# Healthy Communities ACT Meeting

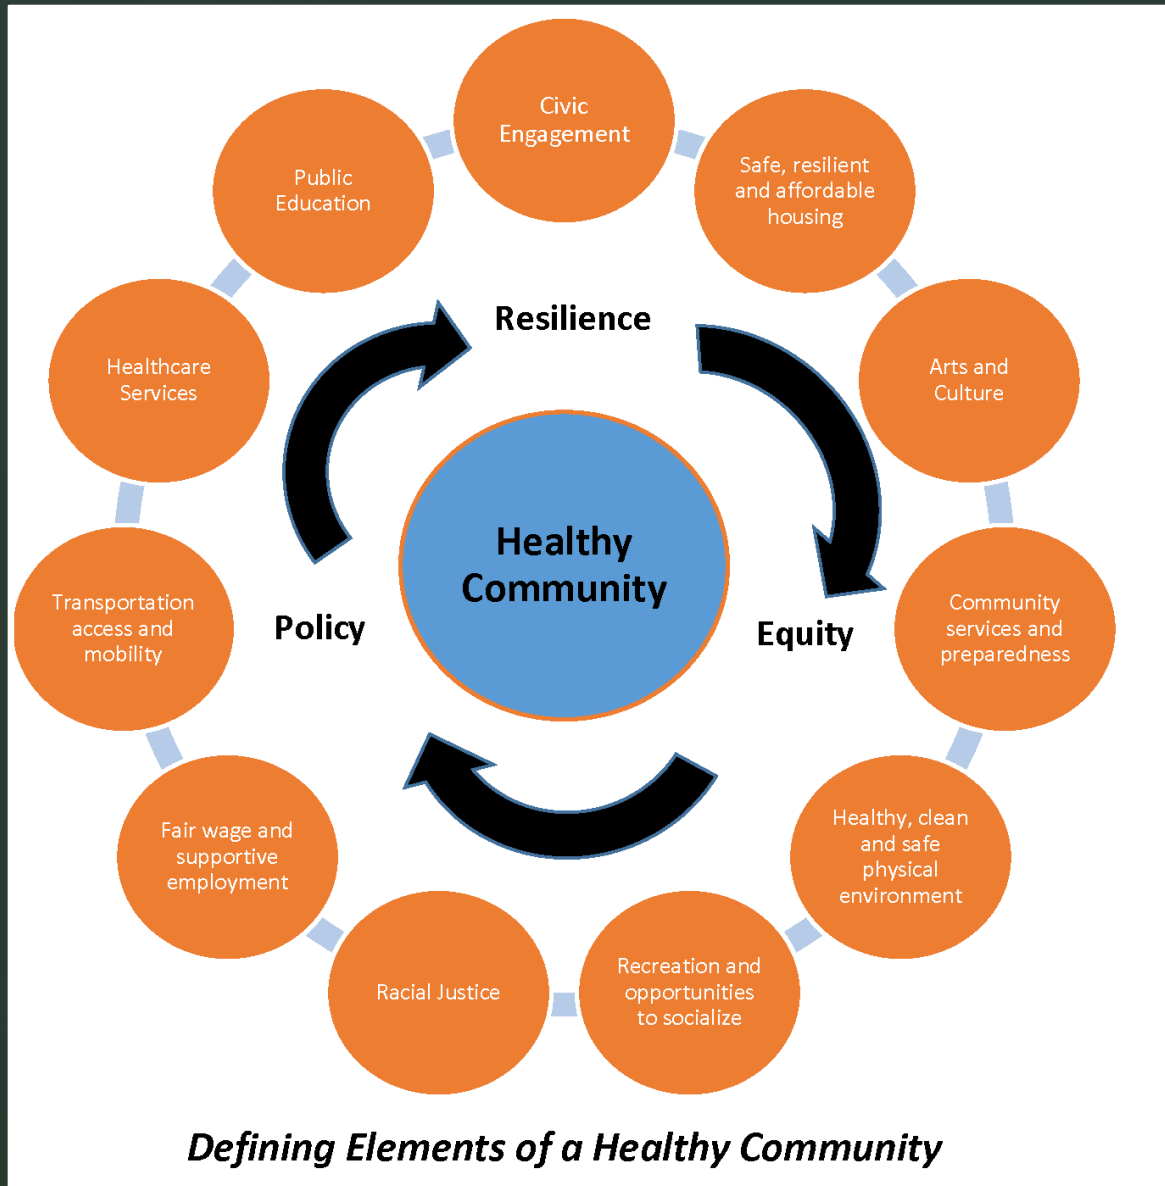

# HNJ2030 Framework: Overarching Goals

- Eliminate health disparities, achieve health equity, and attain health literacy
- Create social, physical, and economic environments that promote healthy and well-being
- Healthy development, healthy behaviors, and well-being across all life stages

# Healthy Communities Phase 1 Goals

- Provide all residents with equitable access to resources and conditions that support optimal health and well-being consistent with the principles of WHO's constitution which commits to "the highest attainable standard of health as a fundamental right of every human being."
- Establish inclusive and just systems, resources, and policies to ensure that racial equity, affordability, stability, safety, and political capital, are consciously interwoven into the cultural fabric.
- Ensure public accountability and transparency of efforts to advance just policy, systems and environmental changes to ensure health equity for all residents.

## Phase 1 Elements of a Healthy Community

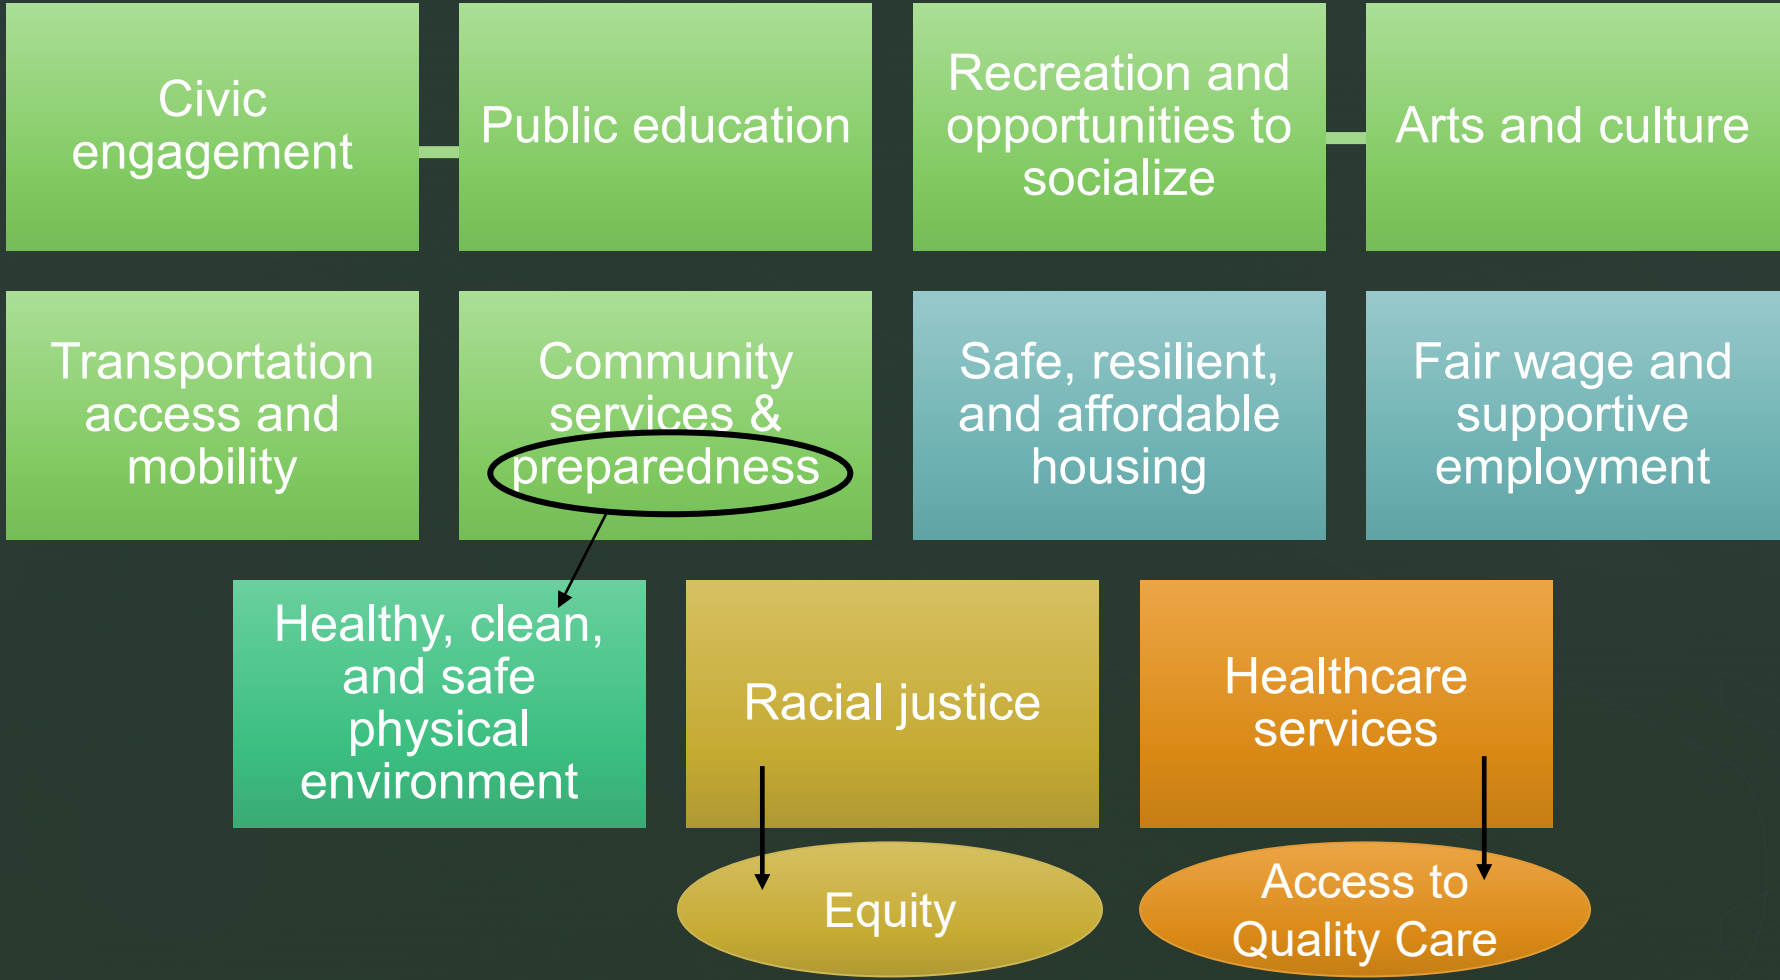

### Overarching statement

A *healthy community* is one in which all residents have equitable access to conditions that support optimal health and well-being, and where inclusive and just systems, resources and policies are in place to ensure that racial equity, affordability, stability, safety, and political capital, are consciously interwoven into the cultural fabric.

# 11 Elements of a Healthy Community

# Organizing and Assigning the 11 Elements
