Goals for Today

- Background and History of Indicator 7
 - Overview of State Performance Plan/Annual Performance Report (SPP/APR)
- Review and Explore content of Preschool Outcomes
 - What are Preschool Outcomes?
 - Child Outcome Summary (COS) Process
 - Team Discussions
 - Child Outcome Summary Form (COSF)
 - Understanding the Rating Scale
 - Data entry (Homeroom)

Background and History of Indicator 7

Background

- U.S. Department of Education
Office of Special Education Programs (OSEP)
- \$500+ million – Preschool Special Education
 - Outcome measures help determine if federal funding through IDEA are making a difference for young children with disabilities and their families.

State Performance Plan/Annual Performance Report

- 17 indicators
 - measure child and family outcomes and measure compliance with the requirements of the IDEA
- State identified targets for performance indicators based on data and feedback from stakeholders throughout the state
- Focus today is on Indicator 7: Preschool Outcomes

Collect Meaningful Data for Preschoolers with Disabilities

Programs

Local Preschool Program

- Collects data in common format on three outcomes & reports data to the state
- Uses data for program improvement

State Agency

State Agency – New Jersey DOE

- Generates reports for US Department of Education
- Uses data for program improvement

Federal Government

US Department of Education - Office of Special Education

- Summarizes data to produce a national picture
- Reports data to Congress

History of Indicator 7

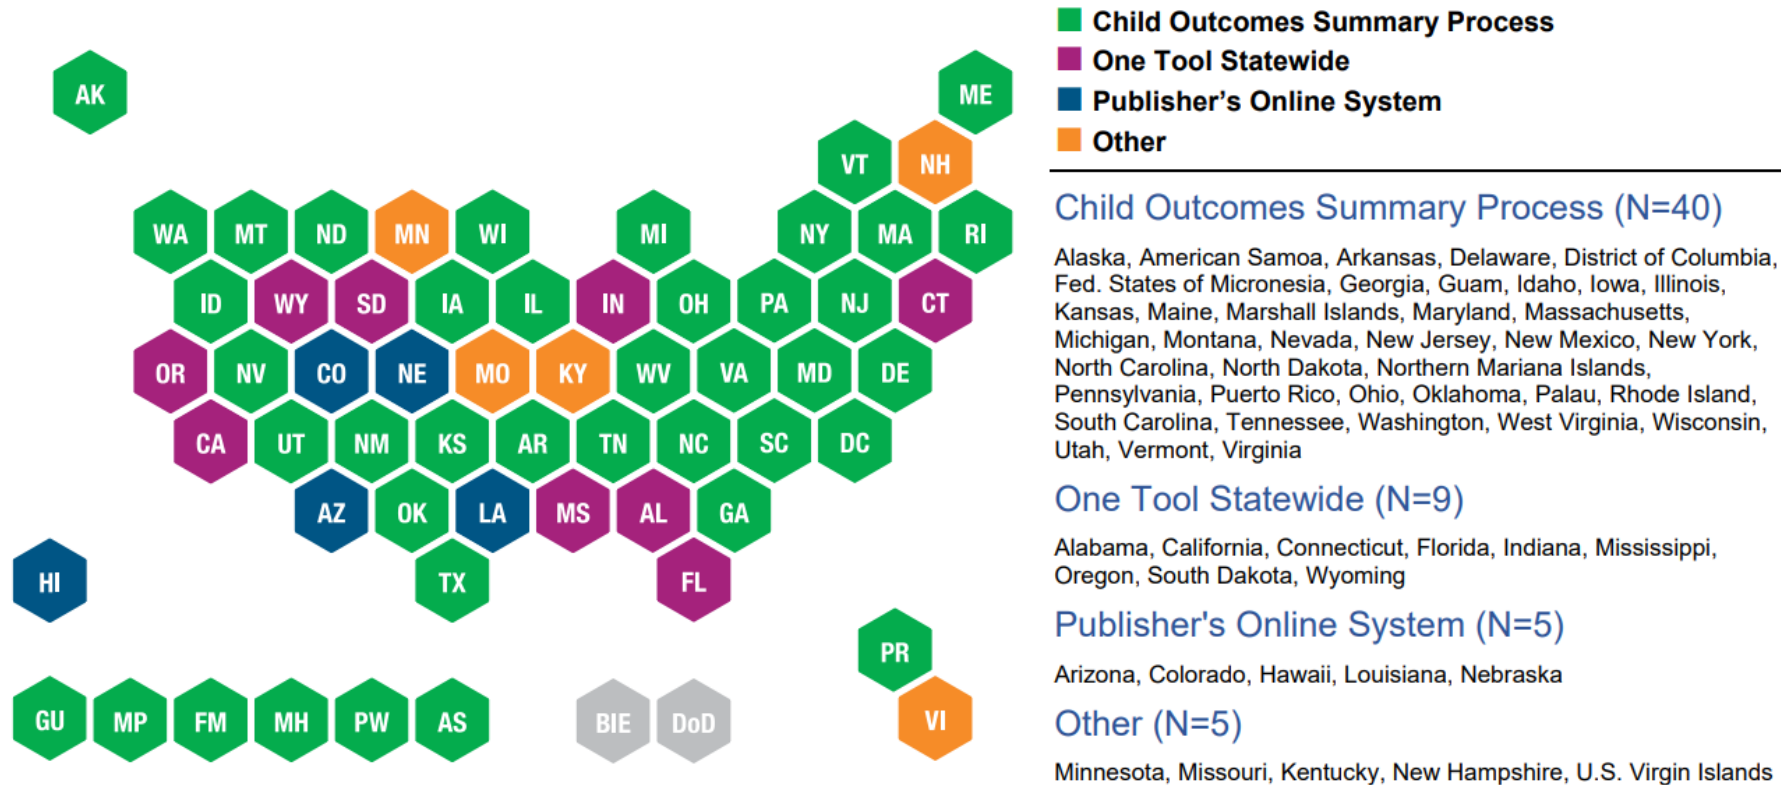

- Required the Battelle Developmental Inventory-2 to be implemented upon entry into preschool and exit from preschool
- Based upon stakeholder feedback, in 2019-2020 introduced the Child Outcomes Summary (COS) process to a pilot of 9 districts statewide
- Planned to roll it out statewide via 3 cohorts – this is cohort 2

State Approaches to Child Outcomes Measurement: Part B APR Indicator 7 FFY 2019 (2019-2020)

Most states use the [Child Outcomes Summary Process](#), a team process for summarizing information about a child's functioning across multiples sources.

Updates to this material can be found online at <https://ectacenter.org/eco/pages/childoutcomes.asp#stateapproaches>

<https://ectacenter.org/~pdfs/eco/child-outcomes-state-approaches-partb-apr-ind7-ffy2019.pdf>

What are Preschool Outcomes?

Indicator 7: Preschool Outcomes

Percent of preschool children aged 3 through 5 with IEPs (Individualized Educational Program) who demonstrate improved:

- A. Positive social-emotional skills (including social relationships)
- B. Acquisition and use of knowledge and skills (including early language/communication and early literacy)
- C. Use of appropriate behaviors to meet their needs

Benefits of the COS Process

- No assessment instrument assesses the three outcomes directly
- Recommended assessment practice is to use multiple sources of information
- Different programs use different assessment instruments, and outcome data need to be summarized across programs

Child Outcome Overview Video

Child Outcomes Step by Step

How do you see the three outcomes incorporated into the daily routines of your programs for preschoolers with disabilities?

1. Children have positive social-emotional skills (including social relationships)
2. Children acquire and use of knowledge and skills (including early language/communication and early literacy)
3. Children use appropriate behaviors to meet their needs

Outcome A: Children Have Positive Social Relationships

Involves

- Relating with adults
- Relating with other children
- For older children, following rules related to groups or interacting with others

Includes

- Attachment/separation/autonomy
- Expressing emotions and feelings
- Learning rules and expectations
- Social interactions and play

Outcome B: Children Acquire and Use Knowledge and Skills

Involves

- Thinking and reasoning
- Remembering
- Problem solving
- Using symbols and language
- Understanding the physical world

Includes

- Imitation
- Early concepts—symbols, pictures, numbers, classification, spatial relationships
- Expressive language and other communication
- Early literacy and numeracy

Outcome C: Children Take Appropriate Action to Meet Their Needs

Involves

- Taking care of basic needs
- Getting from place to place
- Using tools (e.g., fork, toothbrush, crayon)
- In older children, contributing to their own health and safety

Includes

- Integrating motor skills to complete tasks
- Self-help skills (e.g., dressing, feeding, grooming, toileting, household responsibility)
- Acting on the world to get what one wants

Outcomes Reflect Global Functioning

Rather than

- Skill by skill
- Split by domains

The three outcomes reflect

- The integration of multiple skills
- Functioning across settings and situations

Child Outcomes Summary (COS) Process

What is the COS Process?

A team process for summarizing information on a child's functioning in each of the three child outcome areas

Features of the COS

- Uses information from multiple sources to describe how a child is functioning
- Relies on team-based discussion and decision-making
- Uses a 7-point rating scale to describe the child's functioning across settings and situations
- Is completed upon program entry and exit

The Child Outcomes Summary (COS) Process: Entry

Child qualifies for preschool special education services and receives an Individualized Educational Program (IEP)

Throughout the first few weeks of the child entering the program, data is collected about the child's functioning across settings and situations

COS Team meets to discuss, complete the COS Form and assign a rating (1-7) for each of the three indicator outcomes (to be completed within 60 days of child starting services)

Entry data is entered into the Homeroom Application at minimum 2X year (December and June)

The Child Outcomes Summary (COS) Process: Exit

For children that participated in entry data collection: As they exit the program, data is collected about the child's functioning across settings and situations

COS Team meets to discuss, complete the COS Form and assign a rating (1-7) for each of the three indicator outcomes and complete progress question with notes as to why the child has or has not made progress in the area (to be completed within 60 days of child exiting services)

Exit data is entered into the Homeroom Application at minimum 2X year (December and June)

When to Complete the COS Process

ENTRY

Upon becoming
eligible for special
education as a
Preschooler with a
Disability
(within 60 days)

EXIT

From a preschool
program as a
Preschooler with a
Disability
(within 60 days)

Team Discussions

The Child Outcomes Summary (COS) Process: Entry

Child qualifies for preschool special education services and receives an Individualized Educational Program (IEP)

Throughout the first few weeks of the child entering the program, data is collected about the child's functioning across settings and situations

COS Team meets to discuss, complete the COS Form and assign a rating (1-7) for each of the three indicator outcomes (to be completed within 60 days of child starting services)

Entry data is entered into the Homeroom Application at minimum 2X year (December and June)

Information Collection

Multiple Sources of Information

- Family
- Teachers
- Child Study Team Members
- Related Service Providers
- Early Intervention Providers
- Childcare providers
- Other people familiar with the child

Multiple Methods

- Curriculum-based assessment
- Norm-referenced assessment
- Developmental screening tool
- Observation across settings and situations
- Family report

The COS process produces a synthesis of information.
It is not an assessment.

Team-Based Discussions & Decision-Making

- Team of people knowledgeable about the child:
 - Family
 - Teachers
 - Case Manager
 - Child Study Team Members
 - Therapists

Discuss the child's functioning across a variety of settings and situations

Necessities for Team Discussions

- Share the same understanding of the three outcomes
- Each member has the same opportunity to thoroughly describe the child's functioning
- Agree on the age-anchoring of skills
- Revisit/review the definitions or criteria for the ratings being considered

Age Anchoring of Skills

Age-expected

Immediate
Foundational

Foundational

Key Questions for COS Team Discussion

- What skills and behaviors does the child use?
- In what settings and situations?
- How often is the child using those skills and behaviors?
What supports are needed for the child to use them?
- Are these skills and behaviors that we expect of a child this age?
- Are there skills or behaviors that we would expect a child this age to use that this child is not yet using?

Forms to Guide the Team Discussion

- Rating Definitions
- Decision Tree
- Family Guide
- Breadth of the Outcomes
- Child Outcomes Summary Form

Rating Definitions

Rating is based on the child's functioning across settings and situations

Child's functioning is compared with what is expected for the child's age

The Center for IDEA Early Childhood Data Systems

The Early Childhood Technical Assistance Center

Definitions for Child Outcomes Summary (COS) Ratings

Overall Age-Appropriate	7	<ul style="list-style-type: none">Child shows functioning expected for his or her age in all or almost all everyday situations that are part of the child's life.No one on the team has concerns about the child's functioning in this outcome area.
	6	<ul style="list-style-type: none">Child's functioning generally is considered appropriate for his or her age, but there are some significant concerns about the child's functioning in this outcome area.Although age-appropriate, the child's functioning may border on not keeping pace with age expectations.
Overall Not Age-Appropriate	5	<ul style="list-style-type: none">Child shows functioning expected for his or her age some of the time and/or in some settings and situations.Child's functioning is a mix of age-expected and not age-expected behaviors and skills.Child's functioning might be described as like that of a slightly younger child.
	4	<ul style="list-style-type: none">Child shows occasional age-appropriate functioning across settings and situations.More functioning is not age-expected than age-expected.
	3	<ul style="list-style-type: none">Child does not yet show functioning expected of a child of his or her age in any situation.Child uses immediate foundational skills most or all of the time across settings and situations.Functioning might be described as like that of a younger child.
	2	<ul style="list-style-type: none">Child occasionally uses immediate foundational skills across settings and situations.More functioning reflects skills that are not immediate foundational than are immediate foundational.
	1	<ul style="list-style-type: none">Child does not yet show functioning expected of a child his or her age in any situation.Child's functioning does not yet include immediate foundational skills upon which to build age-appropriate functioning.Child's functioning might be described as like that of a much younger child.

PACER CENTER
CHAMPIONS FOR CHILDREN WITH DISABILITIES

A Family Guide to Participating in the Child Outcomes Measurement Process

Introduction

As a parent of a young child who is in an early intervention (EI) or early childhood special education (ECSE) program, you want to be sure these services are helping your child develop and learn. These services are designed to make the most of each child's potential, as well as to strengthen the family's ability to help their child. However, in what ways can you determine if your child's program is meeting his or her needs?

One way to learn more about your young child's progress is through three "child outcomes" that are measured for every child in the United States who participates in an early intervention or early childhood special education program. These outcomes will help you know how well your child is developing and participating in activities at home, at school, or in the community. In addition to helping you measure your child's individual progress, these outcomes are also used to measure how well your child's early intervention or early childhood special education program is serving all children who are enrolled.

By participating in the outcome process, you are not only helping your own child but are also helping your district and state know how early childhood programs are performing overall. **As the parent, you are a critical part of your child's development and education**, and this handout will help you understand and meaningfully participate in the outcome measurement process for your child's program.

What are the three child outcomes?

The following outcomes, developed by the U.S. Department of Education, are used by all early intervention and early childhood special education programs to measure young children's progress. While Individual Family Service Plan (IFSP) outcomes and Individualized Education Program (IEP) goals are written specifically for your child, **these three child outcomes are the same for everyone.**

Three child outcomes to measure progress

1. **Gaining positive social emotional skills, including social relationships.** This outcome measures how children interact and play with their family, other adults, and other children.
2. **Learning and using new knowledge and skills.** This outcome measures how children learn and use basic language and communication skills such as counting and problem-solving that will prepare them to be successful in kindergarten.
3. **Using appropriate behaviors to meet their needs.** This outcome measures how children gradually become more independent by learning how to move from place to place, feed themselves, and take care of basic needs.

Why is this information important to my child and our family?

The three child outcomes focus on what your child can do in his or her everyday routines and activities. By looking at how well your child is doing in each of the three areas, you can determine what he or she needs in order to become more involved in your family's activities. The information gathered about your child will also

Child Outcomes Visual

Visual that is helpful for both teams and families in understanding the variety of skills that could be covered under each outcome

Breadth of Three Child Outcomes

Child Outcomes Summary Form (COSF)

The Child Outcomes Summary (COS) Process: Entry

Child qualifies for preschool special education services and receives an Individualized Educational Program (IEP)

Throughout the first few weeks of the child entering the program, data is collected about the child's functioning across settings and situations

COS Team meets to discuss, complete the COS Form and assign a rating (1-7) for each of the three indicator outcomes (to be completed within 60 days of child starting services)

Entry data is entered into the Homeroom Application at minimum 2X year (December and June)

Using the COSF

- COS Form is utilized to guide group discussions when completing an entry or an exit rating for a child
- District is responsible for keeping a copy of the form in the student's file

New Jersey Department of Education Child Outcomes Summary Form (COSF)

Student Name: _____ Student ID: _____

Date Entry COS: ____/____/____ Student Birthdate: ____/____/____

Date Exit COS: ____/____/____

Persons involved in the COS rating:

Name	Role	Entry	Exit
		<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>
		<input type="checkbox"/>	<input type="checkbox"/>

Family information on child functioning (Check all that apply):

- ☐ Received in team meeting
- ☐ Collected separately
- ☐ Incorporated into assessment(s)

Child Outcomes Overview

1. POSITIVE SOCIAL EMOTIONAL SKILLS

- Relating with adults
- Relating with other children
- Following rules related to groups or interacting with others

2. ACQUISITION AND USE OF KNOWLEDGE AND SKILLS

- Thinking, reasoning, remembering, and problem solving
- Understanding symbols
- Understanding the physical and social worlds

3. USE OF APPROPRIATE BEHAVIORS TO MEET NEEDS

- Taking care of basic needs (e.g., showing hunger, dressing, feeding, toileting, etc.)
- Contributing to own health and safety (e.g., follows rules, assists with hand washing, avoids inedible objects)
- Getting from place to place (mobility) and using tools (e.g., forks, strings attached to objects)

New Jersey Department of Education (2021). Adapted from SRI International (2005).

COSF

COSF Components

Entry

- Entry Rating- (1-7) on the Likert scale
- Justification for the rating (Foundational, Immediate Foundational, Age-Appropriate skills)

Exit

- Exit Rating- (1-7) on the Likert scale
- Progress question (yes or no) with notes as to why the child has or has not made progress in the area

2

CHILD OUTCOMES

To answer the questions below, think about the child's functioning in each area (as indicated by observations, reports, and assessments) from individuals in close contact with the child):

1. POSITIVE SOCIAL EMOTIONAL SKILLS

1a. ENTRY RATING

To what extent does this child show age-appropriate functioning, across a variety of settings and situations, on this outcome?

Not Yet		Nearly		Somewhat		Completely
1	2	3	4	5	6	7

Justification
List a few skills that the child is or is not displaying to support the rating.

1b. EXIT RATING

To what extent does this child show age-appropriate functioning, across a variety of settings and situations, on this outcome? Consider if the child has shown any new skills or behaviors related to positive social-emotional skills (including positive social relationships) since the last outcomes summary.

Not Yet		Nearly		Somewhat		Completely
1	2	3	4	5	6	7

Has the child made progress in this area since the entry rating? Describe why or why not.

YES	
NO	

Important Notes for COSF Completion

Ratings are needed for all outcomes even if...

- No one has concerns about a child's development in an outcome area
- A child has delays in one or two outcome areas but not in all three

Understanding the Rating Scale

7-Point Likert Scale

- The COS process results in a rating for each of the three child outcomes.
- The rating is based on child's functioning across settings and situations.
- A child's functioning is compared with what is expected for the child's age.

Not Yet		Nearly		Somewhat		Completely
1	2	3	4	5	6	7

Overall Age-Appropriate Rating

7 – Completely

- Child shows functioning expected for his or her age in all or almost all everyday situation that are part of the child's life
 - No one has any concerns about the child's functioning in this outcome area
-

6 – Between Completely and Somewhat

- Child's functioning generally is considered appropriate for his or her age, but there are some significant concerns about the child's functioning in this outcome area.
- Although age-appropriate, the child's functioning may border on not keeping pace with age expectations.

Overall Not Age-Appropriate

5 – Somewhat

- Child shows functioning expected for his or her age some of the time and/or in some settings and situations.
- Child's functioning is a mix of age-expected and not age-expected behaviors and skills.
- Child's functioning might be described as like that of a slightly younger child.

Overall Not Age-Appropriate

4 – Between somewhat and nearly

- Child shows occasional age-appropriate functioning across settings and situations.
 - More functioning is not age-expected than age-expected.
-

3 – Nearly

- Child does not yet show functioning expected of a child of his or her age in any situation.
- Child uses immediate foundational skills most or all of the time across settings and situations.
- Functioning might be described as like that of a younger child.

Overall Not Age-Appropriate

2 – Between nearly and not yet

- Child occasionally uses immediate foundational skills across settings and situations.
- More functioning reflects skills that are not immediate foundational than are immediate foundational.

1 –Not yet

- Child does not yet show functioning expected of a child his or her age in any situation.
- Child's functioning does not yet include immediate foundational skills upon which to build age-appropriate functioning.
- Child's functioning might be described as like that of a much younger child.

Data Entry

The Child Outcomes Summary (COS) Process: Entry

Child qualifies for preschool special education services and receives an Individualized Educational Program (IEP)

Throughout the first few weeks of the child entering the program, data is collected about the child's functioning across settings and situations

COS Team meets to discuss, complete the COS Form and assign a rating (1-7) for each of the three indicator outcomes (to be completed within 60 days of child starting services)

Entry data is entered into the Homeroom Application at minimum 2X year (December and June)

Data Entry Overview

- Data will be entered in the Homeroom Application upon receiving a State SID number for the student
- The application is located under the header PRESCHOOL and titled Child Outcomes Summary System
- Instructions with visuals for entering a rating on page:
https://homeroom4.doe.state.nj.us/preschool/doc/Homeroom_COS_Data_Manual.pdf

Excel Sheet

*There is an Excel Spreadsheet provided to keep the data on your students and enter at least than 2X year (December 16, 2022 & June 16, 2023) into Homeroom. The spreadsheet will NOT be accepted when data collection is due, and all data must be entered into Homeroom.

Child Outcomes Summary (COS)											
Student ID	Student DOB	COS Entry Date	# 1 Entry	# 2 Entry	# 3 Entry	COS Exit Date	# 1 Exit	# 1 Progress	# 2 Exit	# 2 Progress	# 3 Exit

<https://www.nj.gov/education/specialed/monitor/preschooloutcomes.shtml>

Data Entry Important Notes

6-Month Rule

- A child is only to receive an exit score if they have been in the program for at least 6 months as a preschooler with a disability

Expectations

- Complete the COS Tool on all identified students who were identified as a Preschooler with a disability and started on or after September 6, 2022
- All data must be entered into Homeroom at a minimum of 2x year (by Dec 16, 2022 & June 16, 2023)
- Any individuals who need the training on the COS should attend a training session or turn-around training should be done for those staff. Please utilize the resources on the next slide
- NJ is making a statewide transition to replace the Battelle with the COS Tool as the measure for Indicator 7– please continue the use of the COS Tool
