Subject: [EXTERNAL] 2019 Draft Energy Master Plan
Date: Monday, September 16, 2019 10:42:27 AM

Dear Gov. Murphy,

I implore you to put a moratorium on all new fossil fuel projects in New Jersey. The New Jersey existing goal of reducing Green House Gas cannot possibly be met if NJ persists any of the dozen or so proposed fossil fuel projects. These new Projects alone will increase Green House Gas emissions by well over 30%.

The goal of 100% carbon neutral energy by 2050 must be replaced with the goal of achieving 100% clean renewable energy by 2050. Carbon neutral includes energy from fossil fuel power plants with ineffective market-based schemes like carbon offsets, pollution credits and other pay to pollute schemes.

Thanks you for your anticipated correct response for the citizens of NJ.
