Welcome to the NJ Patient Safety Reporting System

NJ is committed to promoting patient safety and preventing serious preventable adverse events. In 2004, the **New Jersey Patient Safety Act** (P.L. 2004, c9) was signed into law. The statute was designed to improve patient safety in hospitals and other health care facilities by establishing a serious preventable adverse event reporting system. This site is designed to help healthcare facilities develop strong patient safety programs, collect and analyze aggregate data and fulfill the law's mandatory reporting requirements

Additional resources may be found on the Patient Safety website at:

<input checked="" type="checkbox"/> Increased level of care	<input type="checkbox"/> No apparent injury
<input checked="" type="checkbox"/> Surgery is required	

Please supply a description of the event or situation you are reporting including the impact on the patient:

RN heard patient's bed alarm sounding and responded. RN found patient on floor next to bed c/o pain in left hip (8 out of 10). Patient stated she was attempting to go to the bathroom. Patient known to be impulsive related to toileting and confused at times.

RN alerted care team on the unit and the house physician. Patient went to OR for surgical repair (ORIF) of left hip fracture.

Prior to fall, patient was able to ambulate with minimal assistance. After the fall, the patient was unable to ambulate independently and will require PT/OT for at least several weeks for this injury.

Immediate clinical action(s) taken for patient:

House physician called and assessed patient. Care team assisted patient back to bed. X-ray ordered which showed left hip fracture. Pain medication administered prn. Family notified. Surgical consult ordered and ORIF performed.

Note this example is an illustration of an incomplete description of the event. In later slides, PSRS will show you how to modify this entry to reflect best practices.

II. Entering an Event– *continued*

Immediate new corrective action(s) to prevent future similar events in all patients while the RCA is underway:

Re-evaluate level of observation for confused patients that do not routinely ask for assistance. Revise policies and procedures to reflect that confused patients will have minimum level of observation as "line of sight," with closer levels of observation as indicated by patient's individualized needs.

The screenshot displays the NJ Health Patient Safety Reporting System interface. At the top left is the NJ Health logo (New Jersey Department of Health) and the text "State of New Jersey Department of Health Patient Safety Reporting System". A navigation bar contains "HOME", "ADD EVENT", "VIEW EVENTS" (with a dropdown arrow), "RESOURCES" (with a dropdown arrow), and "Admin" (with a dropdown arrow). Below the navigation bar, the text "Logged in as:" is followed by a list of instructions: "Click [HERE](#) to send DOH a comment" and "Click [HERE](#) to see the Communication Log". Below this list are two buttons: "Initial Event" and "Root Cause Analysis". A "Report Menu:" section contains a button labeled "Under Review". The "Report Number: 20180356" is displayed in a light blue bar. Below that, the "Event Classification: Environmental - Fall" is shown in a light yellow bar, with a "Print Screen" button to its right.

Patient Safety Reporting System

III. Event Review by PSRS

1. Automated e-mail sent to PSRS when Event is submitted
2. PSRS reviews the Event

III. Event Review by PSRS - *continued*

3. When PSRS makes a determination about the event, an email will be sent to the FacAdmin
 - *A determination has been made on this event. Please log into the Patient Safety Reporting System to view the details of the event and respond accordingly.*
 - **Note: PSRS must be added as a safe sender so PSRS emails do not go to your spam folder**
4. A Facility User must log into the PSRS to read the Determination, which will be located in the Communication Log for that event, and respond accordingly

III. Event Review by PSRS - *continued*

Possible Review Outcomes:

- 1. Reportable RCA Required**
- 2. Reportable RCA Not Required**
- 3. Not Reportable**
- 4. Less Serious or Near Miss**
- 5. Need More Information**

III. Event Review by PSRS - *continued*

Reportable RCA Required

- 1. The Event is subject to the Patient Safety Act and Reporting Requirements**
- 2. A root cause analysis (RCA) must be completed by the facility and submitted to PSRS**
- 3. An email is sent to the FacAdmins**
 - The RCA Due Date will be provided in the email and can also be located in the Communication Log

III. Event Review by PSRS - *continued*

Reportable RCA Required - *continued*

- 4. A Facility User must log into the PSRS to read the Determination, which will be located in the Communication Log for that event.**
- 5. There are usually comments from the event reviewer that should be reviewed and addressed when the RCA is submitted.**

III. Event Review by PSRS - *continued*

Reportable RCA Not Required

- 1. The Event is subject to the Patient Safety Act and Reporting Requirements**
- 2. A root cause analysis (RCA) does not need to be completed by the facility**

Example: RFO discovered but retained at a different facility
- 3. An email is sent to the FacAdmins**
- 4. A Facility User must log into the PSRS to read the Determination, which will be located in the communication log for that event**
- 5. There may be comments from the event reviewer which should be reviewed**

III. Event Review by PSRS - *continued*

Not Reportable

- 1. PSRS recommends internal analysis**
- 2. A root cause analysis (RCA) does not need to be submitted to PSRS**
- 3. An email is sent to the FacAdmins**
- 4. A Facility User must log into the PSRS to read the Determination, which will be located in the communication log for that event**
- 5. There may be comments from the event reviewer which should be reviewed**

III. Event Review by PSRS - *continued*

Less Serious or Near Miss

- 1. PSRS recommends internal analysis**
- 2. A root cause analysis (RCA) does not need to be submitted to PSRS**
- 3. An email is sent to the FacAdmins**
- 4. A Facility User must log into the PSRS to read the Determination, which will be located in the communication log for that event**
- 5. There may be comments from the event reviewer which should be reviewed**

III. Event Review by PSRS - *continued*

Need More Information

- 1. PSRS makes comments to determine the status of the event**
- 2. An email is sent to the FacAdmins**
- 3. A Facility User must log into the PSRS and open the event to read the comments and respond accordingly**

III. Event Review by PSRS - *continued*

Need More Information - *continued*

4. Comments can be accessed by:
 - A comment link in the event
 - Only visible in sections of the event with PSRS comments
 - Click on 'Comments' link
 - A link to the comment through the Communication Log
 - Click HERE to see the Communication Log
 - Click HERE to view all comments

III. Event Review by PSRS - *continued*

Need More Information - *continued*

5. Respond to all comments by editing the event

- Click on 'Edit' in the section(s) with the Comments
- Provide responses to the comments/questions
- The description of the event is an unlimited text field

6. Resubmit the event to PSRS

- Click on 'Save' to keep the changes
- Click on the 'Submit Event' tab to resend the event to PSRS

7. There may be more than 1 cycle of responding to comments

III. Event Review by PSRS - *continued*

Comment Link in Event

The screenshot shows a web interface for 'DOH Comments'. At the top, there is a red header with the text 'DOH Comments'. To the right of the header is a blue link that says 'Click to Print This Page'. Below the header is a rich text editor toolbar with various icons for editing text, including cut, copy, paste, undo, redo, bold, italic, underline, strikethrough, bulleted list, numbered list, link, unlink, and a checkmark. Below the toolbar, the text 'Arial' is displayed next to a dropdown arrow, followed by '(Font Size)' and another dropdown arrow. To the right of these are icons for bold (B), italic (I), underline (U), strikethrough (ABC), bulleted list, numbered list, and a link icon. Below the toolbar and font settings is a large text area containing the prompt: 'Please provide a more detailed and specific timeline regarding the event and the impact and outcome for the patient.'

Edit Event

Severity of injury (check as many as apply):

- Death
- Increased length of stay is anticipated
- Increased level of care
- Surgery is required
- Cast/immobilization
- Minor injury
- No apparent injury

Please supply a description of the event or situation you are reporting including the impact on the patient:

11/20/2018 at 0100 - RN heard patient's bed alarm sounding and responded. RN found patient on floor next to bed c/o pain in left hip (8 out of 10). Patient stated she was attempting to go to the bathroom. Patient known to be impulsive related to toileting and confused at times. RN alerted care team on the unit and the house physician. BP 120/62, HR 86, RR 16, T 99, pulse ox 96% on room air.

11/20/2018 at 0105 - House physician at bedside to assess patient. Team assisted patient back to bed. Physician noted external rotation of left leg. X-ray of left hip ordered. Patient placed on a 1:1 due to her confusion and impulsivity.

11/20/2018 at 0115 - Percocet administered for pain.

11/20/2018 at 0145 - X-ray of left hip showed non-displaced fracture of greater trochanter. Injury discussed with patient and family notified. Surgical consult ordered.

11/20/2018 at 0300- Surgical consult performed. Surgeon discussed options with patient and family and obtained informed consent to proceed with surgery.

11/20/2018 at 0800 - To OR for surgical repair (ORIF) of left hip fracture.
