

OSE Monitoring Data Collection Form

How to Complete the DCF

1. Complete one DCF, listing all OSE or LEA selected student records on that single form.
2. All sections of the DCF must be completed. Do not leave blank spaces on the DCF. Each indicator of the DCF must contain:
 - a. C if the indicator is compliant with that student record.
 - b. NC if the indicator is non compliant for that student records.
 - c. NA if the indicator does not apply to that student record.
3. Compile the required documentation for each DCF Priority Area for submission to the OSE.

How to Save and Submit the Record to OSE

There are **two types of records** that must be submitted to the Office of Special Education (OSE):

1. DCF Priority Area Records- one file for each monitoring priority area.
2. Student Specific Records- one file for each selected student record.

DCF Priority Area Records:

- Each DCF Priority Area must include the provided cover sheet as the first page.
 - a. Save your file for each **DCF Priority Area** as follows:
 - i. District Name_DCF_Monitoring Priority Area.pdf
 - example: ABCDistrict_DCF_1.pdf

Student-Specific Records:

- Each set of student-specific records must include the provided cover sheet as the first page.
 - a. Save your file for each **student-specific record** as follows:
 - i. District Name_Student Intials_Student SID_Monitoring Priority Area.pdf
 - example: ABCDistrict_SI_123456_1.pdf

Uploading Documents to NJ Homeroom:

- Upload all documents to NJ Homeroom using the following instructions:
 - a. Go to <http://homeroom.state.nj.us>
 - b. Click on "IDEA Monitoring" in the far-left column.
 - c. Log on by using your district code, user ID, and password.
 - i. If you do not have a user ID and password, contact your district Homeroom Administrator.

Behavioral Needs and Supports			
1. In the case of a child whose behavior impedes the child's learning or that of others, the IEP Team considers the use of positive behavioral interventions and supports and other strategies to address that behavior.			
2. At least one general education teacher participates in the determination of appropriate positive behavioral interventions and supports and other strategies for the student.			
Notification at the Time of Removal			
3. At the time of removal, written notification, including a description of the reasons for suspension, was sent to the case manager.			
4. At the time of removal, written notification, including a description of the reasons for suspension, was sent to the parent.			
Determining Whether the Removal Is a Change of Placement			
5. School personnel consider unique circumstances on a case-by-case basis when determining whether a change in placement is appropriate for a child with a disability who violates a code of student conduct.			
6. The district notifies the parent on the date in which the decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of a code of student conduct and provides the parents with the procedural safeguards notice.			
7. An interim alternative educational setting is determined by the IEP team when there is a change of placement.			

Discipline	Initials and Student ID	Initials and Student ID	Initials and Student ID
Services During the Removal			
8. During suspensions of more than 10 school days in a school year, regardless of the manifestation determination, students with disabilities receive services to enable them to participate in the general curriculum and to progress toward IEP goals.			
9. Students with disabilities who are removed from their current placement are provided services in an alternative setting to ensure continued participation in the general education curriculum.			
Manifestation Determination Review			
10. Within 10 school days of any decision to change the placement of a student with a disability because of a violation of a code of student conduct, the LEA, the parent, and relevant members of the IEP team meet to review all relevant information in the student's file, including the student's IEP, any teacher observations, and any relevant information provided by the parents.			
11. In making the manifestation determination, the IEP team reviews all relevant information in the student's file to determine if the conduct in question was caused by or had a direct and substantial relationship to the child's disability.			
12. In making the manifestation determination, the IEP team reviews all relevant information in the student's file to determine if the conduct in question was the direct result of the LEA's failure to implement the IEP.			
Actions Following the Manifestation Determination			
If the Conduct Was a Manifestation			
13. The district takes steps to remedy any deficiencies in the student's IEP or placement as identified by the manifestation team.			

Discipline	Initials and Student ID	Initials and Student ID	Initials and Student ID
14. The student is returned to the placement from which the student was removed if a determination is made that the conduct was a manifestation of the student's disability, unless the parent and the school district agree to a change of placement as part of the modification of the behavioral intervention plan.			
15. When a student has been removed for more than 10 days and the student's conduct is a manifestation of the student's disability, the IEP Team conducts a functional behavioral assessment and implements a behavioral intervention plan.			
16. If the student already has a behavioral intervention plan, the IEP Team meets to review the plan and its implementation and modifies the plan and its implementation, as necessary, to address the behavior that resulted in the disciplinary change of placement.			
If the Conduct Was Not a Manifestation			
17. School personnel apply relevant disciplinary procedures to students with disabilities in the same manner and duration as would be applied to students without disabilities when the district changes a student's placement for disciplinary reasons exceeding 10 consecutive school days and determined that the violation was not a manifestation of the student's disability.			
Functional Behavioral Assessment and Behavioral Intervention Services			
18. As appropriate, a functional behavioral assessment and behavioral intervention services and modifications are designed to address the behavior violation so that it does not recur for a child with a disability who is removed from the child's current placement.			
19. The LEA uses a variety of assessment tools and strategies to gather relevant functional developmental and academic information about the child, including information provided by the parent.			
20. Functional behavioral assessments are based on multiple sources of data, including but not limited to, information obtained from direct observation of the student, information from the student, the student's teacher(s) and/or related service provider(s), a review of available data and information from the student's record and other sources including any relevant information provided by the student's parent.			

Discipline	Initials and Student ID	Initials and Student ID	Initials and Student ID
Parent Participation in Placement Decisions			
21. If neither parent can participate in a meeting in which a decision is to be made regarding the educational placement of the child, the district uses other methods to ensure parent participation, including individual or conference calls or video conferencing.			
22. If a placement decision is made by a group without the involvement of a parent, the district maintains a record of the attempts to ensure their involvement.
