

Project Firstline Rural Learning Needs Assessment

10 Minute Survey

Participate in the survey today and help shape future infection prevention and control (IPC) training tailored for healthcare providers.

If you work in the following counties, we want to hear from you!

Atlantic

Cumberland

Hunterdon

Salem

Sussex

Warren

Infection Control Training

New Jersey Department of Health is partnering with CDC's Project Firstline to enhance IPC training for healthcare workers in rural communities. Your responses will be used to identify training gaps and inform the development and delivery of future trainings.
