Subject: [EXTERNAL] Please help change JCPL regulation for Demand charge one year policy.
Date: Wednesday, September 11, 2019 10:04:36 PM

Please NJBPU comms~ please challenge and change regulations by the electric companies that waste customers money and have no refunds in return. The one year policy wait-out to see if you need demand electric does not listen to the current customer pleading to JCPL to review their new accounts in order to prevent these charges. It's wasteful and not smart in these times of pollution and climate change.

NJBPU I'm depending on you to back me up.. but you don't , so how can I see you get the new going with cost savings, less waste without an ear to a customer reasonable requests.

Sincerely , Sue Axamethy Pittstown NJ
