Note: "COVID Confirmed" are persons who tested positive for COVID-19. "COVID Suspect" are persons who have had COVID-19 symptoms but were not tested for COVID-19 or who have pending COVID-19 test results.

\*Unmatched facilities have the prefix "NOMT"; see NJHA unmatched facilities tab  
§ Facilities with inconsistent reports. Additional investigations are ongoing.

**FACILITY TYPE KEY**

\*Facilities elevated to an E-number from an I-number

IL Independent Living Facility

Notes:

- Starting 7/13/20, concluded outbreaks began being removed from the list; only active outbreaks remain on the list.
- Starting 5/7/20, data from most facilities are coming directly from facility self-report. For facilities that have not yet completed survey, data continue coming from line list populated by CDS.
- Starting 5/7/20, Number Suspect COVID Residents/Staff replaces Number of Ill Residents/Staff on survey and in line list. Definition for Suspect COVID is more specific than the definition of Ill; thus, many facilities' counts have decreased.
- Starting 12/18/2020, Active and Concluded OBs are listed separately to provide details of all the outbreaks. Concluded OBs file is reported once a week on Friday.
- Starting 02/01/2021, CFID facilities are removed from this Line List. Please visit <https://nj.gov/humanservices/coronavirus.html> for COVID-19 counts in residential developmental centers.
- Yellow highlights = Newly added facility outbreak
- Due to data discrepancies reported in the survey responses over the weekend of 7/24/2021 and 7/25/2021, the data were not included in this report for those dates.

\* Outbreaks are considered concluded when there are no symptomatic/asymptomatic probable or confirmed COVID-19 cases after 28 days (2 incubation periods) has passed since the last case's onset date or specimen collection date (whichever is later). If new COVID-19 positive cases are reported in a long-term care facility after this time, this would be considered a new outbreak.
