

FINAL NARRATIVE REPORT

Brain Injury Core Facility Grant Program

A Final Narrative Report is required at grant termination. The Final Narrative Report must be submitted to the New Jersey Commission on Brain Injury Research's office within 60 days of termination of the grant.

Principal Investigator Name:

Address Information:

Email Address:

Grant Number:

Grant Period Covered By This Report:

Date of Submission of This Report:

ACCOMPLISHMENTS

What were the major goals of the project? List the major goals of the project as stated in the approved application, include the scientific or technological objectives of the effort. Describe the approach used to obtain these goals. List milestones and target dates for important activities or phases of the project. Show actual completion dates.

Project Successes - What was accomplished under these goals? Describe 1) major activities; 2) specific objectives; 3) significant results or key outcomes, including major findings, developments or conclusions - both positive and negative; and 4) other achievements.

Project Challenges - Include a discussion of stated goals not met. Provide details on any other challenges and problems encountered during the project period.

What opportunities for education, training, and professional development has the project provided? Describe opportunities for education, training and professional development provided to anyone who worked on the project, or to anyone who was involved in the activities supported by the project. Educational or Training activities may include courses or one-on-one work with a mentor, new techniques learned, etc. Professional development activities may include workshops, lectures, conferences, seminars, study groups, and individual study, etc.

How were the research results disseminated to scientific and non-scientific communities of interest? Describe how research results were disseminated to the community. Include any outreach activities that were undertaken to reach members of the community who are not typically aware of these project activities.'

What has the project produced? Describe the products that were developed under this award and describe how it was shared. List any products resulting from the project during the grant award period. (Examples of products include: publications, conference papers and presentations, website or internet sites, technologies, techniques, inventions, patent applications, licenses, data, databases, physical collections, audio or video products, software, models,

education aids or curricula, instruments or equipment, research materials, interventions - clinical, educational, or new business creation, etc.)

PUBLICATIONS, PAPERS, AND PRESENTATIONS

Report the publication(s) resulting from the research work under this award. These should include all journal publications, peer-reviewed articles or papers appearing in scientific, technical or professional journals. Identify for each publication the Author(s) title; journal; volume; year; page numbers; status of publication, and acknowledgement of the New Jersey Commission on Brain Injury Research support. You will need to attach a copy of each publication, paper and presentation.

PARTICIPANTS & OTHER COLLABORATING ORGANIZATIONS

Provide information on who worked on the project for 1) Principal Investigators, and 2) each person who worked on the project during the grant project period. Provide the name and identify the role of each person who worked on the project. Describe how each person contributed to the project.

Provide information on what other organizations have been involved as partners, what other collaborators or contacts have been involved. Describe partner organizations - academic organizations, other non-profits or for-profits, industrial or commercial firms, etc., that were involved with the project. List the partnerships name, location, and contribution to the project. (financial support, in-kind support, facilities, collaborations, personnel exchanges, etc.)

Were other collaborators or contacts involved? Describe any collaborations with others within your organization, interdepartmental or interdisciplinary collaborations, collaborations with others outside your organization, and collaborations or contacts with others outside the State of New Jersey. Identify all collaborator information. (name, address information)

IMPACT/OUTCOMES MEASURES

What was the impact of the project? How has it contributed?

Describe the ways in which the research work, findings, and specific products of this grant award have had an impact. Describe contributions, major accomplishments, innovations, successes, or any change in practice or behavior that has come about as a result of the project.

Describe the impact on other disciplines, describe improved performance, skills learned, exposures provided to other scientists, students, members of the public.

Describe ways in which the project made an impact on physical, institutional and information resources. (Infrastructure to include physical resources such as facilities, instruments, etc. Information resources to include electronic means for scientific communication, etc.)

FUTURE PLANS

Describe your plans to continue the research, including all applications submitted to other sources for on-going support.

Explain how you have leveraged the New Jersey Commission on Brain Injury Research funding to obtain additional federal or other support for brain injury research and list the appropriate funding organizations.
