RE: IEP feedback

Dear BPU,

I am concerned that NJ is locking in to a fossil fuel energy supply that will prevent us from meeting Murphy's clean energy goals. Proposed offshore wind projects can't undo the damage of 13 projects including pipelines and compression stations.

The BPU road map should take this hard cold reality into account. Town are facing tornados and aggressive weather. We need to be equally aggressive in our climate goals. I would appreciate a response to my request.

Sincerely,
Ms. Claire Whitcomb
