What is a Designated Use?

New Jersey's [Surface Water Quality Standards \(SWQS\)](#) establish the designated uses of the State's surface waters, classify surface waters based on those uses, and specify the water quality criteria and other policies necessary to attain those uses. Designated uses include water supply for drinking, agriculture and industrial uses, fish consumption, shellfish resources, propagation of fish and wildlife, and recreation.

The table below show the designated use information for your municipality. For more information on Surface Water Quality, see the Healthy Community Planning Report for this municipality.

AU_name	Aquatic_General	Aquatic_Trout	Water_Supply	Recreation	Shellfish	Fish_Consumption
Pascack Brook (below Westwood gage)	Non Attaining	NA	Non Attaining	Non Attaining	NA	Insufficient Data
Pascack Brook (above Westwood gage)	Non Attaining	NA	Non Attaining	Non Attaining	NA	Insufficient Data
Hackensack R (Oradell to OldTappan gage)	Non Attaining	NA	Non Attaining	Non Attaining	NA	Non Attaining
