

Infection Control Assessment & Response (ICAR) Consultations

The Road to a Healthier New Jersey

The ICAR Unit uses a consultative and collaborative approach to evaluate the **strength of infection prevention programs** in a variety of healthcare settings to enhance the safety and wellbeing of healthcare consumers.

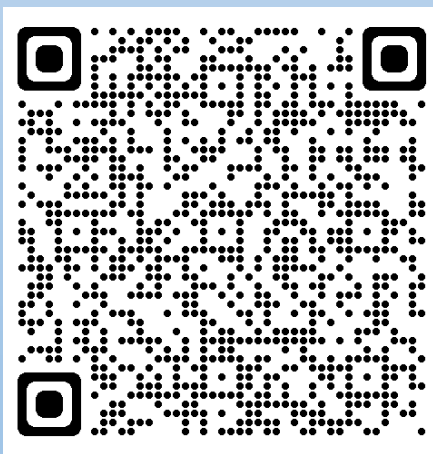

Partnering Across the Healthcare Continuum

NJDOH welcomes the opportunity to partner with all type of healthcare settings across the continuum of care. ICAR resources were developed to simultaneously assess and guide healthcare facility adherence to basic infection prevention practices and performance improvement activities. Visits are consultative and are provided at no cost.

Relationship Building

The ICAR Unit will make the visit simple, valuable, and conducive to the development of a continuing partnership. Assessing overall infection prevention throughout the state will have lasting effects on the health and safety of the healthcare consumers of New Jersey.

Schedule Now

Facilities may schedule a FREE ICAR consultation at <https://outlook.office365.com/owa/calendar/ICARPreventionAssessment@SoNJ.onmicrosoft.com/bookings/>.
