The summary reports are meant to provide parents, educators, and communities highlights from the district, along with a high-level summary of how well a school or district is performing. We encourage you to use these reports to:

- **Learn more** about this school or district by viewing the detailed report. Use the link in the "Jump to" menu at the top right.
- **Start conversations** with school community members and ask questions. Use the one-page guides on the Resources page for suggestions.
- **Engage** with your school communities to identify where schools are doing well and where they can improve.

District Highlights Reported by the District:

- The Paramus School District has been recognized for educational excellence by several NJ Education Commissioners and by the US Department of Education's Blue Ribbon Panel.
- Our schools offer an award-winning special education program; an advisor-advisee program; 26 AP courses; and Instructional technology is infused into daily learning via the district's 1:1 initiative.
- Standardized and SAT scores are consistently higher than state and national averages. A significant number of students are involved in AP courses and score at levels meriting potential college credit.

How does student growth compare to other students?

This section shows the median student growth percentile for English Language Arts (ELA) and mathematics.

Each student gets a **student growth percentile(SGP)** from 1 to 99 for English (4th to 8th grade) and Math (4th to 7th grade) that explains their progress compared to students who had similar test scores in the past.

If the student growth percentiles for all students in the district are ordered from smallest to largest, the **median student growth percentile (mSGP)** is the percentile in the middle of that list.

How did students perform on assessments?

This section shows the percentage of students who met or exceeded expectations on statewide assessments (NJSLA and DLM). This percentage reflects the federal proficiency rate which makes adjustments to the proficiency rate if the participation rate was below 95% to ensure reporting on at least 95% of students. The chart indicates whether performance was above the state average or above 80% proficient.
