New Jersey Department of Education Releases 2024-2025 School Performance Reports

Trenton, NJ – The New Jersey Department of Education (NJDOE) today announced the availability of the School Performance Reports for the 2024-2025 school year, providing residents with information on academics and school climate at the school, district, and state levels.

The 2024-2025 School Performance Reports include assessment and accountability results, as well as information on college and career readiness, school learning environment, and more.

“New Jersey’s School Performance Reports provide a critical starting point for learning how our schools, districts, and state education system are serving our students,” **said Dr. Lily Laux, Commissioner of Education**. “We are committed to continually improving this resource by making it clearer and easier to use, so we can effectively empower communities to engage in meaningful discussions about how to efficiently deliver an excellent education to every student, in every ZIP code across the state.”

The 2024-2025 School Performance Reports have been redesigned because of the NJDOE’s transition to the New Jersey Statewide Longitudinal Education Data System (NJSLEDS). Changes include:

- New dashboard-based reports: replacing many static data tables with visual representations that make it easier to compare student performance across years, student groups, and grades
- Expanded trend and student group data: newly including up to five years of performance data
- More interactive options: allowing users to filter data and add district or state comparisons

The NJDOE continues to enhance the School Performance Reports each year, and this latest redesign marks a new starting point for future improvements. The NJDOE invites public feedback through the [School Performance Report Feedback Survey](#).

Moving forward, reports will be available earlier in the school year with more data visuals. The NJDOE also plans to make these reports easier for families and communities to compare information across school districts and other data sources.

School districts were provided access to these reports starting on May 11, giving school leaders an opportunity to familiarize themselves with the information.

Identifying Trends

The School Performance Reports reflect positive trends across several key measures of student performance and the school environment. The data, which is from the 2024-2025 school year, shows [notable progress](#) in preparing students for success after high school.

The School Performance Reports provide information in numerous areas of academic progress, school climate, and other key metrics, including:

Academic Achievement

- New Jersey Student Learning Assessment (NJSLA) data in English language arts, math, and science
- Median student growth percentiles (mSGP), showing relative student growth from year to year on NJSLA English language arts and math
- New Jersey Graduation Proficiency Assessment (NJGPA)
- National Assessment of Educational Progress (NAEP)
- ACCESS for ELLs (English language learners) and Dynamic Learning Maps (DLM) for students with significant cognitive disabilities

College & Career Readiness

- Participation and results for PSAT, SAT, ACT
- Advanced courses (Advanced Placement (AP), International Baccalaureate (IB), Dual Enrollment)
- Career and Technical Education (CTE) programs
- Seal of Biliteracy
- Course participation

Narrative

- District-provided explanations and additional context

Graduation & Beyond

- Graduation rates, pathways to graduation, apprenticeships, and college enrollment

Climate & Learning Environment

- Chronic Absenteeism
- Incidents/Discipline
- Learning Environment (school day information, device ratios)

Staff Information

- Teacher and administrator experience, retention, demographics
- Staff counts and student-to-staff ratios

School Spending

- Per-pupil expenditures

Accountability

- State support and improvement status

In addition to providing enrollment data in the School Performance Reports, the NJDOE has posted online student enrollment data for 2025-2026 on its [Fall Enrollment Reports](#) webpage.

The School Performance Reports and other supporting documents can be accessed on the NJDOE's [School Performance Reports website](#). Data files available for download are on the accompanying School Performance Reports [Downloadable Data](#) webpage.
