

Expanding Access to Computer Science Education: Professional Learning Notice of Grant Opportunity (NGO)
Technical Assistance Webinar Frequently Asked Questions and Answers
Monday, November 25, 2019
20-CZ03-H07

Question: Will the slides from today's webinar be available for review?

Answer: Yes. The recording will be available as early as December 3, 2019 on the NGO page.

Question: Will slides from the other two funding opportunities be available also?

Answer: Yes. The recording will be available as early as December 3, 2019 on the NGO page.

Question: Is there a page limit on the project narrative, budget or any other parts?

Answer: Each Electronic Web-Enabled Grant (EWEG) textbox has a character limit.

Question: The NGO states that we need to include our plan for “Moving towards sustainability through applying for other funding mechanism, for example, federal or National Science Foundation (NSF) grants within three years.” Should we infer that the New Jersey Department of Education (NJDOE) hopes to be able to offer some funding for hubs for an additional two years?

Answer: NJDOE funding is currently only available for the 2020 fiscal year.

Question: Following the grant period we obviously hope to be able to sustain our hub through grants from the NSF and other sources, however, is it permissible to also consider charging districts/educators fees after the grant period is over?

Answer: Computer Science (CS) hubs may not charge a fee for their services during the grant period.
