Overview & Resources

The School Performance Reports reflect the New Jersey Department of Education's (NJDOE) commitment to providing parents, students, and school communities with a large variety of information about each school and district. These reports can be used as a tool to help evaluate whether all students have equitable access to high quality education. We encourage you to use these reports to:

- **Learn more** about the school and the district
- **Start conversations** with school community members and ask questions
- **Engage** with school communities to identify where schools are doing well and where they can improve

Important Note for 2023-24 Reports: The NJDOE recommends caution in comparing data from year to year over the last several years.

School Performance Report Resources: The NJDOE has several resource documents that can help you understand and use the School Performance Reports, which can also be found under the "Resource Documents" link at the top of the page:

- One-page guides to help start conversations for [school board members](#), [administrators](#), [educators](#), [elementary](#), and [middle and high school families](#)
- [Reference Guide](#) with details on all the data in these reports
- [Frequently Asked Questions](#)
- [Understanding Adjusted Cohort Graduation Rates](#)
- [Understanding Student Growth Percentiles](#)
- [Data Privacy Rules](#) (why you see *s and N's in the reports)

Let the NJDOE know how we can improve future reports by taking our [feedback survey](#). Contact reportcard@doe.nj.gov with any questions about the reports

Demographics

Enrollment data reflects enrollment reported at the end of the school year and only includes students attending the school. Students who attend programs outside of the district are not included in enrollment counts and percentages.

Enrollment by Home Language

This table shows the percentage of students by primary home language. Only the top 5 languages with at least 1% of students are shown, and students with other home languages are included in the Other Languages total. To see this data in a table, click the Table View option below the chart.

Student Growth

Student growth is a measure of how much students are learning each year. New Jersey's ESSA state plan outlines that academic progress will be measured with school's median student growth percentile (mSGP) on statewide ELA and mathematics assessments. Each individual student receives a Student Growth Percentile (SGP) for English Language Arts (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7. The SGP measures their academic progress from one year to the next compared to other students with similar prior test scores (academic peers).

A student's SGP falls between 1 and 99 and can be grouped into three levels. An SGP below 35 indicates low growth, an SGP between 35 and 65 indicates typical growth, and an SGP greater than 65 indicates high growth. If the SGPs for all students are ordered from smallest to largest, the mSGP is the percentile in the middle of the list.

The [NJDOE Student Growth page](#) has more information about SGPs and mSGPs, including a video that explains how both SGPs and mSGPs are calculated.

Important Note for 2023-24: Student growth data is not available for the 2019-2020, 2020-2021, and 2021-2022 school years due to federal waivers and assessment cancellations. An alternate measure of academic progress, or growth, called Relative School Improvement Measure (RSIM) was used for the 2021-2022 school year only.

Student Growth Trends and Progress

These graphs illustrate trends in student growth over the last three years. Student growth is measured by median student growth percentile. The table below tells us how student growth over the last three years compares to the state standard of 40-59.5 and to the statewide median.

Important Note for 2023-24: Student growth data is not available for the 2019-2020, 2020-2021, and 2021-2022 school years due to federal waivers and assessment cancellations.

Academic Achievement

This section of the reports includes results on statewide assessments, including the New Jersey Student Learning Assessment (NJSLA), the Dynamic Learning Maps (DLM), and the ACCESS for ELLs assessment. For more information about New Jersey's statewide assessments, see the [NJDOEs Assessment page](#).

For detailed information showing comparisons of the percentage of students performing at each of the five NJSLA performance levels at the school, district and state-level, see data available on our [NJDOE Accountability webpage](#) under 2024 Accountability Data in the School & District Accountability section.

English Language Arts and Mathematics Performance Trends

These graphs show trends in the Proficiency Rate for Federal Accountability over the last three years. The data includes the results of students taking both the New Jersey Student Learning Assessment (NJSLA) and the DLM alternate assessment for English language arts (ELA) and mathematics. The Proficiency Rate for Federal Accountability measures the percentage of students who met or exceeded expectations on the assessments (NJSLA or DLM) with an adjustment made if the participation rate is below 95% to ensure reporting on at least 95% of students. Students who were enrolled for less than half a school year are excluded from performance results. The table below provides participation rates, proficiency rates, annual targets and status in meeting the targets, and statewide proficiency rates.

English Language Arts Assessment - Participation and Performance

This table shows performance on statewide assessments for English language arts (ELA) both overall and by student group. It includes the results of students taking both the NJSLA and DLM. NJSLA results for ELA include only students in grades 3 through 9. Students who were enrolled for less than half a school year are excluded from performance results. Student are considered to have met or exceeded expectations if they score at Level 4 or 5 on the NJSLA or at Level 3 or 4 on the DLM.

This table shows both the percentage of students who met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows status in meeting annual targets. Annual targets are specific to each student group, school, and district and represent the expected proficiency needed to stay on track to meet long-term goals. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see the [NJDOE Accountability page](#). More information and additional data can also be found on the [NJDOE Academic Achievement page](#).

Mathematics Assessment - Participation and Performance

This table shows performance on statewide assessments for mathematics both overall and by student group. It includes the results of students taking both the NJSLA and DLM. NJSLA results include students taking end-of-grade assessments in grades 3 through 8, as well as end-of-course assessments (Algebra I, Geometry, Algebra II) in middle school and high school. High school mathematics assessment results include all results for Algebra I and Geometry and/or Algebra II results only for students who took Algebra I in middle school and who are enrolled in their first high school mathematics course that corresponds to an end-of-course assessment. Students who were enrolled for less than half a school year are excluded from performance results. Student are considered to have met or exceeded expectations if they score at Level 4 or 5 on the NJSLA or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students who met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows status in meeting annual targets. Annual targets are specific to each student group, school, and district and represent the expected proficiency needed to stay on track to meet long-term goals. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see the [NJDOE Accountability page](#). More information and additional data can also be found on the [NJDOE Academic Achievement page](#).

Mathematics Assessment - Performance By Grade: Grade 6

This table shows performance on the mathematics section of the New Jersey Student Learning Assessment (NJSLA). The performance results in this table include all students who took the NJSLA, which includes students who were enrolled less than half a year.

Students in sixth grade who were enrolled in an Algebra I or Geometry course were required to take both the corresponding end-of-course assessment (Algebra I or Geometry) and the Grade 6 mathematics assessment. The results of the Grade 6 mathematics assessment are included in this data. The Algebra I or Geometry results will be used when the student is in grade 9.

Mathematics Assessment - Performance By Test: Algebra I

This table shows performance on the NJSLA Algebra I end-of-course assessment. The performance results in this table include all students who took the NJSLA, it does not exclude students who were enrolled less than half a year.

This includes any students who were enrolled in an Algebra I course and took the Algebra I assessment in grades 7 through 12. Students in sixth grade who were enrolled in Algebra I course were required to take both the Algebra I and Grade 6 mathematics assessment. The results of their Algebra I assessment are not included in these results but will be reported when the student is in grade 9.

English Language Proficiency Test - Participation and Performance

This table shows, by years in district, the number of multilingual learner students taking the ACCESS for ELLs Assessment for English language proficiency and the number and percentage of students tested who received an overall score of 4.5 or above. Students must receive a score of 4.5 or higher to be considered for proficient status.

Years in District	# Students Tested	# Students with Overall Score Below 4.5	% Students with Overall Score Below 4.5	# Students with Overall Score of 4.5 or Above	% Students with Overall Score 4.5 or Above

English Language Progress to Proficiency

This table shows the percentage of multilingual learners who demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. A student's expected growth is based on the student's initial year proficiency level and student growth expectations are increased by equal intervals each year so that the student meets the proficiency cut score of 4.5 within five years. The table shows the annual target for the percentage of students making expected growth and whether that target was met.

Student Group	Percent of English learners making expected growth to proficiency	Annual Target	Met Target?
Schoolwide/Multilingual Learners	83.3%	22.7%	Met Goal

† Target was met within a confidence interval.

Climate and Environment

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The NJDOE used input from stakeholders to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations. Students with fewer than 45 days in membership are excluded from attendance calculations.

Chronic Absenteeism Trends

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The ESSA Target: State Average for Grades Served column is the target used for ESSA accountability purposes. It reflects the statewide average for students in the grades offered by the district. Each student group has the same target based on all students, so the same ESSA Target will appear for all student groups. The last column shows whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

Performance Measure	2021-22	2022-23	2023-24
Chronic Absenteeism Rate	6.0%	7.4%	6.6%

Percentage of Days Absent

This graph shows the percentage of K-12 students by the percentage of days enrolled that the students were absent during the school year. The last three bars, 10% to 12.9%, 13% to 19.9%, and 20% or higher represent students who were chronically absent.

The New Jersey Department of Education collects data through the Student Safety Data System (SSDS). In addition to the data below, NJDOE is required, under ESSA, to report on the most recent, publicly-available Civil Rights Data Collection (CRDC) data, which can be found on the [NJDOE School Performance webpage](#). Please note that prior to school year 2017-2018, the CRDC and the State collection system, EVVRS, did not collect the same data elements. In an effort to better align the State system with the CRDC, the new Student Safety Data System (SSDS) collects all the required CRDC data elements. NJDOE is in the process of developing a reporting function for the SSDS which will allow LEAs to use the same data for both submissions.

Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

Incident Type	Number of Incidents
Violence	0
Weapons	0
Vandalism	0
Substances	0
Harassment, Intimidation, Bullying (HIB)	7
Total Unique Incidents	7
Incidents Per 100 Students Enrolled	0.74

Police Notifications

This table shows, by incident type, the number of cases where an incident led to police notification.

Harassment, Intimidation, and Bullying (HIB) Investigations

This table shows, by the nature of the incident, the number of alleged and confirmed Harassment, Intimidation, and Bullying (HIB) investigations. The nature of an incident is based on the protected categories listed below, and the nature of a single HIB investigation may include multiple categories. All confirmed incidents must have an identified nature.

Student Disciplinary Removals: By Student Group

This table shows the number and percentage of students who received in-school suspensions, out-of-school suspensions, removals to other educational programs, and expulsions by student group. Information on disciplinary actions is reported by schools and districts to the NJDOE through the Student Safety Data System (SSDS). Only students who attended district schools are included in the disciplined student counts. The data used to determine student demographic information, and the enrollment totals used to calculate the percentages come from the fall and end-of-year NJ SMART SID Management snapshots. In some cases, a range, such as <5, is provided for groups of 10 or more students when between 1 and 4 students districtwide received a type of disciplinary action to protect student privacy.

Staff

Staff data reflects teachers and administrators reported by districts at the beginning of the school year.

Key terms for staff data:

Teachers: All classroom teachers

Administrators: Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

Experience: Experience is based on information submitted by districts on all their staff members. For purposes of this report, the ESSA Educator Equity and federal reporting requirements, NJDOE has defined teachers as "inexperienced" if they have fewer than four years of prior experience in a given district. The tables below report on "experienced" teachers and administrators for federal reporting purposes.

Out-of-Field: A teacher is labeled "out-of-field" if they are potentially teaching outside their area of certification. This could occur if the teacher cannot be found in the NJDOE's certification system, if their job code does not match their certification, or if the teacher has an expired certificate.

Provisional Teacher: A teacher with provisional certifications is a fully certified novice teacher of record who must meet further requirements of evaluation and mentoring during their induction into the profession before being granted "standard" or permanent certification.

Teachers – Experience

This table shows information about the experience and professional qualifications of teachers. Out-of-field teachers are teachers who are potentially teaching outside of their area of certification. Teachers with provisional certifications are fully certified novice teachers of record who must meet further requirements of evaluation and mentoring during their induction into the profession before being granted "standard" or permanent certification. The New Jersey Department of Education does not issue emergency instructional certificates for teachers. Additional data on the professional qualifications of teachers and administrators, broken down by schools with high or low economically disadvantaged populations, is available on the [School Performance Staff page](#).

Category	Teachers in District	Teachers in State

Staff Counts

This table shows the number of staff members assigned to the district and state across several staff categories. The staff counts in this table reflect data submitted by districts to NJ SMART and reflect any teachers assigned and are not based on full-time equivalent (FTE). Additionally, some staff members may be assigned to the district only, but work in multiple schools in the district. In these cases, the table may show 0 staff members assigned to the school, even though there are district staff members working in the school. The School Safety Specialists data is based on data submitted by districts in the CDS system.

Staff Category	District: Total Staff Members	State: Total Staff Members
Teachers	95	119,239
Administrators	6	10,170
Librarians/Media Specialists	1	1,160
Nurses	2	3,025
School Counselors	3	4,673
Child Study Team Members	8	9,654
School Psychologists	2	2,185
School Social Workers	1	2,750
Student Assistance Coordinators	N	400
School Safety Specialists	1	681

Student and Staff Ratios

This table shows ratios of students and staff members in the district. The ratios are based on data submitted by districts to NJ SMART and are not based on staff full-time equivalent (FTE). The School Safety Specialists data is based on data submitted by districts in the CDS system.

Ratio	District Ratio
Students to Teachers	10:1
Students to Administrators	157:1
Teachers to Administrators	16:1
Students to Librarians/Media Specialists †	943:1

Students to School Psychologists †	472:1
Students to School Social Workers †	943:1
Students to Student Assistance Coordinators †	N
Students to School Safety Specialists †	943:1

† In some districts, staff members in these roles who work in multiple schools may be assigned only to the district and not to individual schools. As a result, a School Ratio may show N, but there may be district assigned staff working in the school

†† Child Study Team members include school psychologists, school social workers, and learning disabilities teacher consultants, also note that the ratio compares Students with Disabilities instead of all students.

Teachers and Administrators – Demographics

This table compares the percentage of students, teachers, and administrators by gender and by racial and ethnic group. To protect student and staff privacy, gender percentages may show a range, depending on the overall school population size.

Teachers and Administrators - Level of Education

This chart shows the highest level of education attained by teachers and administrators. The Bachelor's degree category may include other degrees/certificates such as a Specialist's degree. Administrators are required to have a Master's degree or higher.

Teachers and Administrators - One-Year Retention (District Level)

This table shows the percentage of teachers and administrators assigned to this district in 2022-23 that were still assigned to this district in 2023-24. Staff who were not retained may have changed districts or no longer work for the state (including retirements).

Job Type	District	State

Teachers by Subject Area

This table shows the counts of teachers by subject area with gender breakdown, experience, and level of education. The staff counts in this table reflect staff assignments as submitted by districts to NJ SMART and reflect any teachers assigned and are not based on full-time equivalent (FTE). Note that some teachers may teach in multiple subject areas and may be counted more than once in this table, or they may only be counted in their primary subject area. Additionally, in many elementary schools, teachers are not assigned to specific subject areas, so they will appear in the Elementary (Not Subject Specific) category and not in the other subject areas, but that does not mean those subjects are not being taught in the school. Special Education and Bilingual teachers are generally assigned to a subject area and also either special education or bilingual, so those teachers will be counted in multiple subject areas.

Per-Pupil Expenditures

Per-Pupil Expenditures by Source

The table below summarizes the most recently available expenses for regular and special education students taught at schools in the district. The amounts include both actual personnel and actual non-personnel expenditures and include expenditures for instruction, support services, administration, operations and maintenance, and extra-curricular activities. An overall cost per pupil for a given school can be calculated by adding the Central Expenditures and the Expenditures Not Assigned to a School to the School Level Expenditures reported for that school. The Average Daily Enrollment (ADE**) comes from the 2023-24 School Registry Summary (SRS).

For more information regarding this table please refer to the guidance for school level reporting, which is available on the NJDOE webpage [NJDOE webpage ESSA School Level Reporting Information](#). More in-depth information about district and charter school spending can be found in the [User Friendly Budget](#) and the [Annual Comprehensive Financial Report \(ACFR\) and Auditor Management Reports \(AMRs\)](#).

Please be aware that the total district expenditures represented in these reports are taken from audited district financial data, but the subsequent allocation of these resources to specific schools is not audited or otherwise verified by the New Jersey Department of Education. If you have specific questions about the assignment (or lack of assignment) of school-level amounts, please contact the district for additional information.

[Link to District Summary of 2023-24 School-Level Per Pupil Expenditures by Source](#)

An option to [download all school-level summaries by district](#) in one spreadsheet is also available. However, because districts have flexibility in how certain costs are allocated to individual schools, school-level costs should not be compared between schools in different districts.

Accountability

New Jersey's Every Student Succeeds Act (ESSA) Accountability System New Jersey's school accountability system identifies schools in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA). Based on New Jersey's [approved ESSA state plan](#), NJDOE will identify schools in the following four federal categories every three years:

- **Comprehensive Support and Improvement (CSI): Overall Low Performing:**
 - Title I schools with a summative score in the bottom 5% of Title I schools.
- **Comprehensive Support and Improvement (CSI): Low Graduation Rate:**
 - All high schools with a four-year graduation rate of 67% or less
- **Additional Targeted Support and Improvement: Low Performing Student Group (ATSI):**
 - All schools with one or more student group with a summative score that would be in the bottom 5% of Title I schools
- **Comprehensive Support and Improvement (CSI): Chronically Low Performing:**
 - Title I schools identified as Additional Targeted Support and Improvement; Low Performing Student Group (ATSI) that are identified for three or more consecutive years, i.e., ATSI schools that do not meet exit criteria.

Annually, NJDOE will identify schools in the following federal category:

- **Targeted Support and Improvement: Consistently Underperforming Student Group (TSI):**
 - All schools with one or more student groups that missed annual targets or standards for all indicators for two years in a row

For purposes of ESSA accountability, only schools and student groups with data for 20 or more students are included in calculations.

The NJDOE identified schools for CSI and ATSI status in fall 2023 based on data from the 2022-2023 school year, so the NJDOE did not identify schools for CSI or ATSI status based on 2023-2024 school year data. The NJDOE only identified schools for TSI status based on data from the 2023-2024 school year.

For more information about New Jersey's accountability system, how indicator and summative scores were calculated, how federal accountability status is determined, and additional data, see the [NJDOE accountability page](#).

Accountability

Schools Identified as Requiring Comprehensive or Targeted Support – Districtwide

The table below provides the list of schools in the district that have been identified for either comprehensive or targeted support for the 2025-26 school year, the category (or reason) for identification, the year the school is eligible to exit status, and, if applicable, the student groups identified for support. For additional information, the [NJDOE ESSA Accountability webpage](#) includes a list of all schools requiring comprehensive or targeted support and improvement with the amount of School Improvement Aid (SIA) funds received and information on exit criteria for identified schools.

There are currently no schools identified as requiring comprehensive or targeted support during the 2025-26 school year.

Accountability

ESSA Accountability Progress

The table below shows performance on each of New Jersey's ESSA accountability indicators for the last three years. **ELA and Math Proficiency:** Percentage of students who met or exceeded expectations on statewide assessments (NJSLA or DLM) **ELA and Math Growth:** For 2022-23 and 2023-24, this data reflects median student growth percentiles (MSGPs). For 2021-22, this data shows the Relative School Improvement Measure (RSIM), which was based on aggregate scale score improvement on the statewide assessments in ELA and mathematics (NJSLA), when comparing prior year performance to 2021-22 performance. **Four- and five-year graduation rates:** The federal adjusted cohort graduation rate. Prior year graduation rates are used for ESSA Accountability, so the graduation rates shown for 2023-2024 represent the Cohort 2023 4-year and Cohort 2022 5-year rates. **Progress toward English Language Proficiency:** The percentage of multilingual learners who demonstrated the expected amount of growth on the ACCESS for ELLs Assessment for English language proficiency. **Chronic absenteeism:** The percentage of K-12 students who were absent for 10% or more of the days enrolled during the school year.

Important Note for 2023-24: The growth measure used for 2021-22 was an alternate measure used because median student growth percentiles were not available for 2021-22. The NJDOE resumed using MSGPs in 2022-2023, so 2021-22 growth data should not be compared to other years.

ESSA Accountability Indicator	2021-22	2022-23	2023-24
ELA Proficiency	69.1%	74.3%	72.9%
Math Proficiency	50.5%	50.2%	58.6%
ELA Growth†	14	52	57
Math Growth†	6	56	60
4-Year Graduation Rate (Prior Year)††	N	N	N
5-Year Graduation Rate (Prior Year)††	N	N	N
Progress toward English Language Proficiency	76.9%	57.1%	83.3%
Chronic Absenteeism	6.0%	7.4%	6.6%

†An alternate measure of growth was used for the 2021-2022 school year because median student growth percentiles were not available.

††The graduation rates in this table reflect the rates used for the accountability process for the given year, which are the rates from the prior school year.

Accountability

Accountability Summary by Student Group - 2023-24 School Year

Narrative

This section allows schools and districts to share highlights, achievements, and other important information about programs, activities, and services that are offered in their own words. Please note that the narrative is optional, so only categories in which the district chose to share information will be displayed. If there are questions about the information provided in the narrative section, please contact the school or district directly.

Highlights:

- We are proud to announce our Portrait of a Hornet. Students and staff work together to attain all ten hornet attributes. 1:1 Technology in all grades
- STEAM integration, Choice Electives, Junior National Honor Society, Outdoor classrooms, Accelerated zero period courses
- Fine and performing arts programs, musicals, STEAM and Art summer camp

Mission, Vision, Theme:

The mission of the Little Falls Township Public Schools is to work collaboratively with the community and caregivers to motivate each student to reach his/her individual potential through meaningful programs, outstanding teaching, and 21st Century experiences in order to lead us responsibly into the future. One District...One Team...One Vision

Awards, Recognition, Accomplishments:

Courses, Curriculum, Instruction:

All curriculum is aligned to the NJ Student Learning Standards. The BOE and Administration have worked diligently to place iPADS and/or Chromebooks in every student's hands. We have recently added electives i.e. Creative Writing, Photography, Journalism, STEM, MakerSpace, Financial Literacy, & Public Speaking. We believe that homework should be based on the ability and needs of the student and take into account other activities that make a legitimate claim on the student's time.

Before and After School Programs:

We provide THE HIVE, a before and aftercare program for students in grades kindergarten - 4th grade. The program features programs and presentations by community partners.

Student Supports and Services:

Peer Group Connection is a transition program that the Little Falls Township Public School District offers to assist 5th grade students with the transition into our 5-8 middle school. In addition, the district I&RS Team, Child Study Team, and ELL Teacher work diligently to provide services, accommodations, and programs that meet and exceed the needs of our students.

Parent and Community Involvement:

We are very fortunate to have 2 PTAs as well as an Education Foundation. These organizations work tirelessly to give to our staff and students. Through Parent Portal, our website, twitter, and our online and print newsletter "education news", parents and the community are informed of activities and events. The Superintendent offers Parent Academy sessions as well as Talk A Latte with the Superintendent. These events offer the community the opportunity to speak directly with Mrs. Marinelli.

School Safety:

Our district works closely with the LFPD. We run monthly drills in conjunction with the police department. In addition, the LFPD has a substation in each of our buildings. We have secure entrances and license swipe technology. An integrated lockdown system with strobe lights significantly reduces police response time.
