

ADVISORY COUNCIL AND COORDINATING COMMITTEE

MEETING MINUTES

SEPTEMBER 20, 2022

ATTENDANCE

Alycia Bayne	Elizabeth Schedl	Peri Nearon
Arthur Horne	Julia Wieczorek	Steve Moffett
Bageshree Cheulkar	Loretta Kelly	Wendy Sheay
Camilla Comer-Carruthers	Megan Avallone	

ACTION PLAN REVIEW

- Healthy Communities: Programs & Services
 - Access to Information which is reliable and accurate -- decent plan, some notes
 - Where to assess community health needs in an effective way -- They laid out how community needs assessments are already done, so all the points put in there seem to be redundant (are being done now or are required). Maybe they're looking for more collaboration but if not then it's not very useful to just state what's going on now. However, additional resources are needed to do assessments at the county level.
- Healthy Living: Clinical Preventive Services
 - Straightforward, except part about languages needs to be expanded, maybe to top 10 languages spoken in NJ.
- Healthy Living: Healthy Eating & Active Living
 - Straightforward, in good shape, made comments but no substantive problems
 - Having a second AC member review is a good idea.
- No additional comments during meeting:
 - Healthy Families: Childhood Immunization
 - Healthy Families: Family Health
 - Healthy Living: Behavioral Health

NEXT STEPS

- Coordinating Committee will return plans to subcommittees with final comments.
- After subcommittee edits and gives OK, Coordinating Committee will send to respective DOH senior staff for review.

See meeting slides for more information. Only discussion items are included here.
