revenues are reported in the District's general-purpose financial statements on a GAAP basis as follows:

	<u>Federal</u> <u>State</u>		<u>Total</u>	
General Fund			\$ 9,243,138	\$ 9,243,138
Special Revenue Fund	\$	606,391	70,936	677,327
Debt Service Fund			269,001	269,001
Total Assistance	\$	606,391	\$ 9,583,075	\$ 10,189,466

The federal accounts receivable presented on the budgetary basis in the schedule of federal awards includes \$1,436 in encumbrances and therefore differs from the GAAP basis federal accounts receivable of \$30,564.

NOTE 4. RELATIONSHIP TO STATE FINANCIAL REPORTS

Amounts reported in the accompanying schedules agree with the amounts reported in the related state financial reports.

NOTE 5. OTHER

TPAF Post-Retirement Medical, Pension and Non-Contributory Insurance Premium Contributions represent the amount paid by the state on behalf of the District for the year ended June 30, 2024. These amounts are published by the State Division of Pensions annually, and the NJDOE has advised that these In-Kind programs are not to be subject to the state single audit mandate, and no audit procedures are required to be applied to these amounts. TPAF Social Security Contributions represents the amount reimbursed by the state for the employer's share of social security contributions for TPAF members for the year ended June 30, 2024 and are subject to the state single audit mandate.

NOTE 6. INDIRECT COSTS

The District did not use the 10% de minimis indirect cost rate.
