New Jersey’s Surface Water Quality Standards (SWQS) establish the designated uses of the State's surface waters, classify surface waters based on those uses, and specify the water quality criteria and other policies necessary to attain those uses. Designated uses include water supply for drinking, agriculture and industrial uses, fish consumption, shellfish resources, propagation of fish and wildlife, and recreation.

The table below show the designated use information for your municipality. For more information on Surface Water Quality, see the Healthy Community Planning Report for this municipality.

**Map**
- Highlighted areas indicate municipalities.
- Legend keys the municipalities to the state comparison data.

**Map Details**
- Date: 4/17/2022
- Scale: 0 to 3.5 miles
- Miles: 0, 1.75, 3.5

**Map Key**
- Municipalities
- High Bridge Boro

**Data**
- Lung Cancer Deaths
- Hunterdon County
- Municipalities listed include: High Bridge Boro, Flemington Boro, Lebanon Boro, Clinton Boro, and others.

**Analysis**
- The map shows the age-adjusted death rate for lung cancer per 100,000 people from 2015 to 2019.
- Municipalities are color-coded to indicate whether the death rate is above, below, or no difference from the state average.
- High Bridge Boro is highlighted, indicating it is above the state average.
