Dear Chair Fiordaliso and EMP Committee,

I'm writing to comment and express support for the New Jersey Energy Master Plan. I hope that you will consider the important role that community solar (Goal 2.3.1) and opening access to energy data both play in allowing my neighbors and me to access clean energy, and in growing the local economy. Giving people like me access to our energy data and the benefits of solar power are key tools in advancing clean energy in New Jersey.

I also care about the effects of greenhouse gases on our climate, already creating so much devastation worldwide through natural disasters and displaced homes. Please consider clean energy over the already huge problem of excessive greenhouse gases to our world.

Thank you.
