TRUST MEMBER COMMENTS

Mr. Wegner expressed his concern about bill S-206 permitting nonagricultural commercial activities on preserved farmland. Ms. Craft said the bill passed the Senate January 9 and she expects Governor Codey to sign it before his term ends January 17. Ms. Craft said the bill was intended to help owners of preserved farmland improve commercial revenue. She said it would affect a limited number of farms preserved years ago without nonseverable exceptions to permit some nonagricultural commercial activity within existing structures.

Mr. Wegner said media reports and public relations fallout from the bill reflect badly on the Farmland Preservation Program with false claims that retail stores like "Wawa" would appear on preserved farmland. He said these claims have prompted opposition to preservation funding. Ms. Craft agreed.

Mr. Wegner (who owns a preserved farm) called for a public relations effort at the State Agriculture Development Committee to give the public a correct view on S-206. Ms. Craft agreed and said such an effort is already being developed.

Mr. Flynn questioned whether commercial activity on a preserved farm allowable under S-206 would nullify tax deductions that may have been claimed for bargain sale donations on preserved farms.

<u>PUBLIC COMMENTS</u> No members of the public attended.
