Substance Use Disorder
Prevention and Treatment Resources

A guide for people living with Substance Use Disorder, their families, and friends
### RECOGNIZE SYMPTOMS OF AN OVERDOSE

<table>
<thead>
<tr>
<th>Common overdose situations:</th>
<th>Check for signs of overdose:</th>
<th>Take Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>• When tolerance is down due to not using (ex. After being incarcerated or in drug-free treatment)</td>
<td>• Person is unconscious or not waking up</td>
<td>If the person has signs of an overdose:</td>
</tr>
<tr>
<td>• When drugs are mixed, especially with alcohol or benzodiazepines</td>
<td>• No response to shouting or rubbing knuckles on chest</td>
<td>1. Call 9-1-1</td>
</tr>
<tr>
<td>• When using alone</td>
<td>• Person is not breathing or struggling to breathe</td>
<td>2. Give naloxone</td>
</tr>
<tr>
<td></td>
<td>• Snoring, choking, or gurgling sounds</td>
<td>3. Start CPR</td>
</tr>
<tr>
<td></td>
<td>• Pinpoint or small pupils</td>
<td>Instructions on next page...</td>
</tr>
</tbody>
</table>

The Good Samaritan Law provides some legal protection to anyone who gives naloxone or calls 9-1-1 in an overdose situation.
# HOW TO TAKE ACTION

<table>
<thead>
<tr>
<th>STEP</th>
<th>Action</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Call 9-1-1</td>
</tr>
</tbody>
</table>
| 2    | **GIVE NALOXONE**  
  - Lay the person on their back  
  - Remove the naloxone nasal spray from the box  
  - Peel back the tab with the circle to open the naloxone  
  - Hold the naloxone with your thumb on the bottom and your first and middle finger on either side of the nozzle  
  - Insert the tip of the nozzle in one nostril and firmly press the plunger to administer naloxone |
| 3    | If the person is not breathing, immediately begin **STEP 4**.  
If the person is breathing, begin **STEP 5**. |
| 4    | **START CPR**  
  - Place the heel of your hand on the center of the person's chest and place your other hand on top  
  - Start chest compressions  
    - Push hard and fast and let their chest rise between each compression  
    - Do 30 compressions  
  - Give 2 breaths  
  - Squeeze the person's nose  
  - Place your mouth over theirs and give them 2 breaths  
  - If the person does not wake up or start breathing on their own after 2-3 minutes, **REPEAT STEP 2**  
  - If the person wakes up or starts breathing on their own, begin **STEP 5** |
| 5    | Place the person on their left side.  
If the patient does not wake up within 2-3 minutes, **REPEAT STEP 2**. |
Q: What is naloxone?
A: Naloxone (or Narcan®) is a lifesaving drug that reverses the effects of an opioid overdose.

Q: Where can I get naloxone?
A: Naloxone is available at Harm Reduction Centers, Opioid Overdose Prevention Programs, and pharmacies. First responders participating in the Naloxone Leave Behind program may leave naloxone with the patient, friend, or family member after an overdose.

Q: What should I do with the naloxone I received from a first responder, healthcare provider, or pharmacy?
A: You should keep the Naloxone in a safe place that is accessible in the event of an overdose. The previous page explains how to use naloxone if you see someone showing the signs of an overdose.
Are you ready to begin treatment?

Are you concerned about your physical or mental health?

Do you want to quit using substances, but feel like it is too hard?

Is substance use interfering with your life?

Are your loved ones worried about you?

If you answered yes to one or more of these questions, consider treatment.
Call 1-844-ReachNJ (1-844-732-2465) or go to ReachNJ.gov.
HARM REDUCTION

Harm reduction is an evidence-based intervention that minimizes the negative health consequences from using substances. This approach meets patients where they are and can help lead them to recovery over time.

Harm Reduction Resources include...

- Free clean needle exchange
- Peer support specialists
- Condom distribution
- Pre-Exposure Prophylaxis (PrEP)
- Education about Substance Use Disorder (SUD)

- Naloxone distribution
- On-site medical care
- HIV and Hepatitis testing
- Fentanyl test strips
- On-site counseling and referral to social services

There are 7 Harm Reduction Centers in NJ. See next page for contact information.
MERCER COUNTY
Hyacinth AIDS Foundation
849 West State St.
Trenton, NJ
732-447-3174
Hours: Wed: 12-3pm

HUDSON COUNTY
Hyacinth AIDS Foundation
48 Fairview Ave.
Jersey City, NJ
201-360-3910
Hours: Mon, Thurs: 12-3pm

HARM REDUCTION CENTERS IN NJ
