FOOTNOTES:

Per capita personal income was computed using Census Bureau midyear population estimates. Estimates for 2010-2012 reflect county population estimates available as of March 2013. All state and local area dollar estimates are in current dollars (not adjusted for inflation). Estimates for 2001 forward reflect the results of the comprehensive revision to the national income and product accounts (NIPAs) released in July 2013. This will create a temporary break in BEA's time series for earlier years.

Last updated: November 21, 2013 - new estimates for 2012; revised estimates for 2001-2011.
