

### **Diseases reportable via electronic case reporting (eCR) (Effective 1/23/2026)**

The diseases for which electronic case reporting (eCR) has been implemented are listed below. All disease reports for these conditions will be generated and transmitted via eCR if eCR functionality is established for the provider's facility and EHR and all required clinical information is entered into the electronic medical record. To check if your facility and EHR are established and certified to transmit disease reports for these conditions via eCR please contact your administrator, EHR vendor or NJDOH at [eCR@doh.nj.gov](mailto:eCR@doh.nj.gov).

<b>Disease</b>	<b>eCR Implementation Date</b>
COVID-19	January, 2024
Hepatitis C	July, 2024
Chlamydia trachomatis	December, 2024
Gonorrhea	December, 2024
Listeriosis	April, 2025
