To the Honorable President and Members
of the Willingboro Township
Board of Education
Willingboro, New Jersey

ADMINISTRATIVE FINDINGS FINANCIAL, COMPLIANCE AND PERFORMANCE

Scope of Audit

The audit covered the financial transactions of the Board Secretary/School Business Administrator and Treasurer of School Monies, the activities of the Board of Education, the records of the Athletic Fund, the Student Activity Fund, Food Service Fund and Special Revenue Fund under the auspices of the Board of Education.

Administrative Practices and Procedures

Insurance

Fire insurance coverage was carried in the amounts as detailed on Exhibit J-20 Insurance Schedule contained in the District's ACFR.

Official Bonds

Name	Position	Amount
Dr. Steven Lewis	Business Administrator/Board Secretary	\$500,000
William Tantum	Treasurer	500,000

There is a public employees' faithful performance blanket position bond with the Selective Insurance Company covering all other employees with multiple coverage of \$500,000.

P.L.2020c.44

Our audit procedures included an inquiry and subsequent review of health benefit data required per N.J.S.A. 18A:16-13.3 (Chapter 44) submitted for the year on audit. The Chapter 44 summary report was reviewed for reasonableness and timeliness.

The data submitted did include all health benefit plans offered by the school district.

The school district data certification was completed by the chief school administrator. The school district Chapter 44 data was submitted timely.

Tuition Charges

A comparison of tentative tuition charges and actual certified tuition charges was made. The actual costs were less than estimated costs. The Board made a proper adjustment to the billings to sending districts for the decrease in per pupil costs in accordance with *N.J.A.C.6A:23A-17.1(f)3*.

Financial Planning, Accounting and Reporting

Examination of Claims

A sample examination of claims paid during the period under review did not indicate any discrepancies with respect to signatures, certification or supporting documentation.

Payroll Account

The net salaries of all employees of the Board were deposited in the Payroll Account. Employee's payroll deductions and employer's share of fringe benefits were deposited in the Payroll Agency Account.

Sampled payrolls were approved by the Superintendent and were certified by the President of the Board, the Board Secretary/Business Administrator, and the Chief School Administrator.

Sampled salary withholdings were promptly remitted to the proper agencies, including health benefit premium amounts withheld due to the general fund.

Payrolls were delivered to the treasurer of school moneys with a warrant made to their order for the full amount of each payroll.

Employee Position Control Roster

A sample inquiry and subsequent review of the Position Control Roster found no inconsistencies between the payroll records, employee benefit records (e.g. pension reports and health benefit coverage reports), the general ledger accounts to where wages are posted (administrative versus instruction), and the Position Control Roster.

Reserve for Encumbrances and Accounts Payable

A review of outstanding issued purchase orders was made as of June 30, for goods not yet received or services not yet rendered and it was determined that no blanket purchase orders were included in the balance of the reserves for encumbrances. Also, unpaid purchase orders included in the balance of accounts payable were reviewed for propriety and to determine that goods were received and services were rendered, as of June 30.

Finding 2025-01:

It was noted while examining the District's ESIP capital project that the purchase order for this project exceeded the approved funding amount.

Recommendation:

The District must implement procedures to ensure that capital projects be fully funded and be in compliance with N.J.A.C. 6A:26-4.4 prior to awarding contracting services.

Travel

No exceptions were noted in my study of compliance for travel expenses.

Classification of Expenditures

The coding of expenditures was tested for proper classification in accordance with *N.J.A.C. 6A:23A-16.2(f)* as part of my test of transactions of randomly selected expenditure items. I also reviewed the coding of all expenditures included in my compliance and single audit testing procedures. In addition to randomly selecting a test sample, my sample selection specifically targeted administrative coding classifications to determine overall reliability and compliance with N.J.A.C. 6A:23A-8.3. As a result of the procedures performed, no transaction errors were noted and no additional procedures were deemed necessary to test the propriety of expenditure classification.

Board Secretary's Records

Our review of the financial and accounting records maintained by the Board Secretary disclosed the following item:

Finding 2025-02:

The following issues were noted during the testing of the District's health benefit coverage:

- It was noted while testing the district's medical prescription coverage that the District paid premiums for four (4) individuals that were no longer employees of the District.
- While testing the District's dental coverage the District paid premiums for six (6) individuals that were no longer employees of the District.

Recommendation:

The district must implement procedures to ensure that correct amounts are being paid for medical prescription premiums for active employees only.

Finding No. 2025-03:

The District did not adhere to its internal control procedures that are designed to reconcile the general ledger with other subsidiary records and did not record all the necessary year-end closing journal entries in order to be in compliance with N.J.A.C. 6A:23A-6.6.

Recommendation:

The District should adhere to their internal control procedures that are designed to reconcile the general ledger with other subsidiary records and record all necessary year-end journal entries in order to be in compliance with N.J.A.C. 6A:23A-6.6.

Treasurer's Records

The Treasurer's records were reviewed and found to be in satisfactory condition.

Elementary and Secondary Education Act (E.S.E.A.) as amended by the Every Student Succeeds Act (ESSA)

The E.S.E.A financial exhibits are contained within the Special Revenue Section of the ACFR. This section of the ACFR documents the financial position pertaining to the projects under Title I and VI of the Elementary and Secondary Education Act as amended and reauthorized.

Other Special Federal and/or State Projects

The District's Special Projects were approved as listed on Schedule A and Schedule B located in the ACFR.

Our audit of the Federal and State funds on a test basis indicated that obligations and expenditures were incurred during the fiscal year or project period for which the project was approved.

The financial exhibits are contained within the Special Revenue Section of the ACFR. This section of the ACFR documents the financial position pertaining to the aforementioned special projects.

The study of compliance for the special projects indicated no areas of noncompliance.

T.P.A.F. Reimbursement

Our audit procedures included a test of the biweekly reimbursements filed with the Department of Education for district employees who are members of the Teachers Pension and Annuity Fund. No exceptions were noted.

T.P.A.F. Reimbursement to the State for Federal Salary Expenditures

The amount of the expenditure charged to the current year's Final Report(s) for all federal awards for the school district to reimburse the State for the TPAF/FICA payments made by the State on-behalf of the school district for those employees whose salaries are identified as being paid from federal funds was made prior to the end of the 90 day grant liquidation period required by the Office of Grants Management. The expenditure was reviewed subsequent to the reimbursement and no exceptions were noted.

School Purchasing Program

Contracts and Agreements Requiring Advertisement for Bids

N.J.S.A.18A: 18A-1 et seq. (Public School Contracts Law), the associated rules and related information on the statute, and school contracts in general is available on the NJ Local Agency Procurement Laws webpage: <http://www.state.nj.us/dca/divisions/dlgs/programs/1pcl.html>.

Current statute is posted on the New Jersey Legislature (<http://www.njleg.state.nj.us>) website.

The bid thresholds in accordance with *N.J.S.A.18A:18A-2* and *18A:18A-3(a)* are \$44,000 (with a Qualified Purchasing Agent) and \$32,000 (without a Qualified Purchasing Agent), respectively. The law regulating bidding for public school student transportation contracts under *N.J.S.A. 18A:39-3* is \$20,200 for 2024-25.

Contracts and Agreements Requiring Advertisement for Bids (Continued):

The district board of education/board of trustees has the responsibility of determining whether the expenditures in any category will exceed the statutory thresholds within the contract year. Where question arises as to whether any contract or agreement might result in violation of the statute, the Solicitor's opinion should be sought before a commitment is made.

Based on the results of my examination, I did not note any individual payments, contracts, or agreements made for the performance of any work or goods or services, in excess of the statutory thresholds where there had been no advertising for bids in accordance with the provision of N.J.S.A. 18A:18A-4.

Resolutions were adopted authorizing the awarding of contracts or agreements for "Professional Services" per N.J.S.A. 18A:18A-5.

School Food Service

SFAs were authorized to solicit and award emergency noncompetitive procurements and contracts with Food Service Management Companies in accordance with 2 CFR 200.320 and N.J.S.A. 18A:18A-7. The SFAs were also authorized to submit contract modifications to their existing Cost Reimbursable or Fixed Price contracts as necessary to ensure the feeding of all children throughout the age of 18, as well as persons over 18 with disabilities as defined in the regulations.

SFAs were notified of the requirement to maintain and report separate meal count records and financial records of all applicable costs incurred in providing meals to all students during the emergency.

The school food service program was not selected as a major Federal and/or State program. However, the program expenditures exceeded \$100,000 in Federal and/or State support. Accordingly, I inquired of school management, or appropriate school food service personnel, as to whether the School Food Authority (SFA) had any Child Nutrition Program reimbursements overclaims or underclaims. No exceptions were noted.

We also inquired of school management, or appropriate school food service personnel, as to whether the SFA's expenditures of school food service revenues were limited to allowable direct and indirect costs. No exceptions noted.

The statement of Revenues, Expenses, and Changes in Net Position (ACFR Schedule B-5) does separate program and non-program revenue and program and non-program costs of goods sold.

We inquired of management the public health emergency procedures/practices that the SFA instituted to provide meals to all students, maintenance of all applicable production records; meal counts; noncompetitive procurements; modification of existing contracts and applicable financial records to document the specific costs applicable to the emergency operations. We also inquired if the FSMC received a loan in accordance with the Payroll Protection Plan and whether the funds were used to pay for costs applicable to the Food Service Programs. I also inquired if the PPP loan was subsequently forgiven and the FSMC refunded or credited the applicable amounts to the SFA.

The financial transactions and statistical records of the school food service fund were reviewed. The financial accounts, meals count records were reviewed on a test-check basis. Cash receipts and bank records were reviewed for timely deposit.

School Food Service (Continued):

The district utilizes a food service management company (FSMC) and is depositing and expending program monies in accordance with N.J.S.A. 18A:17-34, and 19-1 through 19-4.1. Provisions of the (FSMC) Cost Reimbursable Fixed Price or Non-Competitive Emergency Procurement Sodexo contract/addendum were reviewed and audited.

Expenditures should be separately recorded as food, labor and other costs. Vendor invoices were reviewed and costs verified. Inventory records on food supply items were currently maintained and properly applied in determining the cost of food and supplies used.

The cash disbursements records reflected expenditures for program related goods and services. The appropriate revenue and expenditure records were maintained in order to substantiate the non-profit status of the school food service.

The FSA recorded and maintained separate supporting documentation for additional costs (food, supplies, transportation, etc.) applicable to the implementation of the COVID-19 meal service under SSO or SFSP program requirements.

Net cash resources did exceed three months average expenditures.

Time sheets were reviewed and labor costs verified. Payroll records were maintained on all School Food Services employees authorized by the board of education. No exceptions were noted.

The number of meals claimed for reimbursement was compared to sales and meal count records. As part of the claims review process the Edit Check Worksheet was completed. Reimbursement claims were submitted/certified in a timely manner.

Applications for free and reduced price meals were reviewed for completeness and accuracy. The number of free and reduced price meals claimed as served was compared to the number of valid applications/or to the list of directly certified students on file, times the number of operating days, on a school-by-school basis. The free and reduced price meal and free milk policy was reviewed for uniform administration throughout the School System. Sites approved to participate in Provisions I and II were examined for compliance with all counting and claiming requirements. The required verification procedures for free and reduced price applications were completed and available for review.

USDA Food Distribution Program (food and/or commodities) were received and a single inventory was maintained on a first-in, first-out basis. No exceptions were noted.

The Statement of Revenues, Expenses, and Changes in Fund Net Assets (ACFR Schedule B-5) does separate program and non-program revenue and program and non-program cost of goods sold.

Exhibits reflecting Child Nutrition Program operations are included in the section entitled Enterprise Funds, Section B of the ACFR.

Unemployment Compensation Insurance Trust Fund

The Board has adopted the direct reimbursement method and has established an Unemployment Compensation Insurance Expendable Trust Fund.

Student Body Activities

The Board adopted a policy, which effectively established the regulation of all student activity funds. My review of the financial and accounting records for student activities indicated that no exceptions were noted.

Application for State School Aid (ASSA)

My audit procedures included a test of information reported in the October 15, 2023 Application for State School Aid (A.S.S.A.) for on-roll, private schools for the handicapped, low-income and bilingual. I also performed a review of the District procedures related to its completion. The information on the A.S.S.A. was compared to the District workpapers. The information that was included on the workpapers was verified. The results of my procedures are presented in the Schedule of Audited Enrollments.

The District maintained workpapers on the prescribed state forms or their equivalent.

The District written procedures appear to be adequate for the recording of student enrollment data.

Finding 2025-04:

The following issues were noted during the testing of the District's ASSA report:

- It was noted during the testing of on-roll eligible regular students that there were three (3) less students reported on the ASSA report as compared to the District's school register. Also, there was one (1) additional student reported on the ASSA report as compared to the District's school register.
- It was noted during the testing of private school handicapped that there were ten (10) more students reported on the ASSA report as compared to the District's workpapers.
- It was noted during the testing of on-roll LIEP Low Income students that the ASSA report listed one (1) more student as compared to the District's workpapers.
- It was noted during the testing of on-roll eligible LIEP – Not Low Income students that the ASSA report listed one (1) more student and one (1) less student as compared to the District's workpapers.

Recommendation:

The District must implement procedures to ensure that correct enrollment counts are submitted on the ASSA report.

Pupil Transportation

Our audit procedures included a test of on roll status reported in the 2023-2024 District Report of Transported Resident Students (DRTRS). The information that was included on the DRTRS was verified to the DRTRS Eligibility Summary Report without exception. The results of my procedures are presented in the Schedule of Audit enrollments.

Pupil Transportation (continued):

Our procedures also include a review of transportation related contracts and purchases. Based on my review, the District complied with proper bidding procedures and award of contracts. The bid specification for the purchase of buses were in compliance with applicable statutes. No exceptions were noted in my review of transportation related purchases of goods & services.

Testing for Lead of All drinking Water in Educational Facilities

The school district adhered to all the requirements of N.J.A.C. 26-1.2 and 12.4 related to the testing for lead of all drinking water in educational facilities. The school district submitted the annual Statement of Assurance to the Department of Education, pursuant to N.J.A.C. 6A:26-12.4(g).

Follow-up on Prior Years' Findings

In accordance with government auditing standards, my procedures included a review of all prior year recommendations including findings. Corrective action had been taken on all prior year findings with the exception of the following, which is repeated in this year's recommendations noted as current year finding "2025-02, 2025-03 and 2025-04".

The district must implement procedures to ensure that correct amounts are being paid for medical prescription premiums for active employees only. (2024-01)

The District should adhere to their internal control procedures that are designed to reconcile the general ledger with other subsidiary records and record all necessary year-end journal entries in order to be in compliance with N.J.A.C. 6A:23A-6.6. (2024-02)

The District must implement procedures to ensure that correct enrollment counts are submitted on the ASSA report. (2024-03)

Office of Fiscal Accountability and Compliance (OFAC) Findings

There were no Office of Fiscal Accountability and Compliance (OFAC) audit reports issued during the fiscal year ended June 30, 2025.

Acknowledgment

I received the complete cooperation of all officials of the School District and we greatly appreciate the courtesies extended to the members of the audit team.
