**Subject:** [EXTERNAL] 2019 Draft Energy Master Plan.  
**Date:** Monday, September 16, 2019 8:46:59 AM

---

Governor Murphy - please enact the moratorium on fossil fuels. There are many reasons, but a few I feel are important are below...  
please, do the right thing for NJ - I have believed in you since the beginning - please believe in NJ and do the right thing!

**New Jersey has been impacted by climate change more than many states**

**Fossil fuel infrastructure locks in dependence on greenhouse gas production**

**A moratorium encourages investment in clean energy production**

Sincerely, Michele Van Allen  
Sussex County, NJ
