**Subject:** [EXTERNAL] Integrated Energy Plan

I know I am late ini responding.....I just saw the email raising concerns about the IEP, and fully support the request that our state provides a comprehensive, accurate assessment of energy-use **impacts**, and the **potential for reducing use**.

I will read more about the plan, but in general, I want to hear that our governor,representatives, and utilities, are supporting **long-term** solutions, and are pursuing every practical option for alternative **sources**, and are planning widespread **education** about the need for **sustainable living**.

Thank you,
