Subject: [EXTERNAL] Moratorium - No More Fossil Fuel Infrastructure
Date: Tuesday, September 03, 2019 1:21:42 PM

Dear Madam / Sir:

I wish to voice my VERY strong support for an **immediate MORATORIUM ON ALL FOSSIL FUEL INFRASTRUCTURE** - No more FOSSIL FUEL INFRASTRUCTURE of any kind, period. ALL funds assigned to Energy Research, Development, Infrastructure Creation and Enhancement, and Energy Security must be spent on RENEWABLE ENERGY sources, including Solar, Wind, Tide, Electrostatic, Geothermal and other strictly renewable and sustainable technologies.

No more money should be spent on Fossil Fuel sources, beyond critical maintenance. Nuclear energy sources should be phased out and shut down.

Thank you for your consideration.
