---

Dear Governor Murphy, Lt. Governor Oliver & Your Fabulous Pro-NJ Team -

As a lifelong conservationist, I am thrilled that you are sitting at the helm of the greatest state in our country. My avocation has been a 30+ year career in Essex County Park conservancies, environmental commissions, and many other NJ environmental and wildlife non-profits. I've witnessed first-hand wasteful and excessive development of hundreds of acres of critical NJ old-growth forests; the poisoning of our streams, rivers & aquifers; and the devastating effects fuel and energy projects have had on native and migratory NJ flora and fauna.

**Please stand strong on an Emergency Moratorium of ALL fossil fuel projects in New Jersey.** You have a truly amazing volunteer workforce throughout the entire state that will support your administration in any way that we can be most useful to help you protect our already over-burdened natural environment.

The tides have already turned in our favor - here in the US, as well as abroad. Let's keep up the momentum and show the world that New Jersey is one of the mightiest Earth Defenders in the United States! As an active member of NJ 11th For Change, NJ 26th For Change and a handful of other very strong advocacy groups - I can promise you that some of the most intelligent, compassionate and progressive community leaders have rolled up their sleeves to support our NJ Governors team in ending the fossil fuel era and building the cleanest Green State in the country.

Thank you very much for championing New Jersey citizen rights and returning pride to NJ residency. Please let me know what I can personally do to support you in any way I can.

Warm regards,

Deborah
