Subject: [EXTERNAL] 2019 draft energy master plan
Date: Monday, September 16, 2019 11:59:55 AM

Dear BPU,

The 2019 EMP must include a moratorium on all new fossil fuel projects. How can NJ possibly meet its ghg reduction goals if we build new ghg emitting infrastructure?

Furthermore, we should aim for Clean Renewable Energy, rather than "carbon neutral".

Thank you.

Kerry Doyle
