## New Jersey's 2020-2021 Statewide Assessments

| Statewide Assessment | Testing Window |
| :--- | :---: |
| ACCESS for ELLs (English Language Learners) <br> Assessments | April 5, 2021 to June 11, 2021 |
| Dynamic Learning Maps (DLM) <br> Assessments: English Language Arts <br> (ELA)/Mathematics/Science | April 5, 2021 to June 11, 2021 |
| New Jersey Student Learning Assessments <br> (NJSLA): ELA/Mathematics/Science | Cancelled |
| Start Strong ELA/Mathematics/Science* | September 13, 2021 to October 22, 2021 |

The administration of the fall 2021 Start Strong Assessments satisfied New Jersey's federal requirement under the Every Student Succeeds Act (ESSA) to administer general assessments in ELA, math, and science for the 2020-2021 school year only.

# Considerations for Reviewing 2020-2021 Statewide Assessment Results 

- National research on the academic impacts of COVID-19:
- Larger impact of missed learning opportunities in mathematics compared to ELA.
- Historical achievement gaps persist.
- National research conducted by the NWEA (previously the Northwest Evaluation Association) has indicated that learning gaps resulting from COVID-19 pandemic may result in learning deficits of $30 \%$ in reading and up to $50 \%$ in math.
- This summer, NWEA published an additional research brief suggesting that Reading and math growth in 2020-2021 was slower compared to pre-pandemic trends. According to this research, students ended the year with lower achievement compared to a typical year, with larger declines relative to historical trends in math (8 to 12 percentile points) than in reading ( 3 to 6 percentile points).
- A UNESCO summary of learning loss studies found that while learning was disrupted very unevenly for student populations, overall, elementary students may have been more greatly impacted than secondary students

## Considerations for Reviewing 20202021 Statewide Assessment Results

New Jersey data sources: Local interim assessment data, administered by districts between November 16, 2020, and February 19, 2021, and collected by the NJDOE in spring 2021 suggest that academic achievement gaps persisted through the pandemic.

| Student Group | \% At or Above Grade Level: <br> Local Interim Assessments <br> ELA | \% At or Above Grade Level: <br> Local Interim Assessments <br> Mathematics |
| :--- | :---: | :---: |
| All students | $64 \%$ | $62 \%$ |
| Economically Disadvantaged | $46 \%$ | $45 \%$ |
| English Language Learner | $35 \%$ | $40 \%$ |
| Students with Disabilities | $43 \%$ | $45 \%$ |
| African American | $49 \%$ | $44 \%$ |
| Asian | $82 \%$ | $84 \%$ |
| Hispanic | $48 \%$ | $48 \%$ |
| White | $73 \%$ | $72 \%$ |

## Dynamic Learning Maps (DLM)

## Dynamic Learning Maps (DLM) Overview

- DLM is used as the State's alternate assessment aligned with alternate academic achievement standards (AA-AAAS) for students with the most significant intellectual disabilities, as required by the Every Student Succeeds Act (ESSA) and N.J.A.C. 6A:8-4.
- DLM is administered in grades 3-8 and 11 to eligible students, who meet the participation guidelines, in ELA, Mathematics, and Science.
- DLM is a computer-adaptive assessment based on DLM's Essential Elements that is personalized to the needs of each student for this special population.
- The DLM assessments are required by the vendor to be administered inperson only, with no remote administration option, as the supports required to administer this assessment to its specific population of students must be completed in person.

## Dynamic Learning Maps - Student Profile

- The DLM assessment is designed for the approximately $1 \%$ of the student population with significant intellectual disabilities.
- Wide variability of skills within this $1 \%$ of students.
- Some students may be able to complete the DLM relatively independently while others may need a substantial level of support to participate.
- Students must meet federally-required participation criteria to participate in the DLM assessment. IEP teams make this determination annually.

## DLM Participation Rate (Percent by Student Grade Level)

## ACCESS for ELLs

## ACCESS for ELLs Overview

- The ACCESS for ELLs assessments serve as New Jersey's English Language Proficiency (ELP) assessments as required by ESSA and N.J.A.C. 6A:15-1.10(b).
- ACCESS for ELLs is administered in grades K-12 to students identified as ELLs.
- An Overall Composite Score of 4.5 on the ACCESS for ELLs assessment is used as one of multiple measures by which ELL students are exited from program services in NJ.
- The ACCESS for ELLs assessments are required by the vendor to be administered in-person only, with no remote administration option, as the supports required to administer this assessment to its specific population of students must be completed in person
- This was during the highly variable spring 2021 school year, in which many districts were still under various instructional modes (ie; remote, hybrid, etc.).
- Therefore, spring 2021 participation in this assessment was lower than the previous assessment administration due to factors related to COVID-19.

## Start Strong Assessments

## Start Strong Assessments: Overview

- Based on a subset of prior-year academic standards to provide a data point on the level of support a student may need to engage in grade-level content.
- Produced on-demand results for educators to drive conversations with teachers, parents and students at the beginning of the year.
- Could be administered in 45-60 minutes.

## Start Strong Assessments: Takeaways

- The results of the Start Strong Assessment mirrors historical trends in New Jersey's standardized assessment data.
- The observations from of the Start Strong Assessment are consistent with national pandemic-era observations:
- Unfinished learning may be greater in math than in reading.
- Unfinished learning may be greater for elementary students than for older students.
- For historically underserved student populations, gaps continue to persist.

## Start Strong Assessments: Uses at the Local Level

Start Strong Assessments provide a data point to support local school districts in:

- Adjusting instruction using real-time feedback provided by Start Strong OnDemand Reports.
- Having conversations between parents and educators regarding where students might need support at the beginning of the school year.
- Providing professional learning supports for differentiation and scaffolding based on student results, aligned to principles and practices outlined in the NJDOE Learning Acceleration Guide.
- District-level curriculum planning and revisiting prerequisite concepts and skills aligned to the NJSLS, and evaluating scope and sequence based on student support needs.

## Continuation of NJDOE Efforts

- New Jersey has received over $\$ 4.3$ billion in the Elementary and Secondary School Emergency Relief (ESSER) funds, to be used in part to combat unfinished learning.
- $90 \%$ of funds went directly to Local Education Agencies (LEAs). Grant highlights:
- ESSER II Learning Acceleration Grant
- New Jersey Tiered System of Support (NJTSS) Mental Health Support Staffing Grant
- Accelerated Learning Coaching and Education Support Grant
- Evidence-Based Summer Learning and Enrichment Activities Grant
- Evidence-Based Comprehensive Beyond the School Day Activities Grant
