

NJSLEDs District Reports

District reports provide both student-level detail and high-level summaries based on a district’s data submissions. These reports are generated from the district’s most recent data uploads or official snapshot collections. They are designed to help review records, check data quality, and monitor trends, providing valuable insight into district submissions.

This document outlines the types of District Reports available in NJSLEDs and the timing of when each will be released, so you know what to expect as reports are launched.

District Reports

Name	Description	Date Available in NJSLEDs
Student List	View and filter a list of currently enrolled students by grade, demographics, or program participation.	TBD
Student Record	View the full history of an individual student, including demographics, enrollment, assessments, and program participation.	TBD
Out of District	View students placed in educational settings outside of their home district, including classification and placement information.	September 18, 2025
Performance Reports Submission Report	View the Performance reports narrative	September 22, 2025
Special Education Report	View students receiving special education services by classification, service, and placement.	TBD
High School Graduation Cohort Profile	Summary of district-level graduation outcomes across 4-, 5-and 6-year cohorts.	October 14, 2025
Graduation Student-Level Report	Summary of district-level graduation outcomes across 4-, 5-, and 6-year cohorts	October 14, 2025

District reports will be available in NJSLEDs under the Reports tab, accessible directly from the homepage after you log in.
