Financial Planning, Accounting and Reporting (Continued)

Payroll Account

The net salaries of all employees of the Commission were deposited in the Payroll Account. Employees' payroll deductions and employer's share of payroll taxes were deposited in the Payroll Agency Account.

All payrolls tested were certified by the Superintendent, the President of the Board and the Board Secretary/School Business Administrator.

Salary withholdings were promptly remitted to the proper agencies including health benefit premium contribution amounts withheld and due to the other funds.

The Commission maintains a personnel tracking and accounting (position control) system.

The School Business Administrator completed and filed the required Certification of Compliance with Federal and State Law for the reporting of compensation for certain employees.

Reserve for Encumbrances and Accounts Payable

A review of outstanding issued purchase orders was made as of June 30, for goods not yet received or services not yet rendered and it was determined that no blanket purchase orders were included in the balance of the reserves for encumbrances. Also, unpaid purchase orders included in the balance of accounts payable were reviewed for propriety and to determine that goods were received and services were rendered, as of June 30.

Classification of Expenditures

The coding of expenditures was tested for proper classification in accordance with N.J.A.C. 6A:23-2.2(f) as part of our test of transactions of randomly selected expenditure items. We also reviewed the coding of all expenditures included in our compliance testing procedures. As a result of the procedures performed, no additional procedures were deemed necessary to test the propriety of expenditure classification.

Board Secretary's Records

The financial records, books of account and minutes maintained by the Board Secretary were in good condition.

The prescribed contractual order system was followed.

Bids received were summarized in the minutes (N.J.S.A. 18A:18A-21).

Acknowledgment of the Board's receipt of the Board Secretary's monthly financial reports was included in the minutes.

The original budget per the budget appropriation report did agree to the appropriations reflected in the adopted budget.

We noted one (1) budget line account was overexpended at June 30, 2025. These expenditures were the result of adjustments made during the audit. Therefore, no audit recommendation is warranted.

Financial Planning, Accounting and Reporting (Continued)

Treasurer's Records

The Treasurer did perform cash reconciliations for the general operating account, capital projects, food service and payroll accounts.

All cash receipts were promptly deposited.

The Treasurer's records were in agreement with the records of the Board Secretary.

The Treasurer's cash balances were in agreement with the reconciled cash balances as determined during the audit.

Unemployment Compensation Insurance Account

The Board has adopted the direct reimbursement method and has established an Unemployment Compensation Insurance Account. The financial transactions of this account are reported in the General Fund.

Other Special Projects

The Commission's Special Projects were approved as listed on Exhibits K-3 and K-4 located in the ACFR.

The financial exhibits are contained within the Special Revenue Section of the ACFR. This section of the ACFR documents the financial position pertaining to the aforementioned special projects.

T.P.A.F. Reimbursements

Our audit procedures included a test of the semi-monthly reimbursement forms filed with the Department of Education for Commission employees who are members of the Teachers Pension and Annuity Fund. No exceptions were noted.

The Commission did not have any federal grant programs. The TPAF Reimbursement Form for federally funded program was filed with a status of no reimbursement required by the due date.

School Purchasing Programs

Contracts and Agreements Requiring Advertisement for Bids

The bid thresholds in accordance with N.J.S.A. 18A:18A-2 and N.J.S.A. 18A:18A-3(a) (as amended) are \$44,000 (with a Qualified Purchasing Agent) and \$32,000 (without a Qualified Purchasing Agent) respectively. The law regulating bidding for public school transportation contracts under N.J.S.A. 18A:39-3 is currently \$22,400.

If the purchasing agent is qualified pursuant to subsection b of section 9 of P.L. 1971, c. 198 (c.40A:11-9), the Board may establish that the bid threshold may be up to \$44,000. Such authorization may be granted for each contract or by a general delegation of the power to negotiate and award such contracts pursuant to this section. The Board has designated the School Business Administrator as the temporary qualified purchasing agent. The temporary period expired on January 1, 2024 thereby reducing the bid threshold to \$32,000.

School Purchasing Programs (Continued)

Contracts and Agreements Requiring Advertisement for Bids (Continued)

The Commission has the responsibility of determining whether the expenditures in any category will exceed the statutory thresholds within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the Board Attorney's opinion should be sought before a commitment is made.

Inasmuch as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed.

The results of our examination indicated certain instances where payments, contracts, or agreements were made "for the performance of any work or the furnishing or hiring of any materials or supplies," in excess of the statutory thresholds where there had been no advertising for bids in accordance with the provision of N.J.S.A. 18A:18A-4.

Resolutions were adopted authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S.A. 18A:18A-5.

The system of records did not provide for an accumulation of purchases for which the Commission used contracts entered into by the State Department of Purchase and Property pursuant to Ch. 114, P.L. 1977, therefore, the extent of such purchases could not reasonably be ascertained. Our examination did reveal, however, that purchases were made through the use of State contracts. However, the Commission does follow a rigorous policy where all purchases are publicly bid, quoted or bought through the use of state contracts or other cooperative purchasing programs.

School Food Service

The School Food Service Program was not selected as a major federal or state program. The Commission has expended in excess of \$100,000 in federal funds. Accordingly, we inquired of school management as to whether the SFA had any child nutrition program reimbursement overclaims or underclaims. No exceptions were noted.

We also inquired of school management, or appropriate school food services personnel, as to whether the SFA's expenditures of school food service revenues were limited to allowable direct and indirect costs. No exceptions were noted.

The financial transactions and records of the school food services were maintained in good condition. The financial accounts and transactions were reviewed on a test-check basis.

The cash disbursements records reflected expenditures for program related goods and services. The appropriate revenue and expenditure records were maintained in order to substantiate the non-profit status of the school food service. Net cash resources did not exceed three months average expenditures.

The Commission utilizes a food service management company (FSMC) and is depositing and expending program monies in accordance with N.J.S.A. 18A:17-34, and 19-1 through 19-4.1. Provisions of the FSMC contract/addendum were reviewed.

The statement of Revenues, Expenses and Changes in Net Position (ACFR Exhibit B-5) does separate program and non-program revenue and cost of goods sold.

Exhibits reflecting Child Nutrition Program operations are included in the section entitled Enterprise Funds.

The Commission maintains a Special Programs Fund to account for the financial activity of transportation services and other programs provided on a fee-for-service basis to member and non-member school districts.

The financial transactions and records of the special programs were maintained in good condition. The financial accounts and records were reviewed on a test-check basis.

Pupil Transportation

Our procedures included a review of transportation related contracts and purchases. Based on our review, the commission complied with proper bidding procedures and award of contracts. No exceptions were noted in our review of transportation related purchases of goods and services.
