

September 16, 2019

Dear Governor Murphy,

New Jersey can and must accelerate our renewable energy progress and end our dependence on fossil fuels in order to prevent the worst impacts of climate change.

It's time to renew New Jersey's commitment to climate leadership with a final energy master plan that:

- 1) commits New Jersey to a path to 100% clean, renewable energy -- not just 100% carbon neutral -- by 2050;
- 2) sets ambitious goals for renewable energy generation, in particular for offshore wind;
- 3) electrifies New Jersey's transportation sector to set the stage for fossil fuel-free transportation;
- 4) moves away from any new fossil fuel infrastructure

Sincerely,

Edward Ramirez
