

Staff and Student Course Roster Submission in NJSLEDS

NJSLEDS Project Team
Office of Data Management

Updated: March 2026

Webinar Housekeeping

Our goal is to make sure you can actively participate and have your questions answered.

How to ask a question:

To use live captions:

1. Click on the “More” option along the Teams webinar control panel (top of your screen).
2. Click on “Language and speech” and then “Show live captions.”

Agenda

- Key Resources and Overview of Course Roster Submissions
- Understanding Course Roster Requirements
- Course Roster Submission Process
- Errors and Resolution

NJSLEDS Resources for Course Roster Submissions

Where to Find Resources

The NJSLEDS Homepage links users to important updates and information occurring within NJSLEDS.

The NJSLEDS User Resources Page is a comprehensive hub for managing data submissions effectively. Detailed resources are available on individual submission pages.

The NJSLEDS Trainings and Webinars Page provides links to recorded training sessions, descriptions, and details on how to join live webinars. Live sessions will be available throughout the school year.

The NJSLEDS Key Documents Page is the primary resource for accessing essential materials related to the system. This page ensures districts have the tools they need to navigate and fulfil their data reporting obligations effectively and efficiently.

The NJSLEDS News Page keeps you informed on the latest developments, key milestones, and updates.

Student and Staff Course Roster Submission Data Handbooks

The Student Course Roster Submission Data Handbook and Staff Course Roster Submission Data Handbook are required resources available on the NJSLEDS User Resources website. All districts must refer to it when preparing submissions.

Before submitting:

- Review all definitions, notes, and common errors.
- Understand that not every data element is required for every submission.
- Be clear on how each element should be implemented.

To support accurate, compliant data submissions:

- Share the handbook with your data coordinator or data administrator.
- Ensure that the data you collect aligns with NJDOE requirements.
- Review your data for accuracy—clean data now means fewer errors and saved time later.

If a definition is unclear or difficult to apply in your context, please contact the NJSLEDS Help Desk by using the "Contact Help Desk" button on the NJSLEDS system homepage. We're here to help.

Course Roster Templates

The Student and Staff Course Roster templates are a key component of the data reporting processes.

The purpose is to help you manage and report data to meet state and federal requirements.

We provide these templates to collect core data for course roster submissions and ensure that districts report consistent and accurate data in compliance with the law.

These templates can be found under the Course Roster User Resources on the NJSLEDS User Resources website. Please note these templates must be saved as .CSV UTF-8 files to be uploaded into NJSLEDS.

How to Contact the Help Desk

The NJSLEDS Help Desk is available Monday through Friday from 8:00 AM to 5:00 PM at (609) 376-3970.

Web Form: *Preferred* Use the Contact Help Desk button in the NJSLEDS system homepage to submit a web form ticket.

Provide your full name, district/school code, and reason for inquiry.

Refer to your case number and confirmation email sent by NJSLEDS.

Course Roster Submissions Overview

Course Roster Overview

Course Roster Submission Data Usage

Course Roster Submission Overview

NJSLEDS collects one Course Roster Submission per school year and is submitted after the close of the school year from July 2-August 2, 2026.

Both the Staff and Student Course Roster data should reflect all courses taught during the school year

All Local Education Agencies (LEAs) must submit: Student Course Records for all students attending their district **AND** Course Records for Teachers/Co-Teachers of Record assigned to their district

Course Roster Submission Dates and Deadlines

School Year 2025-2026	Action
April 1, 2026-June 30, 2026	Practice Submission Period
July 2, 2026-August 2, 2026	Official Course Roster Submission Period

**** After the practice period is over, we will clear any practice data on June 30th at 5:00 pm. If users are confident with their data, they can export their file and then re-upload during the official submission period.**

Submission Process Overview

Course Roster Submission Overview

- For the 2025-2026 Course Roster Submission, a district should only submit information for courses taught in the 2025-2026 School Year
- All staff submitted to Staff Course Roster **MUST** appear in current Staff Management records
- All attending students in your district **MUST** be submitted to Student Course Roster regardless of whether your district reports the student in the Student Management Submission
- Both active and inactive student and staff records are reported to the Course Roster Submission

Understanding Course Roster Data and Reporting Requirements

Course Roster Submission Reporting Requirements:

Special Schools & Agencies

The Course Roster Submission has specific reporting requirements for special schools and agencies as outlined below:

Required to Submit:

- Special Services School Districts (SSSDs)

Not Required to Submit:

- Approved Private Schools for Students with Disabilities (APSSDs)
- Nonpublic Locations
- Educational Services Commissions (ESCs)
- Department of Children and Families (DCF)

Course Roster Submission Reporting Requirements

The following types of courses must be reported, based on who teaches the course and where instruction takes place.

Collected Courses

- Standard courses taught by a single teacher assigned to your district
- Standard courses taught by co-teachers assigned to your district
- Remote courses physically attended by students off-site (location other than at another LEA) that are taught by staff **not** assigned to your district
- College level dual enrollment/dual credit courses taught by staff **not** assigned to your district
- College level dual enrollment/dual credit courses taught by staff assigned to your district
- Online courses taught by staff **not** assigned to your district

Creating the Student-Teacher Link

To correctly link students and teachers in the Course Roster Submission, follow these steps:

- 1) Map all courses in your Student Information System (SIS)
- 2) Make sure the teacher and all students in a course share the same course identifiers, including: Local Course Code, Course Title and Section, NSLEDS SCED code, Course Level, Grade Span and Course Sequence
- 3) Confirm the assigned teacher/co-teacher is fully responsible (100%) for the course
- 4) Report every student enrolled in that course section using the same matching identifiers

When all course identifiers match, the system can successfully create the student-teacher link.

How to Determine a SCED Code for a Course

Use the [NJSLEDS SCED Code and SCED Course Identifier List](#)

Course Reporting Guidelines

Transcript Data

- If a course appears on a student's transcript/report card and offers credits, then it must be reported.
- Courses that don't clearly fit one subject area can usually be found in the Miscellaneous section of the SCED codes manual
- For Secondary Courses where students do not receive a grade, report the Available Credit as 0.000
- AP and IB courses have their own specific SCED codes and must be reported using those codes
- Structured Learning Experiences (SLEs) should be reported using a SCED Course code that ends with 48 or 98

Additional Course Roster Considerations

Reporting Students Who Leave My District Without Completing a Course

- Inactive student records are allowed in the Course Roster Submission
- Students who left the district before completing a course do not have to be reported, unless the district chooses to include them (report “NG” -no grade- in the Completion Status field)
- Important: Any Inactive students who completed a course must be reported even if they are no longer enrolled in the district

Teacher on Leave and Substitutes

- If a teacher goes on temporary leave (illness, sabbatical, maternity leave, etc.) and a long term or permanent sub comes in, both the teacher on leave and the substitute should be reported to the Course Roster Submission
- Long-term substitutes are certified by the state (Standard/CE/CEAS) and work in place of a teacher for 20 or more consecutive days
- When reporting a teacher who leaves a course section due to temporary leave, be sure to include the Section Exit Date

Grade Span Field and Self-Contained Classes

Grade Span and Subject Area Basics

- Grade Span is required for all Prior-to-Secondary courses
- 4-character alphanumeric code (no decimals)
- Shows the intended placement of the course, not student grade levels:
 - Ex. K-1 course KG01
 - Ex. Grade 2 only 0202
- Self-Contained K–5 Courses with no single subject Subject Area 73

Section Entry Date and Section Exit Date

- All student and staff members should have a Section Entry Date and a Section Exit Date
- These dates are specific to the unique student / staff member

Example of a Staff leaving Mid-Year

Teacher A	How to Report
Enters Course: September 2nd	Section Entry Date: 20240902
Exits Course: December 2nd	Section Exit Date: 20241202

Example of a Staff member returning in May

Teacher A	How to Report
Enters Course: May 1st	Section Entry Date: 20250501
Exits Course: June 18th	Section Exit Date: 20250618

Report each entry and exit date, not just the most recent. We should be tracking the entire journey.

Combination Errors

Certain required fields in Student Management/Staff Management must match in the Course Roster Submission, or the record will error.

Staff File

	Staff Management		Course Roster Submission
LSID	123	✓	123
SMID/SID	1111111111	✓	1111111111
Date of Birth	19790303	✓	19790303
First Name	Jack	✗	Jackson
Last Name	Smith	✓	Smith

Student File

	Student Management		Course Roster Submission
SMID/SID	2222222222	✓	1111111111
Date of Birth	20100302	✗	20101502
First Name	Jane	✓	Jane
Last Name	Doe	✓	Doe

Note: LID is not shown for the student file since the validation for Course Student does not include LID

Course Roster Submission Steps

Ensure Student and Staff Management matches Course Roster Data

Before submitting your Course Roster file, you must ensure a current Student and Staff Management file is in NJSLEDS.

Instructions

- Pull current Student and Staff Management records for all students and staff who will be reported for Course Roster.
- Ensure that the Student and Staff Management files match your Course Roster file, **PRIOR** to submitting your Course Roster file.

Why this matters:

- Course Roster records are validated against what's currently in Student and Staff Management.
- Missing or outdated Student and Staff Management records will result in submission errors.

Preparing Your Course Roster Upload

Templates are provided on the NJSLEDS website to help districts accurately format and submit Staff and Student Course Roster data. Select the template that aligns with your source information system (SIS).

- [Staff Course Roster Template A \(with headers and dropdowns\)](#)
- [Staff Course Roster Template B \(headers only\)](#)
- [Student Course Roster Template A \(with headers and dropdowns\)](#)
- [Student Course Roster Template B \(headers only\)](#)

Submission Uploads

The **Submission Upload tab** allows users to quickly and securely upload data files directly into the system.

Click on the "Submission Records" tab and select "Student or Staff Course Roster".

Users can use filters on the left navigation to sort and filter the data displayed.

Users can download the report using the "Export" button. The export will include any filters that were applied.

Identifying and Resolving Submission Errors

Steps to Fix Errors

Filter to Error Records: In the NJSLEDS system, go to the “Submission Records” tab and filter your records to show only those with an “Error” status.

Export and Review: Export both your filtered Submission Records view and the Error Report. Use them together to identify which records need to be corrected.

Correct the Data in Your Source System: Log into your student information system (SIS) or other local source system and make the necessary data corrections at the source.

Re-Export Your Submission File: After corrections are saved in your source system, generate a new .CSV UTF-8 file.

Re-Upload the Correct File to NJSLEDS: Upload the updated file in the “Submission Upload” tab to confirm that the errors are resolved.

Repeat (*if needed*): Continue this process until all errors are cleared and your file has successfully processed.

The **Submission Records tab** allows users to export error reports and download onto their device if their submission contains errors.

X Student Course Roster Record Level Errors Error by Type **Export**

File ID	Level	Error Type	Data Element	LID	SID	First Name	Last Name	School Code Assigned	Subject Area	Course Identifier	Grade Span	Local Section Code	School Year	Error Count

70S0001	DONNA	PINCIOTTI	8							2024-2025	Field	Required	COURSEIDENTIFIER		This data element is required and cannot be blank or NULL	

Access your Downloads Folder on your device and open the file.

Click on Sort & Filter button to add filters on columns.

Navigate through sorted data to easily identify and resolve errors. Apply these changes to your SIS and re-pull your submission.

Please note: The error report layout will be different than the submission layout. It should only be used as a guide.

Thank You

nj.gov/education/sleds

Appendix

Reference: Prior-to-Secondary vs. Secondary SCED Codes

The Prior-to-Secondary NCES SCED codes do not tie to a student's progression toward a high school diploma

The Secondary NCES SCED codes are for those courses that will earn the student credit toward a high school diploma

- A course in high school can carry a Secondary SCED while not offering credit toward a diploma (i.e., an extra period to enhance study skills that carries no credit)
- If the course appears on the student's transcript for zero credits, the district can determine whether they want to report the course

Reference: Reporting Service Rosters

- Districts are not required to report service rosters in the Course Roster Submission
- Districts that opt to report service rosters can do so by creating a separate course section that is specific to the service being provided

Teacher A (Primary Teacher):

- Responsible for all students in the course
- Assign the main course section

Teacher B (Inclusion Teacher):

- Works cooperatively with Teacher A to provide services for a subset of students in course
- Assign additional course section with a different local section number

Reference: College Level Dual Enrollment

Reporting Students taking College Level Courses

If the college-level course is taught **within district by staff assigned to your district:**

- The course is reported with the best matching NCES SCED code
- The staff member(s) teaching the course are reported
- The students assigned to the course are reported
- **Course Type = C (for college level)**

If the college-level course is taught **at a college by staff not assigned to your district:**

- The course is reported with the best matching NCES SCED Code
- The staff member(s) teaching the course are **NOT** reported
- The students assigned to the course are reported
- **Course Type = C (for college level)**

A course Type C should only be used if there is an existing articulation agreement between the high school and a college or university

Reference: Course Roster Data Elements

LEAs will submit **two** types of files to the Course Roster collection

The first will contain staff-specific course data

The second file will contain student-specific course data
