Subject: [EXTERNAL] NJ IEP Feedback

Re: NJ IEP Feedback

Dear NJBPU,

I am alarmed by the findings presented in the Integrated Energy Plan (IEP) because they fall far short of what we need to do to address the climate crisis. I consider it imperative that you take additional steps through the IEP modeling and analysis to address the critical deficiencies in the IEP before finalizing the IEP and the Energy Master Plan.

Thank you for the opportunity to comment on the IEP. I am counting on BPU to listen to my input and run additional scenarios to successfully combat the growing climate emergency here in NJ.

Sincerely,
Frances M Perlman
