

# PHEL Orders and Reporting

## How to Submit Respiratory Test Order

**Step 1:** Log into the [MyNewJersey](#) portal, look for DOH Apps and click on “PHEL Orders and Reporting.”

**Step 2:** Fill out the patient name, date of birth, and other demographics under “Patient Information”.

**Step 3:** Under “Order Choices,” use the search to find and check the appropriate order choice:

Select	Abbreviation	Name
<input type="checkbox"/>	<a href="#">95220</a>	Respiratory Pathogen Panel 2
<input type="checkbox"/>	<a href="#">90850</a>	Respiratory Viral Surveillance (Influenza + SARS
<input type="checkbox"/>	<a href="#">10010</a>	SARS-CoV-2 Diagnostic Testing
<input type="checkbox"/>	<a href="#">20212</a>	SARS-CoV-2 Whole Genome Sequencing- Varian

- Routine influenza/respiratory surveillance submission should select **Respiratory Viral Surveillance (90850)**.
- **Influenza Subtyping (90798)** should be used for patients with laboratory confirmed unsubtypeable influenza infections or other suspected novel influenza cases.
- **SARS-CoV-2 Diagnostic testing (10010)** should be used if you want to receive a diagnostic report on the patient's COVID-19 status.
- **Respiratory Pathogen Panel 2 (95220) and SARS-CoV-2 Whole Genome Sequencing (20212)** require prior approval from PHEL before submission. For approval, contact [pHEL.influenza@doh.nj.gov](mailto:pHEL.influenza@doh.nj.gov)

**Step 4:** Complete all sections that are required under the “Clinical Info” field. Sections required are marked in **red** with an asterisk.

**Step 5:** Click “Save” in the bottom right corner to save and submit.

[Print out the requisition form that pops up to accompany your sample to PHEL.](#)
