What is a Designated Use?

New Jersey's [Surface Water Quality Standards \(SWQS\)](#) establish the designated uses of the State's surface waters, classify surface waters based on those uses, and specify the water quality criteria and other policies necessary to attain those uses. Designated uses include water supply for drinking, agriculture and industrial uses, fish consumption, shellfish resources, propagation of fish and wildlife, and recreation.

The table below show the designated use information for your municipality. For more information on Surface Water Quality, see the Healthy Community Planning Report for this municipality.

AU_name	Aquatic_General	Aquatic_Trout	Water_Supply	Recreation	Shellfish	Fish_Consumption
Woodbury Creek (below Rt 45)/LDRV to B T Ck	Non Attaining	NA	Attaining	Insufficient Data	NA	Non Attaining
Big Timber Creek (below NB/SB confl)	Insufficient Data	NA	Attaining	Insufficient Data	NA	Non Attaining
Delaware River 3	Non Attaining	NA	Attaining	Attaining	NA	Non Attaining
