Dear Sir or Madam:

My name is Derek Phelps. I am Director of Market & Project Development at FuelCell Energy, Inc. Per your Notice, persons wishing to participate at any of the Energy Master Plan Stakeholder Meetings are encouraged to register beforehand. I have registered for the first such meeting, titled Clean and Renewable Power, scheduled for Friday, September 7, 2018.

Your Notice further directs that a summary of intended remarks be provided at least two days before the subject meeting. To that end, please be advised that my remarks that I will make on behalf of FuelCell Energy, Inc. may be summarized as follows:

- A brief introduction into fuel cells, including an explanation as to why fuel cells should appropriately be categorized as a clean energy resource in New Jersey, as they are elsewhere in the nation
- A high level explanation of how fuel cells contribute to a cleaner environment, reduce greenhouse gas emissions, and significantly improve the resiliency and reliability of the power grid
- How fuel cell projects generate much needed public revenue and spur economic growth, especially in urban communities

My oral remarks will be brief, as we intend to file more detailed and lengthy comments prior to the October 12 deadline. Thank you for the opportunity to participate in this important workshop.

Derek Phelps
