

07/27/22

In attendance: Colleen, Antonia, Renata, Nadia, Loretta, Maria, Steven

Reviewed overarching goal and action items. All confirmed.

Colleen will reformat into the Goals template right after the call and open it up for final edits from the team by noon.

Action item refinements needed:

- Choose survey platform we will use for distribution and resulting
- Define geographic area of transportation assessment in phase 1
 - Union County has known transportation barriers
 - Loretta mentioned that it would be worth pulling reports on known transportation issues from prior studies to help refine
 - Colleen will also talk with some of her current grant partners to assess their counties
- Since action item addressing trainings was combined, we need to add context beyond the disability module to include the other focus areas
