Re: NJ IEP Feedback

Dear NJBPU,

New Jersey should be facing climate head on. But instead Integrated Energy Plan finding fall alarmingly short of what we need to do to address the climate crisis. I consider a dereliction of duty the BPU is not taking additional steps through the IEP modeling and analysis to address the all that is missing before finalizing the IEP and the Energy Master Plan. The future of my 12-year-old son depends on you getting this right!

Thank you for allowing comments on the IEP. I and son are counting on BPU to listen and do what is needed to effectively take on climate change in NJ.

Sincerely,  
Pamela Barroway
