**SDOH Statement**

**Next steps**

**Adjourn**

# OBJECTIVES (SO FAR)

## Childhood Vaccination

- Eliminate the disparity in the percentage of children who receive all recommended doses of the Combined 7 Series by age 24 months.
- Increase the proportion of adolescents (age 13-15) who get recommended doses of the HPV vaccine to 80%.

## Maternal & Infant Health

- Eliminate the disparity in the infant mortality rate.
- Eliminate the disparity in the pregnancy-related mortality rate.

## Clinical Preventive Services

- Increase the proportion of New Jersey adults who have a primary care provider to 90%.
- Eliminate the disparity in colorectal cancer screening among adults aged 50 years and older.

# OBJECTIVES (SO FAR)

## Healthy Eating & Active Living

- Reduce household food insecurity among NJ residents to 7.9%.
- Reduce the percent of adults in NJ who do no leisure-time physical activity to 18.4%.

## Equitable Access to Care

- Eliminate the disparity in the percentage of persons aged 18-64 years unable to get needed medical care due to cost.

## Environmental Health

- Reduce heat-related emergency department visits in May through September
