Getting Your COVID-19 Vaccine Is One Of The Many Steps You Can Take To Stay Healthy

Let's Get Vaccinated

covid19.nj.gov/vaccine

Step 1: Make Your Appointment

If you are eligible to receive a vaccine:

- Register for the vaccine on the NJ Vaccine Scheduling System, and you will be notified when an appointment is available to you. Call 1-855-568-0545 if you need assistance.

- OR, make an appointment directly with one of the designated vaccine sites.

Please be patient. Supplies are limited and it may take some time to set up your appointment. Eventually everyone who wants it will receive the vaccine!

Step 2: Get Vaccinated

When you get your vaccine, you will receive the following:

- Information about the vaccine you are receiving
- Monitoring for 15-30 minutes to make sure you have no immediate side effects
- A card that lists the vaccine name, date, location, and when to receive your second dose. Make your second dose appointment at the site where you received your first dose!

Step 3: Stay Healthy

Stopping a pandemic requires using all the tools we have available. Know that it takes time for your body to build protection after any vaccination, so it is important that you continue wearing a mask, practicing physical distancing, washing your hands frequently, and staying home when sick.

You can get a vaccine for free regardless of your documentation or insurance status.
