Subject: [EXTERNAL] IEP FEEDBACK

I urge you to extend the comment period on the Integrated Energy Plan, which will be part of the Energy Master Plan. For you to require comments for such a short period, considering the complex nature of both the EMP and now the IEP makes a mockery of public participation.

Ordinary citizens, not fuel companies, or affected industries had ready comments because they have the "bottom line" to address. We, taxpayers and those who are most effected do not.

Please extend the comment period, and be more transparent, as you were with much notice about the EMP, for this IEP.

thank you,

Eleanor Gruber
