

PROTECT YOURSELF AND YOUR BABY WITH VACCINES

**Pregnant people are recommended to
receive the following vaccines:**

Flu

Tdap (Whooping Cough)

COVID-19

RSV

The protection you receive from vaccines will be passed on to your baby and help to protect you both.

**For more information, scan or visit
nj.gov/health/vaccines**

**For more information about vaccines recommended during pregnancy, visit the American College of Obstetricians and Gynecologists (ACOG) website:
