Foreword

This handbook provides guidance on collecting and submitting data to the New Jersey Department of Education's (NJDOE) statewide longitudinal education data system. It outlines the required format and specifies the data elements that must be collected. The NJDOE will compile this information into a standardized dataset for various essential purposes.

- Complying with federal and state requirements
- Ensuring that each school district receives all the funding it is entitled to
- Identifying trends and areas of focus for future initiatives

The Staff Management Handbook is intended to support the year-round management of Statewide Staff Members and collect reliable and valid data intended for school, district, and state educators to make appropriate, cost-effective and timely decisions about staff and school performance. The handbook provides definitions and standards for educational data, aiming to ensure that staff management information is uniform, consistent, and easy to understand, as quality information relies on these elements.

The NJDOE collects staff data to ensure compliance with state and federal requirements, improve the quality of the teaching workforce, support equitable access to highly qualified educators, and guide workforce planning and professional development. This data helps inform decisions about staffing, recruitment, retention, and resource allocation, ultimately working to improve educational outcomes for students across New Jersey.

How to Use this Handbook

This handbook is a valuable resource to share with your data provider or in-house data administrator to ensure that the information you receive from them matches the data requirements set by the NJDOE. Submitting accurate data now minimizes future errors, therefore saving time and effort later.

Executive Summary

The growing need for comprehensive, accurate, timely data on our state's schools, staff, and students calls for a technology-based solution that can provide better information to all stakeholders, simplify complicated data reporting requirements, and increase administrative efficiency. The New Jersey Statewide Longitudinal Education Data System (NJSLEDS) was created to meet this need.

The system enables compliance with the increasingly intensive regulatory requirements driven by legislation such as the No Child Left Behind Act, the Individuals with Disabilities Education Act, and the Every Student Succeeds Act. The system also provides the data that helps drive improvements and monitor progress toward key goals and ensures that our state's educational institutions get the funding they need to continue to meet the needs of New Jersey's students.

Periodically, schools are asked to provide specific data sets to ensure that the information in the system remains timely and up to date. This handbook is designed to support administrators and their partners as they gather and submit this information to the system.

Privacy and Security

The NJDOE prioritizes privacy and security. To protect district data, it employs an audit trail to monitor activities, detect breaches, and ensure proper use. Only registered and authorized users, authenticated through a secure login platform can access the system. Data is segmented by districts, so users only see information relevant to their educational interest. All data will be secured to maintain confidentiality and integrity. Illegal access or downloads will result in prosecution.

Data Certification Statement

By submitting data to the New Jersey Department of Education (NJDOE), districts acknowledge and confirm the following:

- The submitted data has been thoroughly reviewed for accuracy and approved by all appropriate district and local staff.
- All known issues and discrepancies have been resolved or documented, and the data reflects the most accurate and complete information available at the time of submission.
- The district understands that certified data will be used for official NJDOE purposes, including federal, state, and public reporting; accountability determinations; and funding decisions.
- Submission of data is considered a formal certification that the information is accurate.

Knowingly submitting inaccurate or incomplete data may result in follow-up or corrective actions by the NJDOE.

Data Elements and Definitions

This Staff Management Submission Handbook includes data elements that are currently collected and maintained by schools, districts, and the NJDOE. Not all data elements are relevant to each staff member (e.g., a person may not have a middle name). It is important to understand how each definition is implemented. In those situations where the implementation of a definition is not clear it should be reported to NJSLEDS so that a collaborative resolution can be reached.

The following information is provided for each data element in the Staff Management Data Handbook:

- **Name of Data Element:** The data element name used within the NJDOE longitudinal education data system.
- **Definition of Data Elements:** A brief description of the data element.
- **Functional, Policy or Legal Description:** The rationale for collecting the data element, and how the data element will be used. Other policy and legal implications for its collection.
- **CEDS Mapping:** An indication of how the NJSLEDS data element maps to Common Education Data Standards (CEDS).
- **Is This Data Element Required:** Indication of whether the data element is required for file submission.
- **Acceptable Values:** Indication of the data type, minimum and maximum number of characters permitted, and lists values and ranges accepted for each element.
- **Validation Checks:** Specific data validation that will occur with respect to each data element.
- **Additional Notes:** Additional relevant notes about the data element.
- **Common Errors:** Guidance on how to resolve common errors within NJSLEDS.
- **Warnings:** (if applicable) The warning message indicating that the data entered does not meet the standards outline by the NJDOE. Warnings are not considered validation errors.

LocalStaffIdentifier (LSID)

Definition of Data Element

A unique number or alphanumeric code assigned to a staff member.

Functional, Policy, or Legal Document

A local staff identifier (LSID) is assigned by the district and used to track staff members within a district over time and to keep staff information secure and confidential. Districts must assign the Local Staff Identifier for each staff member to receive a Staff Member Identification Number (SMID). This provides an additional matching field and an efficient way for the NJDOE to provide SMIDs to districts. This data element is used to verify the unique identification of the staff member.

CEDS Mapping

Local Education Agency Identifier

Is this Data Element Required?

This field is mandatory for all staff members.

Acceptable Values

Type: Alphanumeric

Minimum Length: 1

Maximum Length: 20

Validation Checks

- An error will occur if this field is left blank.

Additional Notes

- N/A

Common Errors

Error Message: Staff member with the same LSID exists in the LEA.

Resolution: Determine which staff member should have that LSID number. For the staff member with the incorrect LSID, reupload the record(s) in error with the correct LSID number and the record will go into Unresolved. From the ID Management tab, click on the Associate button and the new LSID will take precedence over the old LSID.

Warnings

N/A

StaffMemberIdentifier (SMID)

Definition of Data Element

A unique number assigned and maintained by the New Jersey Department of Education that is unique for each staff member over time.

Functional, Policy, or Legal Document

In order to track within and across districts over time, the NJDOE will assign a unique 8-digit number to all staff members employed in a New Jersey public school district. After the initial assignment of staff member identification numbers (SMID), districts will be required to verify or obtain an identification number whenever a new staff member enters the district.

CEDS Mapping

Staff Member Identifier

Is this Data Element Required?

This field is mandatory for all staff members.

Acceptable Values

Type: Numeric

Minimum Length: 8

Maximum Length: 8

Validation Checks

- The Staff Member Identifier must be a valid number issued by NJSLEDS or an error will occur.

Additional Notes

- Staff members who are employed by two or more districts should be submitted to Staff Management by each district unless the staff members are paid by District A and are sent out to District B. In this scenario, District A should submit this staff member to Staff Management and District B should not report this staff member.
- Please see the [Staff Management Reporting Responsibilities](#) for more information.

Common Errors

Error Message: This field cannot be left blank for exited staff members.

Resolution: Before inactivating a staff member, make sure a SMID number was issued. If that staff member does not have a SMID number, correct all the errors regarding that staff member, and a SMID number will be generated. Once the SMID number is issued, inactivate the staff member with the correct codes. If the staff member was never Active in the district and a SMID was not assigned, the record should be deleted.

Warnings

N/A

SocialSecurityNumber

Definition of Data Element

The nine-digit number of identification assigned to the individual by the Social Security Administration.

Functional, Policy, or Legal Document

This data element is used to establish the identity of certificated staff members.

CEDS Mapping

Social Security Number

Is this Data Element Required?

This field is mandatory for all staff members who hold a certificate.

Acceptable Values

Type: Character

Minimum Length: 11

Maximum Length: 11

Validation Checks

- SocialSecurityNumber must be entered in XXX-XX-XXXX format.
- SocialSecurityNumber cannot allow for 666 or 000 as the area numbers (first 3), 00 as the group number (second 2), or 0000 as the serial numbers (last 4).
- 900-999 are also restricted from being used as the area numbers.

Additional Notes

- Only staff members with a certificate should have a SocialSecurityNumber filled in. It is optional for all other staff members.
- The valid Social Security Number of the staff member must be collected.

Common Errors

N/A

Warnings

N/A

NamePrefix

Definition of Data Element

An appellation, if any, used to denote rank, placement, or status (e.g., Mr. Mrs, Reverend, Sister, Dr, Colonel).

Functional, Policy, or Legal Document

This data element is used to establish the identity of staff members.

CEDS Mapping

Personal Title or Prefix

Is this Data Element Required?

This field is optional for all staff members.

Acceptable Values

Type: Character

Minimum Length: 1

Maximum Length: 10

Validation Checks

- Periods are not accepted in the NamePrefix field. No punctuation should be included.

Additional Notes

- While NamePrefix is an optional data element, the district should use this data element to differentiate among staff members who would otherwise have the same name and birth information.

Common Errors

N/A

Warnings

N/A

FirstName

Definition of Data Element

A name given to an individual.

Functional, Policy, or Legal Document

This data element is used to establish the identity of staff members.

CEDS Mapping

Is this Data Element Required?

This field is mandatory for all staff members.

Acceptable Values

Type: Alpha

Minimum Length: 1

Maximum Length: 30

Validation Checks

- An error will occur if this field is left blank.

Additional Notes

- No nicknames or abbreviated names should be reported. Periods are not accepted in the FirstName field. Other special characters such as apostrophes and hyphens are accepted.
- First name and last name must be reported as separate fields.

Common Errors

N/A

Warnings

"FNU" should not be entered for a staff member with an unknown First Name. If First Name is unknown, please enter "Unknown" for this field.

MiddleName

Definition of Data Element

A secondary name given to an individual.

Functional, Policy, or Legal Document

This data element is used to establish the identity of staff members.

CEDS Mapping

Middle Name

Is this Data Element Required?

This field is optional for all staff members.

Acceptable Values

Type: Alpha

Minimum Length: 1

Maximum Length: 30

Validation Checks

- First Name, Middle Name, and Last Name must be reported as three separate fields. Middle initial (no period permitted) or full middle name are accepted. Apostrophes and hyphens are accepted.

Additional Notes

- While Middle Name is an optional field, if the district maintains this data element it should be reported to support unique identification of the staff member.

Common Errors

N/A

Warnings

N/A

LastName

Definition of Data Element

The name borne in common by members of a family.

Functional, Policy, or Legal Document

This data element is used to establish the identity of staff members.

CEDS Mapping

Last or Surname

Is this Data Element Required?

This field is mandatory for all staff members.

Acceptable Values

Type: Alpha

Minimum Length: 1

Maximum Length: 50

Validation Checks

- Periods are not accepted in the LastName field. Other special characters such as apostrophes and hyphens are accepted.
- An error will occur if this field is left blank.

Additional Notes

- First Name, Middle Name, and Last Name must be reported as three separate fields.
- Staff members with multiple last names should include multiple last names in this field. Hyphens are acceptable if they are part of the staff member's legal name, place both last names in this field. Example: Jenny R Smith-Jones would be Last Name = "Smith-Jones" while John F Davis Smyth would be Last Name = "Davis Smyth".

Common Errors

N/A

Warnings

"LNU" should not be entered for a staff member with an unknown Last Name. If Last Name is unknown, please enter "Unknown" for this field.

GenerationCodeSuffix

Definition of Data Element

An appendage, if any, used to denote an individual's generation in his family (e.g., Jr, Sr, III).

Functional, Policy, or Legal Document

This data element is used to establish the identity of staff members.

CEDS Mapping

Generation Code or Suffix

Is this Data Element Required?

This field is optional for all staff members.

Acceptable Values

Type: Alpha

Minimum Length: 1

Maximum Length: 4

Validation Checks

- No punctuation should be included.

Additional Notes

- Leave blank if not available or does not exist.
- While GenerationCodeSuffix is an optional data element, the district should use this data element to differentiate among staff members who would otherwise have the same name and birth information.

Common Errors

N/A

Warnings

N/A

FormerName

Definition of Data Element

The previously recognized or legally accepted name of the individual.

Functional, Policy, or Legal Document

This data element is used to establish the identity of staff members.

CEDS Mapping

Other Name

Is this Data Element Required?

This field is optional for all staff members.

Acceptable Values

Common Errors

N/A

Warnings

N/A

DateOfBirth

Definition of Data Element

The year, month, and day on which an individual was born.

Functional, Policy, or Legal Document

This data element is used to establish the identity of staff members.

CEDS Mapping

Birthdate

Is this Data Element Required?

This field is mandatory for all staff members.

Acceptable Values

Type: Date

Minimum Length: 8

Maximum Length: 8

Validation Checks

- An error will occur if the format does not include a four-digit year followed by a zero-filled two position month, followed by a zero-filled two position day (i.e. 20010128 for January 28, 2001).
- An error will occur if this field is left blank.

Additional Notes

- Date must be in YYYYMMDD format. Do not include any separators such as "/" or "-".

Common Errors

Error Message: Date cannot be in the future.

Resolution: This date must be a valid date of birth, not a date in the future. Check to make sure the dates are correct, and there are no typos in the date format.

Error Message: Staff member age is outside of reasonable parameters.

Resolution: Year of Birth must be a valid year inside of reasonable parameters. Please check the date of birth year to make sure it matches the age of the Staff Member. A Staff Member cannot be older than 105 and cannot be younger than 14 years of age.

Repeating Data Elements

Some staff members may have multiple roles within an LEA or work at multiple locations. To accommodate the reporting of the multiple roles or locations, the following elements must be repeated 6 times in the file submitted to NJSLEDS, followed by number 1 through 6:

- CountyCodeAssigned
- DistrictCodeAssigned
- SchoolCodeAssigned
- FullTimeEquivalency
- JobCode
- JobCodeSubcategory
- AgeGroupTaught
- CredentialType

Note: These data elements, as appropriate, must be submitted once for all staff members. If a staff member fulfills another role (i.e., has another job code) or works the same role at multiple locations, additional data must be provided specific to that role/job code. The additional data only needs to be submitted if the staff member fulfills another role or works in multiple locations. However, the data elements still must be repeated 6 times in the files (e.g., CountyCodeAssigned1, DistrictCodeAssigned1, SchoolCodeAssigned1, etc.; CountyCodeAssigned2, DistrictCodeAssigned2, SchoolCodeAssigned2, etc.) even if the additional five iterations are not needed. If the staff member fulfills one role (i.e., has only one job code) at a single location, blank values are acceptable in the additional five iterations.

Validation Checks

- An error will occur if the codes do not conform to the NJDOE codes listed.
- An error will occur if the field is left blank.

Additional Notes

- If a staff member has assignments in multiple locations, report the staff member's assignments (i.e., job code and FTE associated with the job code) separately so that the combination of county, district and school codes for each school or institution in which the staff member is assigned is reported.
- As staff members may have multiple assignments, this element will appear in the portal as: CountyCodeAssigned1, CountyCodeAssigned2, CountyCodeAssigned3, CountyCodeAssigned4, CountyCodeAssigned5, CountyCodeAssigned6.

Staff Full Time Equivalency

Is this Data Element Required?

This field is mandatory for all staff members.

Acceptable Values

Type: Numeric

Minimum Length: 3

Maximum Length: 3

- 0.01 to 1.00

Validation Checks

- Value must be reported in hundredths.
- An error will occur if the field is left blank.

Additional Notes

- To calculate, take [hours of work expected in the position], divide by [hours of work normally expected in a full time position in the same setting], and round to the nearest hundredths.
- Example: [30 hours of work expected] divided by [40 hours expected in a full time position] = 0.75.
- Report the Full Time Equivalency (FTE) of the staff member associated specifically with the job code. For instance, if the staff member serves as both principal and superintendent, each half-time, report 0.50 FTE for each job code.
- As staff members may have multiple assignments, this element will appear in the portal as: FullTimeEquivalency1, FullTimeEquivalency2, FullTimeEquivalency3, FullTimeEquivalency4, FullTimeEquivalency5, FullTimeEquivalency6.

Common Errors

Error Message: FullTimeEquivalency1 through 6 should not add up to a value greater than or equal to 2.00.

Resolution: FullTimeEquivalency1 + FullTimeEquivalency2 + FullTimeEquivalency3 + FullTimeEquivalency4 + FullTimeEquivalency5 + FullTimeEquivalency6 cannot be equal to or greater than 2.00. Check the values in the FTE fields and make sure they do not surpass the value of 2.00. If unsure how to calculate FTE, check the Additional Notes section for more information.
