What is a Designated Use?

New Jersey's [Surface Water Quality Standards \(SWQS\)](#) establish the designated uses of the State's surface waters, classify surface waters based on those uses, and specify the water quality criteria and other policies necessary to attain those uses. Designated uses include water supply for drinking, agriculture and industrial uses, fish consumption, shellfish resources, propagation of fish and wildlife, and recreation.

The table below show the designated use information for your municipality. For more information on Surface Water Quality, see the Healthy Community Planning Report for this municipality.

AU_name	Aquatic_General	Aquatic_Trout	Water_Supply	Recreation	Shellfish	Fish_Consumption
Ramapo R (below Crystal Lake bridge)	Non Attaining	Insufficient Data	Attaining	Non Attaining	NA	Non Attaining
Pompton River	Non Attaining	NA	Non Attaining	Non Attaining	NA	Non Attaining
Pequannock R (below Macopin gage)	Attaining	Non Attaining	Attaining	Attaining	NA	Non Attaining
Lincoln Park tribs (Pompton River)	Non Attaining	NA	Non Attaining	Non Attaining	NA	Insufficient Data
