What is a Designated Use?

New Jersey's [Surface Water Quality Standards \(SWQS\)](#) establish the designated uses of the State's surface waters, classify surface waters based on those uses, and specify the water quality criteria and other policies necessary to attain those uses. Designated uses include water supply for drinking, agriculture and industrial uses, fish consumption, shellfish resources, propagation of fish and wildlife, and recreation.

The table below show the designated use information for your municipality. For more information on Surface Water Quality, see the Healthy Community Planning Report for this municipality.

| AU_name | Aquatic_General | Aquatic_Trout | Water_Supply | Recreation | Shellfish | Fish_Consumption |
|------------------------------------------|-------------------|---------------|---------------|-------------------|-----------|-------------------|
| Millstone R (RockyBk to Applegarth road) | Non Attaining | NA | Non Attaining | Non Attaining | NA | Insufficient Data |
| Rocky Brook (above Monmouth Co line) | Insufficient Data | NA | Non Attaining | Attaining | NA | Insufficient Data |
